A resilient retail play

- 4Q21 core NP was THB1.9b (+104% q-q and +64% y-y) due to the higher NP from oil and non-oil that partly offset govt's price cap.
- We believe the economic reopening should gradually boost the demand for OR's oil and non-oil products, starting in 1Q22 onward.
- Maintain BUY and our TP of THB36.

Decent 4Q21 results despite the diesel price cap

4Q21 net profit was THB2.4b, up 24% q-q but down 20% y-y, in line with the Bloomberg consensus estimate but missing our forecast by 7%. Excluding a pre-tax inventory gain of THB0.5b and other non-recurring items, 4Q21 core net profit was THB1.9b, up 104% q-q and 64% y-y due to the higher net profit from its oil and non-oil units on higher sales volumes that partly offset the government's diesel price cap.

Higher sales volumes offset weak MM for oil unit

OR's 4Q21 EBITDA was THB4.4b, with THB3.1b coming from the oil unit, boosted by an inventory gain to offset the weaker marketing margin (MM) at THB0.98/litre, down from THB1.09/litre in 3Q21 and THB1.04/litre in 4Q20. The oil unit's sales volume rose to THB6.5b in 4Q21 (+24% q-q, +3% y-y) due to the economic reopening despite the Covid pandemic. The retail sales unit's volume jumped 29% q-q vs 20% q-q for the commercial unit, thanks to the 41 new stations added in 4Q21 for a total of 2,083. The oil EBITDA margin lowered to 2.1% in 4Q21 (vs 2.8% in 3Q21 and 3.5% in 4Q20) due to the weak MM. The oil sales volume per station rose to 1.6m litres in 4Q21 due to the higher retail sales volume.

Non-oil unit saw q-q recoveries for sales volume and EBITDA

4Q21 non-oil EBITDA rose to THB1.2b (+46% q-q, -12% y-y) due to the q-q higher EBITDA from Café Amazon which saw a higher number of cups sold at 87m (+28% q-q, +18% y-y) due to higher sales from deliveries. The EBITDA margin for non-oil weakened to 23.7% in 4Q21, up from 21.8% in 3Q21 but down from 29.3% in 4Q20, due to lower sales of high-margin coffee. In 4Q21, OR reached 3,628 Café Amazon outlets (+116 q-q), 96 Texas Chicken outlets (+9 q-q), and 2,075 convenience stores (+34 q-q), which helped offset the impact of Covid-19.

Time to reload ahead of the growth recovery

We maintain BUY and our TP of THB36. We think OR remains an attractive investment as a leading company in F&B, CVS, retail oil stations, and jet fuel. We believe that a rising vaccination rate and the economic reopening, both domestically and globally, should gradually boost the demand for OR's oil and non-oil products, particularly for coffee, diesel, gasoline, and jet fuel, starting in 1Q22 onward.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 15-Feb-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
