Hitting another quarterly record high

Strong 3Q21 net profit boosted by new projects

SSP's 3Q21 core net profit (NP) was THB255m, up 8% q-q and 24% y-y, beating our estimate by 0.1% but missing Bloomberg consensus by 3%. The NP increase was due to the capacity growth from its new solar farms Yamaga (COD in Jun-20) and Leo 1 (COD in Jul-21) in Japan and improving NPs from acquired biomass power plants. 3Q21 revenue from solar farms in Japan jumped to THB290m (+38% q-q, +34% y-y), revenue from rooftop solar farms in Indonesia rose to THB8.4m (+91% q-q), while revenue from solar farms in Thailand rose to THB297m (+25% q-q). Revenue from its other solar farms declined q-q in 3Q21, including its 50MW solar farm in Vietnam (-9% q-q) due to curtailment and its 16MW solar farm in Mongolia (-11% q-q). Including an unrealised FX gain of THB30m in 3Q21 vs a THB5.2m loss in 3Q20, 3Q21 reported NP was THB287m, up 19% q-q and 26% y-y.

Solid operations for solar farms

SSP's 3Q21 revenue rose to THB683m (+23% q-q, +26% y-y), driven by higher y-y electricity sales from Japan (+34% y-y), Indonesia (+1,100% y-y) and Mongolia (+18% y-y) to offset the weaker revenues from Thailand (solar farms and biomass power plants) (-2.3% y-y) and Vietnam (-5.2% y-y). SSP saw its 3Q21 EBITDA margin decline to 81% from 86% in 2Q21 due to the increase in low-margin earnings from solar farms in Japan. 3Q21 financing costs were THB92m (+24% y-y, +38% q-q) due to the long-term loan drawdown from both Thai and Japanese financial institutions for new project investments.

Growth outlook remains sanguine in 2022-23

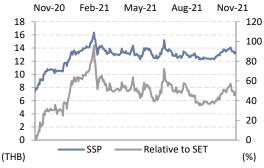

We expect SSP's strong net profit growth to continue in 2022-23 from the growth projects that we expect the company to secure in 2021-22, including the announced acquisition of a 9MW biomass power plant in Thailand and a set of operating solar and wind farms in Vietnam and other countries, which includes SSP's projected 100MW offshore wind farm phase 3 in Vietnam.

An attractive renewable energy play

We maintain BUY and our SoTP TP of THB20, including the dilution impact from the stock dividend and SSP-W1. We think SSP's committed growth plan to raise its capacity from 118MW to 400MW by 2025 is highly achievable, potentially catapulting its NP to over THB2b by 2025.

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

* CGR scoring should be considered with news regarding wrong doing of the company or director or executive of the company such unfair practice on securities trading, fraud,

Level

Certified

This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 12-Nov-2021 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
