Another shutdown for SPP phase 5

Phase out for SPP phase 5?

On 16 September 2021, GPSC announced that it has temporarily shut down the 342MW small power producer phase 5 (SPP5) from 14 August 2021 to early 2022. The unplanned outage is due to the power generators short-circuiting and is likely to last for 3-5 months. SPP5 had two unplanned shutdowns in 2020 and incurred a THB0.5b-0.7b earnings loss which is currently under the insurance claim process. Hence, this incident could seriously damage SPP5, and we think that GPSC will likely need to replace the new generator from the supplier, Siemens, to resolve the issue.

cTHB0.35b loss from the unplanned shutdown of SPP phase 5

According to management, while the projected income loss will be THB300m for the first deductible period of 60 days, GPSC expects to receive compensation for the business interruption and property damage from its insurance company. SPP5 produces electricity which it only sells to industrial users, with additional steam sales of 120 tonnes per hour. We expect GPSC to see up to a THB0.35b earnings loss from this shutdown, based on an estimated financial loss of THB5m daily for the business interruption lasting for 60 days with no compensation for the deductible period, along with USD1.5m in property damage.

Upsides from M&A to continue

GPSC will start to consolidate equity income from its acquisition of a 41.6% stake on 13 July 2021 in Avaada, an operator of large-scale solar farms in India. Currently, Avaada operates 1.4GW worth of solar farms and will increase its capacity to 4.5GW by 2023, according to management. We estimate that Avaada will contribute THB0.2b in annual equity income to GPSC starting in 2H21. In addition, in 2022, we estimate that GPSC will add an additional THB0.7b net profit from its 25% stake in CI Changfang Limited and CI Xidao Limited (CI), the operators of offshore wind farms with a total capacity of 595MW, COD in 2022-23.

More M&A upsides to offset the SPP phase 5 downside

We maintain BUY and our SoTP-based TP of 100. We estimate that Avaada and CI will add a combined value of THB4.1/share to GPSC (THB3.1 Avaada and THB1.0 CI). We believe the earnings downside of THB0.35b from the unplanned shutdown of SPP5 should be more than offset by the earnings upsides from the acquisition of CI and Avaada.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 15-Sep-2021 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
