ปรับตัวสู่ผู้ให้บริการทางการเงินครบวงจร

ในที่ประชุมนักวิเคราะห์ครั้งล่าสุด SAWAD ประกาศแผนเป็นผู้ให้บริการทางการเงินครบวงจร โดยจะให้บริการสินเชื่อแก่กลุ่มรากหญ้าและกลุ่มผู้มีรายได้ปานกลาง นอกจากนี้บริษัท ยังจะขยายธุรกิจนายหน้าประกันภัยและ AMC ซึ่งรุกมากยิ่งขึ้น ในอีก 3 ปีข้างหน้า SAWAD ตั้งเป้าสัดส่วนสินเชื่อประกอบด้วยสินเชื่อทะเบียนรถที่ 60% และสินเชื่อเช่าซื้อรถมอเตอร์ไซด์ใหม่ (MHP) สินเชื่อบุคคล สินเชื่อเช่าซื้อเครื่องใช้ภายในบ้าน (HAHP) และบริหารสินทรัพย์ที่ 40%

SAWAD จะกลับมาโตในปี 2022

หลังปริมาณสินเชื่อลดลง 15% y-y ในปี 2021 จากการไม่ได้รวมพอร์ตของ Fast Money (FM, not listed) (ถ้าไม่นับผลของการไม่รวม FM พอร์ตสินเชื่อปี 2021 จะทรงตัว y-y) SAWAD คาดว่าบริษัท จะกลับมาเติบโตอีกครั้งโดยจะเริ่มตั้งแต่ 2Q22 เป็นต้นไป บริษัท ให้เป้าหมายทางการเงินเชิงรุกมากขึ้นในปี 2022 ประกอบด้วย: 1) อัตราการเติบโตของสินเชื่อที่ 20-30% y-y โดยเฉพาะอย่างยิ่งในช่วง 2H22; 2) ส่วนต่างดอกเบี้ย (NIM) ที่สูงขึ้นหลังการเพิ่มของสินเชื่อที่ให้ผลตอบแทนสูง; 3) การเติบโตของรายได้ที่ไม่ใช่ดอกเบี้ยสุทธิที่ดีจากค่านายหน้าขายประกัน; และ 4) สำรองที่เพิ่มเพียงเล็กน้อย

คาดการณ์กำไรสุทธิจะโตสูงขึ้นในปี 2022 โดยเฉพาะอย่างยิ่งในช่วง 2H22

จากแผนการขยายธุรกิจเชิงรุกมากขึ้น เราเชื่อว่ากำไรสุทธิในปี 2022 จะเพิ่ม 15% y-y เทียบกับ 1% y-y ในปี 2021 จากแรงผลักดันหลัก 3 ประการ ข้อแรกเราคาดว่าปริมาณสินเชื่อจะเพิ่ม 20% y-y ตามการเพิ่มของ MHP และสินเชื่อทะเบียนรถ ข้อสองจากปริมาณสินเชื่อผลตอบแทนสูงที่คาดว่าจะสูงขึ้น เราคาดว่าส่วนต่างดอกเบี้ยจะปรับตัวดีขึ้นเป็น 18.3% เทียบกับ 16.6% ในปี 2021 ประการสุดท้าย SAWAD จะขยายธุรกิจนายหน้าประกันภัยเชิงรุกพร้อมเป้าหมายค่านายหน้าในปี 2022 ที่ 1 พัน ลบ. เพิ่มจาก 0.7 พัน ลบ. ในปี 2021 รวมถึงเราคาดว่าบริษัท จะได้รับค่าธรรมเนียมบริหารสินเชื่ออย่างต่อเนื่องจาก FM ซึ่งคาดว่าจะทำให้รายได้ที่ไม่ใช่ดอกเบี้ยสุทธิเพิ่ม 20% y-y โดยเราคาดว่ากำไรสุทธิจะโตขึ้นในช่วง 2H22 จากการขยายสินเชื่อเชิงรุกมากขึ้น

คงแนะนำซื้อ; การกระจายความเสี่ยงน่าจะช่วยรับประกันความอยู่รอด

เราปรับลดประมาณการกำไรสุทธิปี 2022-23 ลง 7%/6% ส่วนมากเพื่อสะท้อนการเติบโตของสินเชื่อที่ลดลง และปรับลดราคาเป้าหมายเป็น 74 จาก 80 บาท อย่างไรก็ตามเราคงแนะนำซื้อเนื่องจากเราเชื่อว่าการกระจายความเสี่ยงในธุรกิจต่างๆมากขึ้นน่าจะช่วยให้บริษัท อยู่รอดจากการเปลี่ยนแปลงโครงสร้างในอุตสาหกรรมสินเชื่อทะเบียนรถ ระดับการประเมินมูลค่าของหุ้นน่าสนใจมาก โดย SAWAD มีการซื้อขายที่ 2.9x ของค่า 2022E P/BV พร้อมผลตอบแทนต่อส่วนผู้ถือหุ้น (ROE) ที่ 20.2% เทียบกับ MTC ที่เป็นคู่แข่งซึ่งมีการซื้อขายที่ 3.7x ของค่า 2022E P/BV โดยมี ROE ที่ 21.4%

