## Shockingly weak 1Q22 results

- 1Q22 NP was weak at THB313m, dragged down by higher gas and coal costs and the 2-week unplanned shutdown of Gheco-One.
- We expect weak earnings to continue in 2022 due to the high cost of gas and coal and weaker earnings from Avaada and CI.
- Maintain HOLD and our TP of THB70.

TARGET PRICE	THB70.00
CLOSE	THB63.00
UP/DOWNSIDE	+11.1%
TP vs CONSENSUS	-13.5%

### Cost hikes partly offset by divestment gain

GPSC's 1Q22 net profit (NP) was weak at THB313m, down 73% q-q and 84% y-y. Core NP dropped to THB771m, down 51% q-q and 67% y-y, beating our estimate by 2% and BBG consensus by 10%. Key drags were the higher gas and coal costs and the 2-week unplanned shutdown of the Gheco-One independent power producers (IPPs), along with a lower q-q share of profits from GPSC's 25%-owned Xaiyaburi (XPCL) hydropower plant. Core NPs from GPSC's main power plants dropped in 1Q22 due to: 1) lower gross profits (GPs) from small power producers (SPPs) due to the higher gas (+47% q-q, +116% y-y) and coal costs (+22% q-q, +154% y-y) and the IPP shutdowns, despite the rising electricity demand from industrial users; and 2) lower availability payments (APs) from Gheco-One due to an unplanned outage.

### Cost hikes turned SPPs into net losers

Overall, 1Q22 GP dipped to THB2.8b (-47% q-q, -28% y-y), while 1Q22 GP from SPPs amounted to THB1.4b (-41% q-q, -66% y-y) on the higher gas cost at THB487/mmbtu (+47% q-q, +116% y-y), the higher coal cost at USD177/tonne (+22% q-q, +154% y-y), flat steam sales (+6% y-y for GPSC, -5% y-y for GLOW) and flat electricity sales volumes (+1% y-y for GPSC, -1% y-y for GLOW). The lower GP from IPPs at THB1.3b (-6% q-q, +31% y-y) was due to the q-q lower APs from Gheco-One.

### Poor earnings from hydropower plants

XPCL (25%-owned by GPSC) contributed a net profit of THB1m in 1Q22, down 97% q-q due to seasonally lower water levels, resulting in a lower overall share of profits in 1Q22 to THB143m (+19% q-q, -31% y-y). NPs from another power plant, Nam Lik 1, dipped 4.8% q-q to THB20m. The acquired solar farms from Avaada contributed a net loss of THB2m due to high financing costs while solar farms in Thailand added THB93m net profit in 1Q22 (+43% q-q, -8% y-y).

### Cost pressure remains a key drag

We maintain HOLD and our TP of THB70. We expect GPSC's weak earnings to continue in 2022, dragged down by high gas and coal costs and weaker earnings from Avaada and CI that should be partly offset by rising demand for electricity and steam from industrial users.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

**Disclaimer:**

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

### Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 06-May-2022 unless otherwise stated.

## RECOMMENDATION STRUCTURE

### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

**BUY (B).** The upside is 10% or more.

**HOLD (H).** The upside or downside is less than 10%.

**REDUCE (R).** The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### Industry Recommendations

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### Country (Strategy) Recommendations

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
