EQUITY RESEARCH - COMPANY REPORT

ASSET WORLD CORP

AWC TB

Picking up steam in 2022

- Expect 4Q21 core loss to narrow to THB308m.
- Expect earnings to turn around in 2H22 and grow by 31% CAGR over 2019-25, as ramping-up assets should become mature.
- Maintain BUY with 2022 DCF-based TP of THB5.6; strong earnings growth to support share price to convert to IPO price.

Operations to improve q-q

AWC's hotel OCC rate should improve to 30% in 4Q21 from 14% in 3Q21, driven mainly by non-Bangkok hotels on pent-up demand from domestic travellers. Meanwhile, the discount rate of the retail business should narrow from c50% in 3Q21 to c20% in 4Q21 thanks to the traffic recovery of shopping malls and community markets. Overall, we estimate revenue to more than double q-q in 4Q21, leading EBITDA to turn positive. Its core loss should narrow to THB308m in 4Q21 vs THB698m in 3Q21. Note, AWC should book a gain on changes in the fair value of investment properties in 4Q21, which we have not factored in yet.

Limited impact from Omicron wave

We believe the Omicron wave at the beginning of this year should have a mild impact on AWC. So far, there have only been limited hotel cancellations in Jan-22, while the lack of lockdown restrictions during this wave should translate to a limited impact on its retail business. Therefore, we believe the recovery trend should resume soon. We forecast AWC's core profit (excluding gains on changes in the fair value of assets) to turn profitable in 2H22 when the OCC rate should ramp up to above 60%.

Entering an earnings growth cycle

We believe AWC has already passed the bottom and will enter into a growth mode. It plans to open up to 28 hotels with more than 9,000 guest rooms by 2027 from 17 hotels with about 5,000 rooms currently. Meanwhile, 82% of its assets are in the ramping up, re-positioning and development phases. Thus, we expect the rate of return to jump from 1% currently to 8% by 2025, implying that its EBITDA should almost double to THB10.6b from the pre-Covid level of THB5.4b.

Strong earnings growth outlook with inexpensive valuation

AWC's share price is 30% below its IPO price of THB6.0/shr, and has underperformed the SET Index by 14% over the past year, which we believe has already priced in all negative news. AWC is trading at 1.9x 2022E P/BV, lower than its peers' average of 2.1x. If we include gains on changes in the fair value of assets (likely to become a recurring item) of THB2.0b-3.0b p.a., it would trade at 2023E 32x P/E – inexpensive based on strong expected earnings growth of 31% CAGR over 2019-25.

Investment thesis

AWC plans to aggressively expand its hotel portfolio from 17 hotels to 28 hotels by 2027 and expand its commercial property assets with a net leasable area (NLA) of 461k sqm to 560k sqm by 2027.

AWC has a strong balance sheet with an IBD/E of only 0.7x as of 2Q21, with ample room for M&A deals. AWC also has a competitive advantage, as it has a grant of rights (GOR) agreement with its major shareholder, Thai Charoen Corporation Group (TCC, not listed). Under the GOR, AWC has the right of first offer on assets that TCC plans to sell, and the right of first refusal on assets when any third party makes an offer.

Most of AWC's assets are classified as freehold, with about half of its asset value in land located in prime areas across Thailand. We believe those assets will likely appreciate in the future, which should support its balance sheet's gearing ratio for expansion projects.

Company profile

AWC is the pure-play leader in the Thai hospitality and commercial property business.

Catalysts

Downside risks to our DCF-based target price include 1) extraordinary events such as political turmoil and natural disasters; 2) a higher hotel room supply, which may result in price competition; and 3) the slower-than-expected recovery of international tourist numbers.

Risks to our call

Downside risks to our DCF-based target price include 1) extraordinary events such as political turmoil and natural disasters; 2) a higher hotel room supply, which may result in price competition; and 3) the slower-than-expected recovery of international tourist numbers.

Earnings sensitivity

- For every 1% increase in hotel OCC, we project a 2023 profit increase of 4%, and vice versa, all else being equal.
- For every 1% increase in retail OCC, we project a 2023 profit increase of 5%, and vice versa, all else being equal.

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

* CGR scoring should be considered with news regarding wrong doing of the company or director or executive of the company such unfair practice on securities trading, fraud,

Level

Certified

This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 17-Jan-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