บทวิเคราะห์ฉบับนี้แปลมาจากบทวิเคราะห์ของ FSSIA ฉบับวันที่ 7 มีนาคม 2022

Investment thesis

SAWAD has a solid market position as the third largest lender in the title loan market. We expect its market position to remain relatively strong over the next few years, as it plans to continuously expand its loan portfolio.

Additionally, SAWAD has transformed its business from a grassroots lending operator into a one-stop financial services provider. Moreover, the company is accelerating its ROE by accelerating its high yield lending business and insurance brokerage business.

We maintain our BUY call as we believe it should survive the disruption in the auto title loan industry due to its more diversified business model.

Company profile

SAWAD provides loan services to retail customers under the brand "Srisawad Ngern Sod Tun Jai". Its business operations can be classified into four main categories: 1) secured loans against all types of used vehicles, homes, and land; 2) unsecured personal loans; 3) asset management; and 4) debt collection services.

Catalysts

Potential share price catalysts for SAWAD include:

- The synergy between SAWAD and Government Savings Bank;
- The success of its home appliance hire purchase business;
- The spin-off of Srisawad Capital (SCAP; not listed)'s business.

Risks to our call

Downside risks to our GGM-based TP include 1) a further weakening of asset quality that could potentially hit both loan yield and credit cost; and 2) changes in financial regulations by the Bank of Thailand and the Office of Consumer Protection Board.

Transformation into a one-stop financial services provider

SAWAD originated primarily as a microfinance services provider to low-income and no-credit profile customers. To evade the continuing fierce competition in this niche and the risk of regulatory uncertainty, SAWAD opted to gradually transform its business. Eventually, SAWAD targets providing a full range of financial products for the grassroots and medium-income segments. Currently, SAWAD runs three main businesses, including: 1) lending; 2) insurance brokerage; and 3) distressed asset management (AMC).

Exhibit 1: SAWAD's organisational structure

Source: FSSIA's compilation

1) Lending business

Its loan portfolio as of 2021 was at THB33.7b, comprising 40% car title loans; 40% land title loans; 12% MHP; and 8% personal loans. In Jan-22, the company added HAHP as a new product and has already launched HAHP at two branches. It expects to roll out this business at its branches nationwide as mentioned in our report, [“Srisawad Corp \(SAWAD TB\) - Diversification helps survival”](#) dated 1 Feb-22. Over the next three years, SAWAD targets a loan mix of 60% auto title loans and 40% new MHP, personal loans, HAHP, and AMC.

Exhibit 2: SAWAD's loan portfolio breakdown

Source: SAWAD; FSSIA's compilation

2) Insurance brokerage business

SAWAD expanded into the insurance brokerage business by partnering with two highly experienced insurance companies in Thailand: Generali Thailand (not listed) and Chubb Samaggi Insurance (not listed). Currently, more than 90% of its insurance sales come from loan attachments. The company targets increasing the proportion of non-loan related clients going forward. It launched 0% 12-month instalment loans in Dec-21.

3) AMC business

In Mar-22, SAWAD bought back 20% of SWP's asset management unit from Noble Development (NOBLE TB; not rated), which gives it an 89% holding in SWP. The company is currently considering establishing one or more JV AMCs with banks. We expect SAWAD to reactivate this business, but so far management has not provided a timeline.

We like its strategy of diversifying its business, which could help it to deliver sustainable long-term growth. However, we think it might take one or two years before these new businesses generate significant profit. In the meantime, its performance will rely mostly on its title loan business, we think.

Growth mode to resume in 2022

SAWAD recorded a 15% y-y drop in its 2021 loan volume following the deconsolidation of FM's portfolio. Excluding this, SAWAD's 2021 loan portfolio was flat y-y. Starting from 2Q22, SAWAD expects to resume its growth path based on more aggressive financial targets for 2022, including:

- 1) a loan growth target of 20-30% y-y. The company will resume its aggressive expansion in 2Q22, after the Omicron situation improves;
- 2) its NIM should slightly improve following the increase in high-yield lending;
- 3) its Non-NII should increase substantially due largely to the insurance business;
- 4) its provisions will slightly increase vs the provision reversal in 2021, following the increase in its loan portfolio.

