Ambitious energy target set

- 4Q21 net profit (NP) of THB238m (-65% q-q, -24% y-y), dragged down by weaker NPs from hydropower and geothermal.
- BCPG growth targets: EPS over THB1, build capacity to well over 2GW, and net profit above THB3b – all by 2026.
- Maintain BUY with our TP of THB17.

FX loss and poor earnings from hydropower plants dragged

BCPG's 4Q21 net profit of THB238m (-65% q-q, -24% y-y), fell below our estimate by 30% and the BBG consensus by 35%, dragged down by its weaker operations in Laos and an FX loss of THB246m. NPs from its two hydropower plants, Nam San 3A and 3B, were hit by a low capacity factor (CF) of 56.5% in 4Q21, and the NP from its geothermal power plants dropped q-q, offset by q-q higher NPs from its wind and solar farms. Revenues and CFs from other plants were mixed, including: 1) the solar farms in Thailand (171.8MW), which saw a CF of 16.8% in 4Q21 vs 15.6% in 3Q21 and 15.5% in 4Q20; and 2) the solar farms in Japan (34.7MW), which had a CF of 11.2% in 4Q21, down from 13.1% in 3Q21.

Geothermal and wind farm operations improved q-q

Geothermal plants in Indonesia (157.5MW) contributed a THB146.9m NP in 4Q21, down 6% q-q but up 51% y-y. They had a 94.7% CF, up from 93.9% in 3Q21 and 91.3% in 4Q20 due to a shorter shutdown and a y-y higher tariff. Wind farms in the Philippines (14.4MW) posted an NP of THB5.3m in 4Q21, up from a net loss of THB5.4m in 3Q21, with a CF of 31.4%, up from 21% in 3Q21 and 26.9% in 4Q20.

Divestment ahead of THB95b investment

In a conference call, management delivered three key strategic goals to grow its NP in 2022-26: 1) growth targets include an EPS of over THB1, a plan to build capacity to over 2GW, and a net profit above THB3b, all by 2026; 2) BCPG will financially optimise its asset portfolio by divesting its geothermal asset stakes to raise THB14.6b in capital and book THB1.6b in gains in 2Q22 to partly fund its THB95b capex plans for 2022-26 (THB2.7b in assets, THB39.4b for committed projects, THB9b in S-curve projects, and THB43.9b in new projects); and 3) key growth projects are solar farms in Taiwan (469MW) and wind farms in Laos (600MW).

Manifest growth plan justifies brighter outlook

We maintain BUY with our TP of THB17. We think BCPG's clear strategic goal to grow its capacity to up to 2.9GW by 2026, up from 1.3GW in 2022, post divestment of its geothermal assets, has the potential to: 1) fill up the earnings gap from its adder expirations in 2021-24; 2) compensate for the EPS dilution impact; and 3) grow EPS to over THB1 by 2026.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finasia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finasia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 17-Feb-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
