Investment thesis

SAPPE is a leader in the Thai functional drink market. It has been exporting to overseas markets over the past ten years with product champions, such as Mogu Mogu and Aloe Vera. Those products received such favorable responses that it resulted in continued increases in the export sales mix. According to the latest data in 2023, exports stood at 81% of total revenue, with solid growth in all key markets, such as Asia (Indonesia, the Philippines, South Korea), Europe (France and the UK), the US, and the Middle East. In 2024-26, management set a continued revenue growth target of 20-25% p.a. with a long-term revenue target of THB10b by 2026.

Company profile

SAPPE manufactures and distributes healthy food and beverages, with Mogu Mogu, fruit juice with nata de coco, as its first beverage in 2001. Later, it expanded product lines and brands, including Beauti Drink, Aloe Vera, and Preaw Coffee. In 2016, SAPPE invested in All Coco coconut juice. In 2019, it partnered with Danone to set up Danone Sappe Beverage to introduce beverages under the B'LUE brand.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.
