Stumble in 1Q22

- EA's 1Q22 net profit of THB1.37b (-3% y-y, -27% q-q) was due to lower wind production levels and biodiesel earnings.
- We think EA's net profit growth will accelerate starting in 2Q22, driven by the start-ups of its multiple S-curve growth projects.
- Maintain BUY and our SoTP-based TP of THB122.

Weak wind farm earnings and delay of EV delivery were culprits

EA's 1Q22 net profit (NP) of THB1.37b, down 3% y-y and 27% q-q, was 5% below our forecast and 10% below Bloomberg's consensus estimate due to the y-y lower production levels for wind farms and earnings from biodiesel, along with q-q lower revenue of THB64m from EA's new venture – the manufacturing and sales of batteries and e-buses in 1Q22. 1Q22 core NP came to THB1.36b, down 2% y-y and 27% q-q on lower earnings from EA's wind farms and solar farms due to lower electricity production levels and a delay in the production and delivery of e-buses.

EV delivery is on track for improvement in 2Q22

In 1Q22, EA generated revenue of THB64m from its battery and EV business, with an estimated net loss of THB50m from the sale of 30 e-buses vs our expectation of 100 e-buses due to a skilled workforce shortfall. However, in 2Q22 onward, management guided for a delivery of 300 EVs in 2Q22 and over 1,000 EVs in 2H22, as production is expected to ramp up. 1Q22 power sales dropped on a lower electricity sales volume of 145GW (-28% y-y, -34% q-q) from wind farms that was partly offset by a higher electricity sales volume of 170GWh for solar farms (+7% y-y, +9% q-q). The average selling price (ASP) for solar farms was at THB10/kWh (+2.8% y-y), and for wind farms the ASP was at THB6.4/kWh (+4% y-y). The 1Q22 biodiesel sales volume dropped 26% y-y to 31m litres due to the government's change in the biodiesel formula, but was offset by a 30% y-y higher ASP at THB49/litre.

Growth remains strong post 1Q22

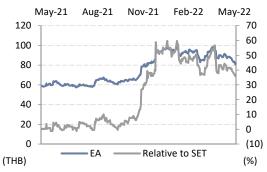

We think EA's NP growth will accelerate starting in 2Q22 onward to boost its 2022-23 NP growth, driven by the start-ups of its multiple S-curve growth projects, which include an expected delivery of 2,000-3,000 e-buses in 2022 and the 1GWh battery phase 1 plant to capitalise on the captive demand for e-buses and e-trucks.

Top pick in Thailand's EV growth theme

We maintain BUY and our SoTP-based TP of THB122. EA is our top pick in the Thai renewables sector for its strong NP outlook on its new S-curve growth projects, which we think will start to accelerate in 2022 onward.

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

* CGR scoring should be considered with news regarding wrong doing of the company or director or executive of the company such unfair practice on securities trading, fraud,

Level

Certified

This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 13-May-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