Given the more aggressive expansion plan, we believe its 2022 core profit should increase by 15% y-y vs 1% y-y in 2021, driven by three main factors. First, we expect its loan volume to rise 20% y-y following a rise in its MHP and title loans. Second, with the expected increase in high-yield loan volume, we expect its NIM to improve to 18.3% vs 16.6% in 2021. Lastly, SAWAD will aggressively expand its insurance brokerage business. In 2022, the company targets commission fees of THB1b from THB0.7b in 2021. On top of that, we expect the company to continue receiving loan management fees from FM. As a result, its Non-NII could surge 20% y-y.

We expect stronger net profit growth in 2H22 following its more aggressive loan expansion.

Boosting SCAP's performance ahead of plan to spin-off

SCAP operates two main businesses, including: 1) new motorcycle hire purchase loans; and 2) unsecured personal loans targeting middle-income earners.

SCAP is operated by professional executives. Mr. Vichit Payuhanaveechai, SCAP's managing director, has more than 30 years of experience in the finance field which includes outstanding achievements at various leading financial organisations, i.e. SUMMIT Capital Leasing – one of the leaders in motorbike hire purchase loans – Bank of Ayudhya (BAY TB, not rated), HSBC, etc.

In 2021, SAWAD aggressively expanded its new MHP lending via SCAP. Based on its financial statements, its 2021 HP portfolio was at THB5.9b, up from THB0.2m in 2020. We believe SCAP will expand its loan portfolio aggressively this year, particularly in MHP. With the CEO's vision and experience, we believe that SCAP will be successful in its business operations. SAWAD targets an IPO for SCAP, probably within this year depending on good market timing.

Regarding the impact of the proposed interest rate charge cap at 20% for MHP by the Office of the Consumer Protection Board (OCPB), we see a manageable downside risk to our 2022E net profit of c5-6%. In our communications with the management of many listed companies, many have said that there is a chance that the OCPB might increase the cap rate.

Exhibit 7: SCAP's motorcycle hire purchase loan characteristics

SCAP	
Yearly interest rate charge - EIR basis (%)	30-35
Loan duration (years)	2-3
Monthly instalment (THB)	3,500 - 4,000
Loan-to-value (%)	90 - 100
Ticket size (THB)	50,000
Channel	Motorcycle dealers

Sources: SAWAD; FSSIA estimates

Exhibit 8: SCAP's unsecured personal loan characteristics

SCAP	
Type of unsecured p-loan	- Traditional monthly instalment - Cash card
Yearly interest rate charge - EIR basis (%)	Up to 25%, with the average of 20%
Target clients	- Middle income/office workers - Its target clients' profile would be between KTC and AEONTS' clients

4Q21 results meet expectations

SAWAD reported a moderate 4Q21 net profit of THB1,144b (-11% y-y, +3% q-q), which was in line with our expectations and the Bloomberg consensus. Its 4Q21 net profit increased slightly q-q, supported by two drivers. First, SAWAD continued to release expected credit loss (ECL) revisions following a decline in Srisawad Finance's portfolio and healthier asset quality due to its more stringent debt collection processes and a rise in car seizures. Its non-performing loans (NPLs) declined by 16% q-q, reflecting an NPL ratio of 3.7% in 4Q21 vs 4.4% in 3Q21. Second, its loan yield increased to 20.3% from 19.6% in 3Q21. We think this came from a rise in its high-yield portfolio, MHP. Its MHP rose 19% q-q to THB5.9b (based on our calculation). These two positives were able to offset a rise in its OPEX; a decline in its fee income; and a flat q-q loan volume as SAWAD increased its car seizures. Note that FM generated a loss of THB23m in 4Q21 for SAWAD vs a loss of THB10m in 3Q21 due to high OPEX.

SAWAD's 2021 core profit came in at THB4.5b, increasing 1% y-y, supported by: 1) an ECL reversal following its better asset quality; 2) a rise in fee income due to its insurance brokerage fees and loan-related fees; and 3) OPEX savings from reallocating some of its staff to work under FM. SAWAD booked a THB178m extra gain from selling FM to the Government Savings Bank.

SAWAD announced a cash dividend of THB1.8 per share, implying a 3.1% dividend yield. The XD is on 3 May-22.

Earnings and TP revisions

We lower our core profit forecasts for 2022-23 by 7%/6% to mainly reflect the slower loan growth in 2021 that we expect to continue in 2022. This should continue to impact earnings in 2022-23.

We revise down our 2022 GGM-based TP to THB74 from THB80, as we: 1) cut our EPS forecast, leading to a lower book value; and 2) revise down our target 2022 P/BV to 3.7x from 4.0x as a result of our lower average long-term ROE target of 21.4% from 22.5%.

