## Positive signs of a recovery in 4Q21

### Booked a net profit of THB687m in 3Q21

AWC reported a 3Q21 core loss of THB698m, beating BBG's consensus estimate of THB806m and our estimate of a THB824m loss due to a lower-than-expected interest expense and higher-than-expected tax income. Including a THB1.7b gain on changes in the fair value of investment properties, AWC booked a net profit of THB687m in 3Q21.

### Weak operations in 3Q21 due to lockdown restrictions

Hospitality business revenue fell 10% q-q as the OCC rate dropped to 14% in 3Q21 from 16% in 2Q21, with lower ARR by 9% q-q. Commercial business revenue fell 18% q-q as the OCC rate dropped to 65% in 3Q21 from 68% in 2Q21, with a lower rental rate by 11% q-q. Operating asset EBITDA (BU EBITDA) was THB72m in 3Q21, derived from THB-318m for the hotel business, THB19m for the retail business and THB371m for office properties. Including corporate expenses, group EBITDA was THB-184m in 3Q21, lower than THB-78m in 2Q21. AWC's 9M21 core loss was THB1.9b, accounting for 79% of our 2021E core loss of THB2.5b.

### Promising outlook in 4Q21

At its analyst meeting yesterday, management stated that they expect the hotel OCC rate to improve from 14% in 3Q21 to c30% in Nov, led by business travelers from Japan and the US, and expects leisure travelers to gradually recover in Dec onward. In addition, they see strong forward bookings in 1Q22, which have already surpassed the OCC rate of 18% in 1Q21. In addition, AWC has a promising hotel OCC rate target of 69% in 2022, based on the assumption that Thai customers will increase from 5% of the pre-Covid level to 20%, with a 40% OCC rate from international travelers from permitted countries with a discount factor of 20% and another 19% from international travelers from the rest of the countries with a discount factor of 50%. Note that our 2022E hotel OCC rate is 51%. Thus, there would be an upside to our core profit forecast next year.

### Upside from inorganic growth

AWC is trading at an attractive 1.9x 2023E P/BV, lower than its 2-yr avg of 2.0x and its peers' avg of 2.1x. Short-term catalysts would be an operational recovery from the lockdown easing and Thailand's border reopening and M&A deals or new project announcements. AWC has considered several potential projects over the past few months as it has ample financial room with a current D/E ratio of only 0.7x.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

**Disclaimer:**

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Source: FSSIA estimates

Company	Ticker	Price	Rating	Valuation & Risks
Asset World Corp	AWC TB	THB 4.70	BUY	Downside risks to our DCF-based target price include 1) extraordinary events such as political turmoil and natural disasters; 2) a higher hotel room supply, which may result in price competition; and 3) the slower-than-expected recovery of international tourist numbers.

### Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 11-Nov-2021 unless otherwise stated.

## RECOMMENDATION STRUCTURE

### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

**BUY (B).** The upside is 10% or more.

**HOLD (H).** The upside or downside is less than 10%.

**REDUCE (R).** The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### Industry Recommendations

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### Country (Strategy) Recommendations

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
