Surprising growth from Paju

- EGCO posted a 1Q22 net profit (NP) of THB4.1b, up 346% q-q and 603% y-y; core NP was THB3.9b, up 11x q-q and 149% y-y.
- Key drivers were the strong NPs from KEGCO (THB479m), Paju (THB2.8b), GPG (THB299m), XPCL (THB5m), NTPC (THB521m).
- Maintain BUY and our SoTP-based TP of THB245.

Paju's earnings jump led to a surprisingly strong 1Q22

EGCO posted a 1Q22 net profit (NP) of THB4.1b, up 346% q-q and 603% y-y. Excluding non-recurring income of THB183m, 1Q22 core NP was THB3.9b, up 11x q-q and 149% y-y, above our forecast by 15% and BBG consensus by 37%. Key drivers were stronger NPs from Paju, KEGCO, GPG, XPCL, and NTPC, and the new power plant Linden Topco (+THB317m), which more than offset the weaker NPs from Quezon, SBPL, BLCP, SPPs, and VSPPs. 1Q22 revenue rose to THB12b (+69% y-y, +6% q-q) due to a y-y higher electricity average selling price and a higher sales volume, mostly from KEGCO.

Three growth drivers in 1Q22 – Paju, KEGCO, and Linden

EGCO's 1Q22 core NP of THB3.9b was driven by the strong NPs from KEGCO (THB479m), Paju (THB2.8b), GPG (THB299m), XPCL (THB5m), and NTPC (THB521m). Meanwhile, Quezon (THB566m), SBPL (THB116m), VSPPs (THB300m), and other businesses (THB376m) had weaker profits. Linden Topco, acquired in Jun-22, was a key driver for the earnings of IPPs overseas (THB650m). NPs from SPPs were weak in 1Q22 (THB68m), caused by the higher gas cost, while BLCP saw a net loss of THB205m due to lower revenue. XPCL's and NTPC's NPs improved in 1Q22 due to the seasonally higher water levels.

2Q22 earnings outlook is still sanguine

We project EGCO's core NP to improve in 2022, driven by 1) Paju's 1.8GW gas-fired power plant in South Korea, which saw rising earnings in 1Q22; 2) XPCL (EGCO holds 12.5%)'s 1.28GW hydropower plant and NTPC due to the high water levels driving up capacity factors; 3) Gangdong (EGCO holds 49%)'s 19.8MW fuel cell power plant; 4) Yunlin's 640MW offshore wind farm in Taiwan (Yunlin, 25%, COD 3Q21); 5) Linden and Apex, acquired in 2021; and 6) Nam Theun 1's 644MW hydropower plant (NTPC, EGCO holds 25%) in Laos (COD in 2Q22).

More growth to come

We maintain BUY and our SoTP-based TP of THB245. We believe EGCO's current share price below THB170 is attractive against its strong net profit growth momentum we expect to see in 2022-23 thanks to the projected earnings recoveries for its power plants.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finasia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finasia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 11-May-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
