## GSP and PTTEP rescue 4Q21

- 4Q21 NP of THB27.5b (+17% q-q, +110% y-y), core NP rose to THB30.4b (+69% q-q, +95% y-y).
- 4Q21 key drivers were higher earnings from oil, coal, and PTTEP which offset the weaker NPs from refinery and petrochemicals.
- Maintain BUY and our SoTP-based TP of THB60.

### A mixed performance bag in 4Q21

PTT posted a 4Q21 net profit (NP) of THB27.5b, up 17% q-q and 110% y-y, missing Bloomberg consensus by 4% and our forecast by 13%. Key drivers were a non-recurring loss of THB6.9b, including a reversal of take-or-pay expenses of THB2.7b, an FX loss of THB6.4b, an impairment loss of THB3.4b, a THB5b hedging gain, and other impairment losses from subsidiaries and associates. 4Q21 core NP rose to THB30.4b (+69% q-q, +95% y-y) due to the higher earnings from oil, coal, and PTT Exploration and Production (PTTEP TB, BUY) which offset the weaker NPs from refinery and petrochemical associates. Gas NP dipped to THB14.4b, due to lower NPs from its pipeline transmission (TM), gas sales & marketing (S&M), and trading, that was partly offset by a higher NP from its gas separation plant (GSP). PTTEP's EBIT rose 45% q-q to THB33.4b in 4Q21 due to the higher average selling price.

### GSP rescued the gas unit

4Q21 core gas EBIT dropped to THB14.4b (-23% q-q, +26% y-y), dragged by lower product spreads and sales volumes for S&M, TM, and natural gas for vehicles (NGV) that was partly offset by higher EBIT from its GSP and LNG terminal units. EBIT from its oil trading unit was at a net loss of THB108m due to a drop in the oil sales volume. Transmission pipeline EBITDA dropped to THB7.9b in 4Q21 (-2% y-y, -7% q-q) due to lower volumes, while EBITDA from its GSP rose to THB8.4b due to the higher product margins, and fewer planned shutdowns at a 90% run rate.

### Coal rose while downstream refinery and chemicals dropped

EBIT from downstream petrochemical and refinery associates dipped to THB13.7b in 4Q21 (-33% q-q) due to the lower olefins and aromatics margins and lower stock gains. Coal EBIT jumped to THB2.3b, up 40% q-q, due to a 13% q-q higher sales volume of 1.8mt and the 8% q-q higher ASP for coal. PTT guided that its pool gas price should rise by over 30% in 2022, driven by the higher prices of imported LNG with projected spot LNG prices of USD25/mmbtu in 1Q22 and USD17/mmbtu in 2022.

### A good play on higher prices for oil & gas

Maintain BUY and our SoTP-based TP of THB60. We think PTT's NP growth remains strong on high oil, gas, and coal prices.

Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

**Disclaimer:**

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

**Additional Disclosures**

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 17-Feb-2022 unless otherwise stated.

**RECOMMENDATION STRUCTURE****Stock ratings**

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

**Industry Recommendations**

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

**Country (Strategy) Recommendations**

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