Exhibit 11: SAWAD – GGM-derived target price

Target price (THB)	74 (from 80)
Recommendation	BUY (unchanged)
Risk-free rate (%)	3.0 (unchanged)
Market risk premium (%)	8.0 (unchanged)
Cost to equity (%)	11.6 (unchanged)
Terminal growth (%)	7.8 (unchanged)
ROE target (%)	21.4 (from 22.5)
Target PBV (x)	3.7 (from 4.0)
Risk to TP	Downside risks to our GGM-based TP include 1) a further weakening of asset quality that could potentially hit both loan yield and credit cost; and 2) changes in financial regulations by the Bank of Thailand and the Office of the Consumer Protection Board.

Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Company	Ticker	Price	Rating	Valuation & Risks
Srisawad Corp	SAWAD TB	THB 58.25	BUY	Downside risks to our GGM-based TP include 1) a further weakening of asset quality that could potentially hit both loan yield and credit cost; and 2) changes in financial regulations by the Bank of Thailand and the Office of Consumer Protection Board.
Aeon Thana Sinsap (Thailand)	AEONTS TB	THB 200.00	HOLD	Downside risks to our GGM-derived TP include 1) intense competition; 2) regulatory actions to curb industry growth; and 3) deteriorating asset quality. The upside risk is stronger-than-expected asset quality.
Krungthai Card	KTC TB	THB 61.75	HOLD	Upside risks to our GGM-derived TP include: 1) stronger-than-expected growth for KTB Leasing; and 2) better-than-expected bad debt recovery. Downside risks are: 1) regulatory actions to curb industry growth; and 2) deteriorating asset quality.
Muangthai Capital	MTC TB	THB 51.50	BUY	Downside risks to our GGM-based TP include 1) a further weakening of asset quality that could potentially hit both loan yield and credit cost; and 2) changes in financial regulations by the Bank of Thailand and the Office of Consumer Protection Board.
Saksiam Leasing	SAK TB	THB 9.25	BUY	Downside risks to our GGM-derived TP include 1) competition from existing and new players; 2) regulatory changes by the Bank of Thailand (BoT); and 3) a slower-than-expected reduction in its cost of funds due to a shift toward more long-term loans.
Ngern Tid Lor	TIDLOR TB	THB 38.75	BUY	Downside risks to our GGM-based TP include 1) the expansion into auto-title loans by the Government Savings Bank and Auto X (subsidiary of SCB); 2) further weakening asset quality could potentially hit both loan yield and credit cost; and 3) tighter supervision from related regulators.
Micro Leasing	MICRO TB	THB 7.30	BUY	Downside risks to our GGM-derived TP include 1) an economic slowdown, especially for logistics activities and private investment; 2) deteriorating asset quality; and 3) a slower-than-expected reduction in the cost of funds due to a shift toward more long-term loans.
Singer Thailand	SINGER TB	THB 48.00	BUY	Downside risks to our GGM-derived TP include 1) an economic slowdown leading to slower loan growth and lower sales of electrical products and home appliances; and 2) deteriorating asset quality.
Ratchthani Leasing	THANI TB	THB 4.16	BUY	Downside risks to our GGM-derived TP include 1) an economic slowdown, especially for logistics activities and private investment; 2) deteriorating asset quality; and 3) changes in financial regulations from the Bank of Thailand.
Bangkok Commercial Asset Mngt.	BAM TB	THB 21.60	BUY	Downside risks to our GGM-based TP include 1) lower cash collection from its fully amortised portfolio; 2) lower-than-expected bad debt acquisition; and 3) the prolonged slowdown of the property market.
Chayo Group	CHAYO TB	THB 12.00	BUY	Downside risks to our GGM-based TP include 1) lower-than-expected bad debt acquisition; and 2) higher-than-expected operating expenses.
JMT Network Services	JMT TB	THB 65.50	BUY	Downside risks to our GGM-based TP include 1) lower cash collection from its fully amortised portfolio; and 2) the lower-than-expected acquisition of new bad debt.
Thanachart Capital	TCAP TB	THB 43.00	HOLD	Upside risks to our GGM-based target price are the faster-than-expected net profit contribution from Thanachart Plus. Downside risks are impacts from a prolonged weak macro outlook on loan growth and asset quality which could lead to higher provisions for both TTB and THANI.
Next Capital	NCAP TB	THB 9.40	BUY	Downside risks to our GGM-derived TP include 1) an economic slowdown, especially for food delivery and logistics activities; 2) deteriorating asset quality; and 3) tighter competition from new players.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finasia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finasia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 04-Mar-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE**Stock ratings**

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
