TARGET PRICE	THB38.00
CLOSE	THB27.00
UP/DOWNSIDE	+40.7%
TP vs CONSENSUS	+21.7%

## 3Q21 results boosted by gains

### Multiple gains enhanced 3Q21 net profit

BCP's 3Q21 net profit (NP) was THB1.8b, down 3% q-q but up from a net loss (NL) of THB647m in 3Q20, beating BBG's consensus forecast by 4% but missing our own by 10%, mainly due to an after-tax non-recurring gain of THB1.1b. 3Q21 core NP was THB703m, up 11% q-q and 246% y-y due to a higher refinery utilisation rate to 93%, or 111kbpd, in 3Q21, up from 89% in 2Q21. In 3Q21, there were multiple non-operating items, including 1) a THB1.4b oil inventory gain; 2) a hedging loss of THB777m; 3) an FX gain of THB103m; 4) a gain of THB575m from the fair value adjustment of its investment in Ubon Bio Ethanol (UBE TB, not rated) from associates to other investments after UBE's IPO in Oct-21; 5) a THB122m gain from the divestment of BCP Energy (not listed); and 6) the reversal of an impairment loss of THB13m.

### Weak refinery earnings offset by stronger power earnings

Total EBITDA was THB7.5b in 3Q21, up 76% q-q due to the investment method change for OKEA from an associated company to a subsidiary since 1 Jul-21. Accounting GRM was USD5.5/bbl in 3Q21, down 27% q-q due to a lower inventory gain. Market GRM was at USD3.1/bbl (+32% y-y, -27% q-q), driven by q-q lower product margins and higher crude premiums. Power EBITDA rose to THB1.2b in 3Q21, up 4% y-y and 18% q-q, due to the higher utilisation rates for hydropower plants on rising water levels to offset the lower utilisation rates for geothermal power plants and lower earnings from wind farms on lower wind speeds.

### Poor sales volumes and margins for marketing unit

Marketing EBITDA was THB562m in 3Q21, down 27% y-y and 32% q-q due to lower sales volumes and a weaker marketing margin to THB0.73/litre (-17% q-q). BCP added 6 new oil service stations to 1,253 in 3Q21. The marketing sales volume dipped in 3Q21, dragged by a weak retail service station sales volume of 900m litres (-19% y-y, -10% q-q) and a lower industrial sales volume to 153m litres (-16% y-y, -18% q-q), with a q-q stable market share at 16%. Biodiesel gross profit (GP) rose to THB178m in 3Q21 (+1% y-y, +11% q-q) on a higher B100 margin, while the GP from ethanol plunged 82% q-q to THB31m.

### Maintain BUY; margin and sales volume recoveries are key

We maintain BUY and our SoTP target price of THB38. Key catalysts would be a higher market GRM and rising sales volumes in 4Q21.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

**Disclaimer:**

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

### Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 10-Nov-2021 unless otherwise stated.

## RECOMMENDATION STRUCTURE

### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

**BUY (B).** The upside is 10% or more.

**HOLD (H).** The upside or downside is less than 10%.

**REDUCE (R).** The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### Industry Recommendations

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### Country (Strategy) Recommendations

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
