Riding the digital transformation era

Record high 3Q21 net profit

DITTO posted a record high 3Q21 net profit of THB49m (+34% y-y, +28% q-q), driven by strong revenue growth – especially in its document and data management solutions (DDM) business – and a higher profitability margin. 9M21 net profit accounts for 82% of our 2021 net profit forecast.

Robust revenue growth with higher recurring income

DITTO's revenue increased by 13% y-y and 32% q-q due mainly to a significant rise in its DDM revenue. On top of that, the proportion of recurring income from its DDM business increased from 41% in 2Q21 to 50% in 3Q21 due to its strategy to place a greater focus on business process outsourcing, which should provide long-term recurring income. Regarding its technology and engineering services (TES), 3Q21 revenue came in at -8% y-y and +10% q-q. We have few concerns over this as it is usual that revenue recognition might be volatile during the quarter. Its document service and other solution (DS) revenue also declined on the lower demand for photocopiers. This is in line with the company's business plan to shift its focus to the DDM business. Its net margin also improved from 12.2% in 3Q20 to 14.5% in 3Q21 thanks to higher operating leverage and better interest savings by utilising capital from its IPO to repay debts.

More than THB1b project value in the bidding process

We expect DITTO's 4Q21 net profit to be soft q-q (still increasing y-y) due to seasonality and the lower projected base income from its DDM business, especially its cybersecurity project. However, we think this should not pressure its share price. The key focus would be the new TES projects, e.g. museum systems and telemetry systems, which are in the bidding process. The total project value is cTHB1b. The expected announcement date for the winner of each project is in Dec-21, according to management. From its long experience in these projects, we are convinced that DITTO has a high chance to win some bids. This could be a key catalyst for its share price to further rerate, in our view.

Benefitting from the Covid pandemic; maintain BUY

Covid should encourage its customers to accelerate the digitization of their data. We, therefore, believe that DITTO will be one of the few companies to benefit from the pandemic. We maintain our BUY call with our 2022 PEG-based TP of THB21.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 15-Nov-2021 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
