

# SERMSANG POWER CORP

THAILAND / UTILITIES - RENEWABLES

## SSP TB

# BUY

UNCHANGED

## A weak 4Q21 on seasonal impact

- 4Q21 core NP was THB179m (-30% q-q but +41% y-y) due to the seasonally lower earnings from solar farms.
- We expect SSP's strong net profit growth to continue in 2022-23 from its growth projects.
- Maintain BUY and our SoTP-based TP of THB20.

### Poor revenues from solar farms led to weak 4Q21 results

SSP's 4Q21 core net profit (NP) was THB179m, down 30% q-q but up 41% y-y, missing our estimate by 7% and Bloomberg's consensus estimate by 3%. The NP decrease was due to the seasonally lower earnings from solar farms which were partly offset by the capacity growth from its new solar farm Leo 1 (COD in Jul-21) in Japan and improving NPs from acquired biomass power plants. 4Q21 revenue from solar farms in Japan dropped to THB254m (-12% q-q, +45% y-y); revenue from rooftop solar farms in Indonesia rose to THB9.4m (+12% q-q); while revenue from solar farms in Thailand dropped to THB283m (-5% q-q). Revenue from its other solar farms were mixed in 4Q21, with higher revenue from its 50MW solar farm in Vietnam (+153% q-q) due to a lower curtailment to offset the weaker revenue from the 16MW solar farm in Mongolia (-4% q-q). Including an unrealised FX loss of THB39m in 4Q21, 4Q21 reported NP was THB149m, down 48% q-q but up 6% y-y.

### 2021 revenue rose on higher y-y electricity sales

SSP's 2021 revenue rose to THB2,603m (+20% y-y), driven by higher y-y electricity sales from Japan (+50% y-y), Indonesia (+674% y-y), Vietnam (+53% y-y), and Mongolia (+0.8% y-y) to offset the weaker revenue from Thailand (solar farms and biomass power plants at -0.3% y-y). SSP saw its 2021 EBITDA margin rise to 78% from 73% in 3Q21 due to the increase in high-margin earnings from solar farms in Vietnam. 2021 financing costs were THB356m (+14% y-y) due to the long-term loan drawdown from both Thai and Japanese financial institutions for new project investments.

### Stronger growth in 2022 is highly visible

We expect SSP's strong yearly net profit growth to continue in 2022-23 from the growth projects that the company has/might secure in 2021-22, including the announced acquisition of a 9MW biomass power plant in Thailand and other acquired assets in 2021.

### Still an overlooked renewable play

We maintain BUY and our SoTP-TP of THB20. We think SSP's committed growth plan to raise its capacity from 118MW to 400MW by 2025 is highly achievable, with an attractive valuation of 11x 2022E P/E.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

**Disclaimer:**

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

**Additional Disclosures**

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finasia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finasia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 28-Feb-2022 unless otherwise stated.

## RECOMMENDATION STRUCTURE

### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

**BUY (B).** The upside is 10% or more.

**HOLD (H).** The upside or downside is less than 10%.

**REDUCE (R).** The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### Industry Recommendations

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### Country (Strategy) Recommendations

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
