## Staying afloat amid coal price hike

### Survived the coal cost hike as 3Q21 NP remained in the black

BPP's 3Q21 core net profit (NP) was THB271m, down 74% q-q. 3Q21 NP came in at THB596m (-47% q-q), beating our estimate by 10% and Bloomberg's consensus estimate by 15%. The key factors are: 1) a net loss (NL) contribution of THB54m from BLCP due to a deferred tax expense and FX conversion for accounting; 2) a THB141m gross loss from the CHP plants in China due to a lower gross margin caused by the higher coal price; 3) THB714m equity income from the Hongsa power plant (HPC), down 36% q-q due to the planned shutdown of unit 1, resulting in a lower equivalent availability factor (EAF) of 75%; and 4) a THB69m NL from Banpu Next (not listed).

### CHP, SLG and BLCP dragged while HPC and Nakoso boosted

3Q21 NP dropped 47% q-q due to 1) the lower equity incomes from HPC and BLCP but was partly offset by a THB250m FX gain. BPP had a weak share of profits in 3Q21 at THB460m vs THB1.2b in 2Q21. HPC's EAF dropped to 75%, contributing THB714m NP, down 36% q-q, including an FX gain of THB145m. Shan Xi Lu Guang (SLG) contributed an NL of THB233m in 3Q21 due to the high coal cost after its successful start-up in Oct-21. BLCP contributed a 3Q21 NL of THB54m, including a THB65m FX loss. Solar Japan added THB103m NP in 3Q21, up 119% q-q from higher capacity factors. Nakoso power plant generated THB103m in 3Q21 after its acquisition in Apr-21. In 3Q21, the CHP power plants in China received a THB125m subsidy from the Chinese government for the coal cost increase.

### Higher earnings outlook in 4Q21-2022

We expect strong core earnings in 4Q21-2022 from seasonally high demand and a higher tariff, while projecting earnings growth from the new wind farm projects in Vietnam (30MW), a higher EAF for HPC, which will have no planned shutdown in 4Q21, and strong earnings from Nakoso, which should offset weak NP contributions from BLCP, SLG, and CHP.

### A good time to Buy ahead of a strong earnings recovery

We maintain BUY and our SOTP-TP of THB23. BPP's ongoing business transformation is to refocus on a higher proportion of greener energy. Its new business ventures in the EV and battery value chain should further raise its 'green' NP proportion toward 20% in 2022, up from 13% in 2020.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

**Disclaimer:**

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

### Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 10-Nov-2021 unless otherwise stated.

## RECOMMENDATION STRUCTURE

### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

**BUY (B).** The upside is 10% or more.

**HOLD (H).** The upside or downside is less than 10%.

**REDUCE (R).** The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### Industry Recommendations

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### Country (Strategy) Recommendations

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
