A true turnaround is now confirmed

A turnaround, but still weak due to Covid-19

PSTC reported a stronger q-q 3Q21 net profit (NP) of THB11m (+110% q-q, -33% y-y) on a lower loss contributed by biomass power plants after divesting its 100% stake in Bio Gen Green Company Limited in Jun-21. However, it still suffered from project delays due to the resurgence of Covid-19. 3Q21 revenue dropped to THB599m (-23% q-q, -4% y-y) as a result of the lower construction revenue (-37% q-q, -11% y-y) and electricity revenue (-11% q-q, -26% y-y) in the quarter.

Promising outlook in 4Q21 onward on a higher EPC backlog

In 4Q21, we project PSTC to see an improving NP q-q as its subsidiary, Biggas Technology, has already secured seven new clients for its LPG distribution business with industrial users in food, aluminium, electronics, ceramics, and truck transportation ventures. Meanwhile, PSTC has shifted its business focus from loss-making biomass power plants, currently undergoing divestment, to engineering, procurement, and construction (EPC) – its new management team's key area of expertise. PSTC has already secured a THB3.4b backlog in road and bridge construction, which should staggeringly generate revenue in 2022-23.

Oil pipeline remains a long-term growth driver

On top of its strong EPC backlog, we project that in 2022 onward, PSTC, via its 55.4% stake in Thai Pipeline Network (TPN, not listed), will start to generate an NP contribution to PSTC in the range of THB0.3b-0.5b annually, thanks to the secured oil volume for its oil pipeline network that runs from Saraburi province in central Thailand to Konkaen province in the lower northeastern part of Thailand. TPN plans to establish oil terminals in Vientiane, Laos – currently a major hub for refined oil imports from Thailand. TPN could deliver oil products from its Konkaen terminal to the Vientiane terminal by road or railway and then transport it via a railway loading facility to oil tankers to the deep southern part of China within a day.

From a biomass-driven firm to an EPC & infrastructure company

We maintain BUY and our SOTP-based TP of THB3.7. We think PSTC remains attractive, based on 1) the more sustainable earnings from its EPC, oil pipeline and energy trading businesses that we expect to grow in 2022-23 after the reopening of Thailand's economy; 2) bidding on more government infrastructure projects; and 3) the resumption of tourism.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finasia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finasia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 17-Nov-2021 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
