An in-line 3Q21 on weaker GIM

A decent 3Q21 net profit

IRPC posted a 3Q21 net profit (NP) of THB2.15b, down 53% q-q but up 39% y-y, missing our estimate by 3% but beating BBG consensus by 26%, due to a larger-than-expected net inventory gain of THB2.7b. Excluding an after-tax non-recurring gain of THB1.3b, IRPC's 3Q21 core NP was THB1.1b due to the lower margins for its refinery, lube, olefins, aromatics, and utilities units. IRPC's one-time pre-tax gain of THB1.3b comprised a THB2.6b inventory gain, a THB333m oil hedging loss, a THB225m derivative loss, an unrealised hedging loss of THB685m, a THB262m FX loss, and a THB161m investment gain. The refinery utilisation rate was at 89% in 3Q21, down from 90% in 2Q21, as IRPC had optimised its profitability.

Weaker GIM on lower product margins across the board

The market gross integrated margin (GIM) dipped to USD12.4/bbl in 3Q21, down 22% q-q but up 42% y-y. Key drivers were 1) a lower market gross refining margin (GRM) of USD2.0/bbl, down 34% q-q due to weaker product margins and higher crude premiums; 2) a weak lube margin at USD3.2/bbl (-28% q-q) due to the rising new supply; and 3) a softer q-q petrochemical group margin. The olefins GIM dropped to USD3.0/bbl in 3Q21 (-3.5% y-y, -21% q-q) due to the lower polyethylene-naphtha and polypropylene-naphtha margins, while the aromatics GIM was at USD3.3/bbl, down 4% q-q due to the weaker styrene-naphtha (-23% q-q), ABS-naphtha (-13% q-q), and polystyrene (-23% q-q) margins.

A solid 4Q21 is coming

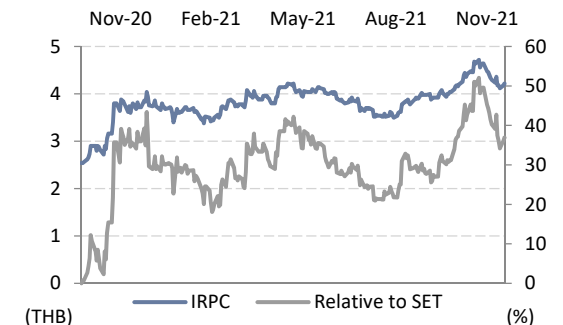

We project strong NPs in 4Q21-2022, driven by 1) higher earnings from olefins and aromatics, supported by sustained high margins of ABS and PS-naphtha due to a continued tight supply and rising automotive parts and packaging demand; 2) a GRM recovery to USD3-4/bbl in 4Q21, driven by higher utilisation rates and rising product margins; and 3) a lower cost by USD0.5/bbl to USD11.5-12/bbl on the New Organisation with Agile Human (NOAH) impact and a lower fixed cost per unit.

Time to reload

We maintain BUY and our TP of THB5.8. We expect IRPC to be one of the most attractive cyclical plays in the Thai petrochemical sector, based on the strong earnings we project on a higher GIM on the back of a higher GRM, ABS-naphtha and lube margins, and a rising utilisation rate.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 09-Nov-2021 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
