### หนังทำเงินกลับมาแล้ว แต่ไม่ใช่ในประเทศไทย

ในระยะสั้นแนวโน้มของ MAJOR ยังไม่แน่นอน เนื่องจากสถานการณ์ Covid-19 ในประเทศดู แย่ลง เราเชื่อว่าโรงภาพยนต์จะยังไม่กลับมาเปิดจนถึงเดือน ก.ย. 21 หรือกลางไตรมาส 4Q21 ในกรณีเลวร้าย ในทางตรงกันข้ามโรงภาพยนต์ส่วนมากในประเทศอื่นได้กลับมาเปิดและกำลัง ฉายหนังทำเงินแล้ว เราได้ปรับลดประมาณการกำไรของเราเพื่อสะท้อนการขาย SF และ ผลกระทบจากปัญหาการแพร่ระบาด Covid-19 ที่ยาวนานเกินคาด โดยเราคาดว่า MAJOR จะ ยังคงขาดทุนในปีนี้ที่ 405 ลบ. (ไม่รวมกำไรจาก SF) ก่อนพลิกมาเป็นกำไรได้ในปี 2022 ที่ 733 ลบ.

### ปรับลดคำแหะนำเป็นถือหลังปรับราคาเป้าหมายเป็น 23 บาท

เราเชื่อว่าราคาหุ้นของ MAJOR ได้สะท้อนการขายดังกล่าว เนื่องจากหุ้นปรับตัวเพิ่มกว่า 20% ตั้งแต่เดือนที่แล้วแม้ว่าแนวโน้มจะชะลอตัวลง ดังจากแนวโน้มชะลอตัวที่จะต่อเนื่องไปอย่าง น้อยอีก 1 ไตรมาส เราปรับลดคำแนะนำของเราเป็นถือจากซื้อหลังปรับราคาเป้าหมายปี 2022 เป้น 23 จาก 22 บาท (DCF, WACC = 8.6, TG = 1%) แม้ว่าบริษัทฯ อาจจะสูญเสียกระแสเงิน สดบางส่วนจาก SF กำไรจำนวนมากอาจช่วยชดเชยกระแสเงินสดที่เสียไปดังกล่าว

#### **Investment thesis**

Major Cineplex (MAJOR) is Thailand's leading lifestyle entertainment company and was established in 1995 with cinema ownership and operations as its core business. The company is the biggest cinema operator in Thailand, with a total of 815 screens and 171 locations nationwide and internationally.

Although its outlook remains weak in the short term, the strong lineup of blockbusters in the future should help MAJOR recover from its loss faster than other sectors. We expect the company to turn profitable in 4Q21, if the Covid situation in Thailand improves and all of the blockbusters can be shown in cinemas. MAJOR is a dividend play company that typically pays 90% of its payout ratio, reflecting a 5-6% dividend yield p.a.

#### **Company profile**

MAJOR operates five core businesses, namely 1) cinemas; 2) entertainment; 3) retail space bowling; 4) film distribution; and 5) advertising media.

#### Catalysts

- Its financial results should turn profitable starting from 4Q21;
- Healthier financial position with no debt after selling its shareholding in SF;
- Solid dividend yield track record at 5-6% p.a.

#### **Risks to our call**

The key upside and downside risks to our DCF-based TP are a slower or faster-than-expected recovery in domestic consumption, the growing popularity of online movies, and a delay in the Covid-19 vaccine rollout.

## Selling SF to CPN

MAJOR announced the sale of all of its shares (30.36%) in SF to CPN at a price of THB12/shr. Selling all 647m of its shares in SF will generate MAJOR cash of THB7.8b with a THB4.5b gain to be recognised (based on the cost of THB5/shr). An extraordinary general meeting of shareholders to approve this deal will be held in Aug-21. This means that the company may recognise this transaction in 3Q21. The company will gain THB7b cash, with a THB2.8b extra gain (after tax).

#### Expected benefits for the company

According to MAJOR, the transaction will benefit the company in the following ways:

- 1) Realisation of a post-tax gain from the sale of SF shares of approximately THB2.8b;
- 2) Improved performance due to lower finance costs as a result of a partial debt repayment funded by the proceeds from this transaction;
- 3) Lower debt to equity ratio, in accordance with the partial debt repayment, resulting in better financial flexibility which will help support its business expansion, including any business opportunities in the future.

