Malfunctions undermined 1Q22 NP

- 1Q22 NP was THB37m, up from a THB12m loss in 4Q21, but down 22% y-y due to a generator breakdown at its 8MW MWE plant.
- We expect TPCH to have weak earnings due to the rising fuel cost and generator malfunctions in 2Q22.
- Maintain BUY and our TP of THB14.

Generator malfunctions continued to haunt in 1Q22

TPCH's 1Q22 net profit (NP) was THB37m, up from a net loss of THB12m in 4Q21, but down 22% y-y. The key culprit was a lower-thanexpected profit contribution, mainly due to the generator breakdown at the 8MW Mae Wong Energy (MWE) plant, resulting in a lower dividend income of THB75m (-25% q-q, -84% y-y). Generator malfunctions at other plants further eroded 1Q22 NP, including the generator malfunction at the Chang Rak (CRB) plant, a loss of production at the Toongsung Green (TSG) plant due to a woodchipper machine shutdown, and the maintenance shutdown for 26 days at the TPCH1 plant.

Higher costs overshadowed rising revenue

1Q22 revenue rose to THB626m (+11% y-y, +4% q-q) due to the regeneration of MWE and the full-year impact of four new power plants (PTG, TPCH1, TPCH2, TPCH5). However, the higher costs from the shutdown-related expenses for MWE, TSG and PTG, and higher fuel costs and net losses from the four new plants outweighed the high revenue. The EBITDA margin rose to 30% in 1Q22 from 27.9% in 4Q21 and 34.8% in 1Q21, while 1Q22 EBITDA was THB189m (-4% y-y, +13% q-q), driven by the y-y higher revenue from its new power plants but poorer operating rates. Interest expenses dipped to THB51m (+52% y-y, -7% q-q) due to the higher debt to fund TPCH1, TPCH2, and TPCH5.

A weak 2Q22 before a strong 2H22 outlook

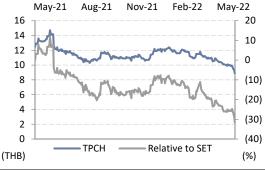

In 2Q22, we expect TPCH to have weak earnings due to the rising fuel cost and generator malfunctions that could lower its electricity production, but by 3Q22 we think its earnings should rebound, backed by higher utilisation rates for its four new biomass power plant projects - TPCH1, TPCH2, TPCH5, and PTG – which should gradually ramp up after a period of operational fine-tuning.

Patience is required for 2H22

We maintain BUY and our TP of THB14. We believe TPCH is an attractive play in biomass power plants, with the expected improvement at its four new power plants as a key earnings growth driver in 3Q22. For the short-term, TPCH may suffer from technical and machinery malfunctions, but by 2H22 we project the problem to dissipate.

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

* CGR scoring should be considered with news regarding wrong doing of the company or director or executive of the company such unfair practice on securities trading, fraud,

Level

Certified

This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 11-May-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
