## NEX's growth step is coming

- NEX delivered a self-developed and manufactured 6-wheel prototype truck to Thailand Post at its headquarters.
- We think NEX stands to benefit the most from timely capturing the strong demand growth of e-buses and e-trucks in 2022.
- Maintain BUY and our SOTP-based TP of THB26.

### NEX's growth step with logistics company Thailand Post

According to [Matichon online news](#), on 27 Jan-22, NEX delivered a self-developed and manufactured 6-wheel prototype truck to Thailand Post at its headquarters. NEX's e-truck is one of a number of models designed, developed, and manufactured by NEX and EA as a commercial fleet vehicle to reduce carbon emissions. For Thailand Post, the e-truck is meant to be deployed in Bangkok and vicinity under the memorandum of understanding (MOU) with NEX. Mr. Kanit Sriwachiraprapa, NEX's CEO, indicated that the MOU was signed with Thailand Post on 7 Apr-21 to develop a 6-wheel e-truck for logistics and package transportation. Thailand Post's e-truck test follows NEX's multiple ongoing e-truck tests with private customers, including Montra Transportation, one of Thailand's leading transportation companies, to test NEX's terminal truck tractor for its logistics business.

### Five e-bus models are now ready for production

In 2021, NEX revealed five e-bus models aimed to serve fast-growing markets: 1) a 20-seat mini e-bus for intra and intercity routes; 2) a 27-seat mini e-bus for city transportation targeting tourism, educational institutes, hospitals, and government agencies; 3) a 35-seat fixed route e-bus for public intercity transportation and the Bangkok Mass Transit Authority (BMTA); 4) a 35-seat e-bus for city transportation targeting BMTA, educational institutes, and state-owned enterprises; and 5) a 45-seat e-bus for intracity and intercity fixed route bus operators.

### Commercial fleet EVs and 12 service stations differentiate NEX

One of Thailand's most ready players with a fully integrated battery-manufacturing-marketing-after service value chain, NEX-EA is Thailand's only producer and provider of commercial fleet EVs. With a potential annual market size of 8k-10k buses and 100k trucks in Thailand as of 2021, we think NEX stands to benefit the most from timely capturing the strong demand growth of e-buses and e-trucks in 2022.

### E-buses and e-trucks are two growth engines in 2022 onward

We maintain BUY and our SOTP-based TP of THB26. We believe NEX's recent share correction offers an attractive entry point ahead of the strong earnings growth we estimate in 2Q22 onward with over 3,000 e-buses.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

**Disclaimer:**

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

**Additional Disclosures**

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 26-Jan-2022 unless otherwise stated.

**RECOMMENDATION STRUCTURE****Stock ratings**

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

**Industry Recommendations**

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

**Country (Strategy) Recommendations**

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