#### Usage of funding

- 1) To gradually repay its debt of approximately THB5.3b;
- 2) To fund a business expansion of approximately THB265m;
- 3) To reserve working capital of approximately THB2.2b.

We think this is a good deal for MAJOR because the company's D/E (excl. financial lease) is now at 1.3x, almost hitting its debt covenant threshold at 1.5x. Selling SF will help the company achieve a net cash position and should make investors feel more comfortable with MAJOR's financial position.

However, although it may help the company to achieve a net cash position, and it is possible that MAJOR could have around THB5b cash in 2022, it is unknown what the company will do with this cash, as its business expansion plan should slow down from the past due to the Covid situation. We believe the company may spend some cash to pay a dividend to its shareholders as it may be unable to pay a dividend for two consecutive years due to its loss making in 2020-21E. We anticipate that MAJOR should pay a special dividend of around THB1b per share, reflecting over a 4.5% dividend yield.

Moreover, MAJOR will no longer recognise a share of profit from SF starting in 4Q21, which should slightly impact the company's 2021 results but significantly impact its future outlook. According to Bloomberg's consensus data, SF could have a 2021-22E core profit of THB1.25b-1.38b, respectively. This means, based on the 30.36% shareholding in SF by MAJOR, the company would lose a 2021E share of profit from SF of over THB95m (only in 4Q21) and a 2022E share of profit of THB419m (this may include the asset revaluation gain).

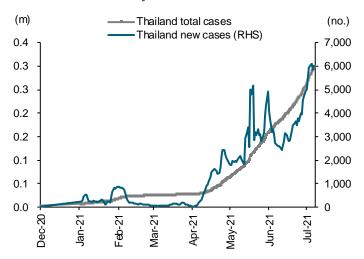

### Covid in Thailand is getting worse

Due to the longer-than-expected Covid outbreak in Thailand, the number of newly infected cases is still rising and reaching new highs every day. On 8 Jul-21, the number of new Covid cases and deaths was 7,058 and 75 cases, respectively. Today's infected cases are still rising compared to the 7-day average of 6,000 cases per day. It means that the number of new cases is still in an uptrend. We believe that if the Thai government does not have a strategy to maintain or reduce the new infected cases very soon, the timeframe in which Thailand can resume economic activities and reopen cinemas would also have to be postponed continuously.

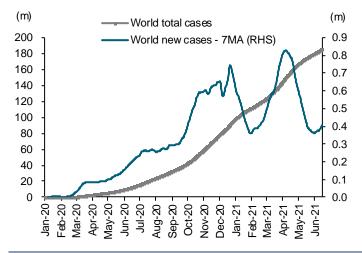

Based on our base case scenario, we expect that the Thai government will have a more intense lockdown compared to the current situation, acting as fast as possible. In this case, we believe that new infected cases may not reach 10,000 cases per day. We anticipate that Thailand should be able to maintain the newly infected cases and can reopen cinemas in early Sep-21.

On the other hand, our worst-case scenario is if the Covid situation gets worse every day and the government implements no further restrictions, lockdowns, or takes action too late to have any impact when the Covid outbreak becomes worse and new infected cases reach 10,000 cases per day. In this case, we believe that cinemas would be able to reopen in late Oct-21.

#### Exhibit 4: Thailand daily Covid cases

#### Exhibit 5: World daily Covid cases

#### How much would a lockdown impact MAJOR's share price?

The third wave of Covid that forced MAJOR to close most of its cinemas in Bangkok in Apr-21 should have pressured its share price, however, thanks to the rumoured SF deal that was published in a local newspaper, MAJOR's share price surged by over 24% within one month, even though the Covid situation in Thailand was getting worse every day. If the government announces a full lockdown, similar to the first lockdown during the pandemic, we believe MAJOR's share price may decline continuously to reach THB18. THB18 was the lowest share price level during the early stage of the third wave of Covid-19. Therefore, we think the maximum drawdown of MAJOR's share price should be to THB18, then remain sideways or gradually increase when the situation gets better.

### Blockbusters already on cinema screens globally

Much of the world can already enjoy *Fast and Furious 9* (FF9) at the cinema. It already hit over USD500m at the box office. *Black Widow* (BW) is also scheduled to be released on 9 Jul worldwide and will be on the Disney+ platform (excl. Thailand) for an additional fee of USD29.99. We believe this is a key change to MAJOR's short-term outlook, as moviegoers in Thailand will have to watch these blockbusters later than other countries for the first time in history. Based on the Covid situation in Thailand, we anticipate that theatres may able to reopen in early Sep-21, which is over a month delay from other countries. Note that MAJOR expects BW and FF9 to be shown in Thai cinemas on 29 Jul and 12 Aug, respectively.

