UNCHANGED

Solid outlook throughout 2022

- An outstanding 1Q22E NP of THB903m, due to solid loan growth.
- Expect strong earnings growth, increasing y-y and q-q in every quarter throughout 2022.
- Maintain BUY with GGM-based TP of THB43.

Strong start expected in 1Q22

We expect TIDLOR to post an outstanding 1Q22 net profit over its major rivals at THB903m (+15% y-y, +14% q-q). Its solid net profit should be driven by 1) strong loan growth of 20% y-y and 5% q-q following its interest rate promotional campaign for truck title loans and its new product launch – cash card for car title loans; 2) an increase in its insurance brokerage fee income y-y (dropping q-q due to seasonality) following the resumption of business activities; and 3) a lower cost of funds following its rating upgrade to A from A-. Regarding its asset quality, we expect its NPLs to moderately rise by 8% q-q in 1Q21 thanks to the gradual end of the forbearance program. Thus, its ECL would rise by 12% q-q. However, we have little concern due to its sufficient provisions, with the highest expected coverage ratio at 326% in 1Q22.

Car cash card should continue to drive loan volume

TIDLOR launched its cash card for car title loans in early Mar-22. According to TIDLOR, it has gotten very good feedback from its clients due to the greater flexibility to access funds when needed. As for its existing cash card for motorcycle title loans, the loan volume also continued to increase in 1Q22, TIDLOR said. Going forward, we believe its cash card should be one of the major factors to drive its loan volume. Other major rivals still cannot offer this innovative product to clients.

Solid growth set to continue throughout 2022

We have a strong conviction that TIDLOR should deliver strong earnings growth, increasing y-y and q-q in every quarter throughout 2022 on the back of 1) strong loan growth; 2) higher fee income supported by its insurance brokerage business; and 3) good asset quality control leading to a slight increase in ECL.

Expected to outperform major peers in the next 1-2 months

We maintain our BUY call as we believe TIDLOR's net profit should increase at a 21% three-year CAGR in 2022-24 on: 1) its stringent asset quality control; 2) strong insurance brokerage business; and 3) its strategy to not engage in price wars but instead use its unique product strategies, e.g. TIDLOR cash card, to take on competitors. We think TIDLOR's share price might outperform its major peers in the next 1-2 months due to its stronger 1Q-2Q22E earnings.

Investment thesis

TIDLOR is one of the largest microfinance operators in Thailand. Unlike its peers, we believe it has three outstanding differences that will allow it to deliver superior and quality growth amid the intense competition in the auto title loan industry and the upcoming price competition in certain segments, including: 1) being a technology-driven microfinance operator; 2) having synergies from being part of Bank of Ayudhya (BAY TB, NR); and 3) providing sustainable growth.

We maintain BUY as we believe TIDLOR's net profit should rise at a 21% three-year CAGR in 2022-24 on: 1) its stringent asset quality control; 2) strong insurance brokerage business; and 3) its strategy to not engage in price wars but use its unique product strategies, e.g. TIDLOR cash card, to take on competitors.

Company profile

TIDLOR, currently, has two main businesses, namely auto title loans and insurance brokerage services. In 2019, it was the largest auto title loan provider in Thailand, with a market share of 16%. Regarding its insurance broker businesses, it was one of top five insurance brokerages for retail segments and was the eighth-largest non-life insurance broker in Thailand.

www.ngerntidlor.com

Principal activities (revenue, 2021)

- Net interest income - 79.7 %
- Non-interest income - 20.3 %

Source: Ngern Tid Lor

Major shareholders

- Bank of Ayudhya - 30.0 %
- Siam Asia Credit Access PTE Ltd - 25.0 %
- Others - 45.0 %

Source: Ngern Tid Lor

Catalysts

Potential share price catalysts for TIDLOR include:

- Stronger non-life premium growth;
- The reversal of provisions;
- Effective cost control.

Risks to our call

Downside risks to our GGM-based TP include 1) the expansion into auto-title loans by the Government Savings Bank and Auto X (subsidiary of SCB); 2) further weakening asset quality could potentially hit both loan yield and credit cost; and 3) tighter supervision from related regulators.

