## FX loss and interest cost hurt 3Q21

### Higher interest expense and FX loss hurt 3Q21 results

RATCH's 3Q21 net profit (NP) was THB1.4b, down 17% y-y and 32% q-q, dragged down mainly by higher gas costs, interest expenses, and a THB155m FX loss vs an FX gain of THB136m in 3Q20. 3Q21 core NP was THB1.6b, up 0.5% y-y but down 27% q-q, missing our forecast by 2% and BBG consensus by 7%. 3Q21 share of profits were THB1.3b, up 15% y-y but down 18% q-q on the y-y higher utilisation rates for Hongsa power plant (HPC) and its hydropower plants. Key points are: 1) equity NP from HPC of THB670m (including a THB250m FX gain), up 15% y-y due to a shorter shutdown; 2) a THB16m equity loss from its coal-fired power plant in Vietnam due to the high coal price; 3) higher equity income from two hydropower plants, Nam Ngum 2 (via its holding in Southeast Asia Energy) at THB109m (+90% y-y) and Xepian Xe-Namnoy (via Xepian Xe-Namnoy Power Co) at THB134m (+3x y-y), thanks to the higher water level; and 4) higher revenues from two wind farms, Yandin and Collector, in Australia following their full-quarter operations.

### 3Q21 revenue rose on new projects

RG's revenue rose 801% y-y in 3Q21 on higher availability payments without a major planned shutdown, while revenue from RATCH-Australia (RAC) rose to THB1.2b (+74% y-y, +38% q-q) due to the full operations of the two new wind farms, Yandin and Collector. RATCH Cogen (RCO) saw higher revenue of THB657m (+30% y-y) due to higher demand. RATCH's small power producers saw mixed NP results in 3Q21, including Berkprai (+THB7.8m y-y), RW Cogen (-THB2.3m y-y) and Navanakorn Electricity (+THB55m y-y), due to higher demand.

### Growth projects remain solidly in the pipeline in 2022-25

We project strong earnings growth in 2021-22, premised on 1) our higher equivalent availability factor projections of 85-87% for HPC in 2H21-22; and 2) equity capacity growth (137MW) from two coal-fired power plants, Thang Long and Paiton, the Guangxi Fangchenggang nuclear power plant in China (+236MW in 2021E), the Riau power plant in Indonesia (+146MW in 2021E) and HKP in Thailand (+700MW in 2024-25E).

### A good independent power producer play

We maintain our BUY rating and THB60 TP. We think RATCH remains an attractive investment play as a large-scale, independent power producer-driven company in Thailand on its multiple growth projects.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

**Disclaimer:**

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

#### Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finasia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finasia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 12-Nov-2021 unless otherwise stated.

## RECOMMENDATION STRUCTURE

### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

**BUY (B).** The upside is 10% or more.

**HOLD (H).** The upside or downside is less than 10%.

**REDUCE (R).** The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### Industry Recommendations

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### Country (Strategy) Recommendations

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