Moreover, free downloads/views of the movies from illegal sources will be released faster than MAJOR can reopen cinemas, which will be a huge impact on MAJOR's box office revenue, in our view. Note that *Mulan*, the movie from Disney in 2020, also released on Disney+ on the same day as cinemas. Illegal sources also released the movie on the same day as the official release. This means that releasing new movies to subscription video-on-demand (SVOD) platforms makes it easier for illegal sources to capture the movies and release them to people through websites for free. We think this is another downside risk to MAJOR's box-office revenue once the cinemas reopen. This is because some people may not want to wait for cinemas to reopen to watch these blockbusters. They can get a good quality copy from an illegal source and enjoy watching these movies from home for free. They can also avoid Covid by not going to the cinema where there could be large crowds of people.

#### Lead-time shortening is a future downside risk.

Meanwhile, BW will be on Disney+ Hotstar (Thailand) on 6 Oct. All Disney+ subscribers in Thailand can watch BW for free within only 2.5 months from the cinema release. This is a very short window for the movie industry. Normally, movies on the second screen via DVD, blue-ray discs, or SVOD need to have a lead time of at least three months. Reducing the window now may be a sign that the future movie industry's lead time between the cinema screen and second screen will keep shortening. This could be a downside risk for the cinema industry in that moviegoers may have less motivation to go to the cinema since they can wait only 2-2.5 months to watch movies on the second screen.

## **Financial highlights**

#### Weak 2Q21E results

Most of MAJOR's cinemas have been temporarily closed since 10 Apr-21. 461 cinema screens (from 871 screens) and 86 branches in 28 provinces are now closed during the third wave of Covid-19. Bangkok, the province that generates almost 50% of MAJOR's cinema revenue, remains closed. There were only a few movies that were released in 2Q21, which had to be shown only in rural areas. Therefore, we expect MAJOR's 2Q21 revenue to come in at only THB295m (-65% q-q, +42% y-y). On the cost side, MAJOR's SG&A should slightly decrease from 1Q21. MAJOR is still trying to minimise its costs as much as possible. As a result, we expect the company to make a greater core loss in 2Q21 at THB262m vs THB120m in 1Q21 and a THB430m core loss in 2Q20.

#### Earnings estimate cuts

Due to the impact of the longer-than-expected Covid outbreak in Thailand and the downside risk of the possibility of underperforming blockbusters that have already been shown globally but not in Thailand, we cut our revenue assumption by 48% y-y to THB3.2b (-16% y-y) for 2021, mainly due to a huge cinema guest count cut, while every business should also take another hit from Covid-19. Cinemas should be back to full operations in 4Q21, in our view. Most of the blockbusters besides BW and FF9 are still on schedule to release this year, such as *Venom, Shang-Chi, 007*, etc.

At this moment, we anticipate that there will be more restrictions on the transportation between each province and more intense social distancing applied, perhaps even a full lockdown. If there is a full lockdown, we think it would be more beneficial to MAJOR than this current situation because the company has almost no revenue from the cinema business. Closing all of its cinemas would reduce its operating costs more than the decline in its revenue. Hence, we expect that the company's costs should be maintained or even slightly decline from last year. As a result, we expect MAJOR to make another huge core net loss of THB405m in 2021.

#### Valuation and recommendation

MAJOR will have to face a challenging situation once again. The company will likely continue to make a loss until 3Q21 before recovering significantly in 4Q21, contingent upon the Covid situation in Thailand improving. Although its performance may look sluggish, the divestment of SF should bring MAJOR some relief from its debt covenant pressure. Therefore, we revise up our 2022 TP to THB23 from THB22, reflecting the huge amount of cash that the company is set to receive at the end of this year. We recommend a wait-and-see approach to the softening of MAJOR's share price on the Covid situation in Thailand and its 2Q21 results before taking any action. This is why we downgrade our recommendation on MAJOR to HOLD from Buy.

### **RECOMMENDATION STRUCTURE**

#### **Stock ratings**

Stock ratings are based on absolute upside or downside, which we define as (target price\* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.