Strong start expected in 1Q22

We expect TIDLOR to post an outstanding 1Q22 net profit over its major rivals at THB903m (+15% y-y, +14% q-q). Its solid net profit should be driven by 1) strong loan growth of 20% y-y and 5% q-q following ample demand, its interest rate promotional campaign for truck title loans and its new product launch – cash card for car title loans; 2) an increase in its insurance brokerage fee income y-y (dropping q-q due to seasonality) following the resumption of business activities; and 3) a lower cost of funds following its rating upgrade to A from A - on May-21 by Thai Rating and Information Services (TRIS). Regarding its asset quality, we expect its NPLs to moderately rise by 8% q-q in 1Q21 thanks to the gradual end of the forbearance program. Thus, its expected credit loss (ECL) would increase by 12% q-q (significantly rising y-y due to an ECL reversal in 1Q21). However, we have little concern over its asset quality due to its stringent credit underwriting and sufficient provision cushion. We expect TIDLOR to have the highest coverage ratio among the auto title loan lenders under coverage at 326% in 1Q22.

Car cash card should continue to drive loan volume

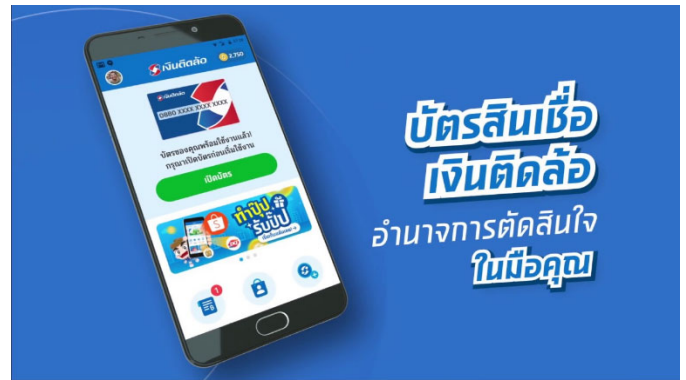

TIDLOR launched its cash card for car title loans in early Mar-22. According to TIDLOR, it has gotten very good feedback from its clients due to the greater flexibility to access funds when needed compared to traditional lending at branches. Regarding its existing cash card for motorcycle title loans, the loan volume also continued to increase in 1Q22, TIDLOR said. Going forward, we believe its cash card should be one of the major factors to drive its loan volume. Other major rivals still cannot offer this innovative product to clients.

Solid growth set to continue throughout 2022

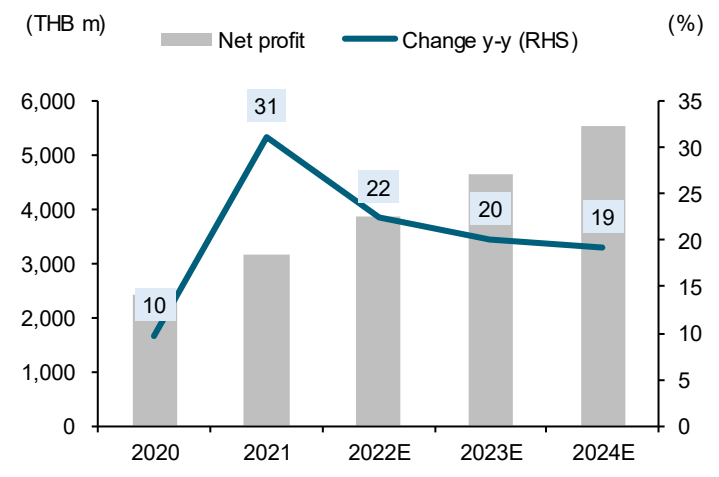

We have a strong conviction that TIDLOR should deliver strong earnings growth, increasing y-y and q-q in every quarter throughout 2022 on the back of 1) strong loan growth; 2) higher fee income supported by its insurance brokerage business; and 3) good asset quality control leading to a slight increase in ECL. We maintain our view that TIDLOR should deliver stronger core profit growth than its big peers at 22% y-y in 2022 vs 9% estimated for Muangthai Capital (MTC TB, BUY, TP THB55) and 10% for Srisawad Corp (SAWAD TB, BUY, TP THB68).

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 27-Apr-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
