3Q21 hiccup ahead of 4Q21 uptrend

Fibrous chain shone while IPC weakened

SCGP reported a sound 3Q21 net profit of THB1.8b, down 21% q-q but up 33% y-y, beating our expectation by 8% and BBG's consensus estimate by 2%. Excluding non-operating items, its core net profit dropped to THB1.5b in 3Q21, down 33% q-q but up 6% y-y. Key drivers were the 35% y-y higher revenue from its integrated packaging chain (IPC) to THB27b, driven by higher revenues from fibre-based packaging, packaging paper and the consolidations of Duy Tan and Intan Group. The revenue from its fibrous unit (FC) jumped to THB5.3b in 3Q21 (-1% q-q, +50% y-y), driven by the higher demand for foodservice packaging and the consolidation of Go-Pak. Foodservice revenue in the fibrous chain increased 265% y-y in 3Q21 to THB1,127m, bringing SCGP's fibrous chain revenue proportion to 24% of the total fibrous group's revenue, up from 21% in 2Q21 and 10% in 3Q20.

Revenue grew but EBITDA dipped due to lockdown and high cost

Revenue from IPC continued to grow in 3Q21 to THB27.3b, up 35% y-y, but EBITDA dipped 17% q-q to THB3.6b due to the rising costs of freight and raw materials, resulting in a lower EBITDA margin of 13% in 3Q21, down from 19% in 3Q20, due to the higher raw material costs. FC revenue improved by 50% y-y to THB5.3b, while its EBITDA dipped 17% q-q to THB965m on a lower EBITDA margin of 18% in 3Q21, down from 22% in 2Q21, due to the lower demand for printing and writing papers and the lower utilisation rate in Vietnam due to the lockdown. However, the sales proportion of food packaging continued to rise to 24% in 3Q21, up from 10% in 3Q20. The overall EBITDA margin excluding other businesses dipped to 15% in 3Q21, with the lower IPC EBITDA margin of 13% being offset by FC's high EBITDA margin of 18%.

Weak 3Q21 is behind, stronger 4Q21 is now highly visible

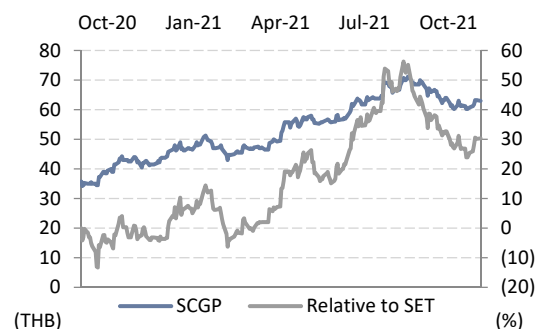

We believe SCGP's net profit will significantly rebound in 4Q21-2022, driven by 1) capacity growth and operational integration from its merger & partnership strategy; 2) operational efficiency improvement; and 3) a demand recovery post economic reopenings.

A true winner on reopening and e-commerce megatrend

Maintain BUY and our TP of THB82, based on 16x 2022E EV/EBITDA – a valuation premium to its peers due to SCGP's strong net profit growth outlook that should limit the downside for its share price, in our view.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 25-Oct-2021 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
