

RATCH GROUP RATCH TB

THAILAND / UTILITIES - CONVENTIONAL

BUY

Higher gas cost eroded 1Q22 results

- 1Q22 NP was THB1.6b, down 24% y-y and 26% q-q on lower earnings from IPPs, despite an FX gain of THB413m.
- We expect RATCH's NP growth to rise in 2022-23, premised on our projected higher utilisation rates and equity capacity growth.
- We maintain BUY and our SoTP-based TP of THB60.

TARGET PRICE	THB60.00

UP/DOWNSIDE	+56.9%
TP vs CONSENSUS	+24.0%

Weak 1Q22 earnings on poor NPs from HPC and hydro plants

1Q22 net profit (NP) was THB1.6b, down 24% y-y and 26% q-q on lower earnings from independent power producers (IPPs), despite an FX gain of THB413m. 1Q22 core NP was THB1.2b, down 36% y-y and 47% q-q, missing our forecast by 5% and BBG's consensus estimate by 3%. Share of profits came to THB1.2b, down 15% y-y and 26% q-q on the lower q-q utilisation rate for the Hongsa power plant (HPC). Key points were: 1) equity NP from HPC of THB596m (including a THB4m FX loss), down 23% y-y; 2) THB84m equity income from its coal-fired power plant in Vietnam; 3) an equity loss from its hydropower plant Nam Ngum 2 at THB20m (-76% y-y) and a weak NP from Xepian Xe-Namnoy at THB30m; and 4) higher revenues from two wind farms, Yandin and Collector, in Australia following their full-quarter operations.

RAC's growth offset weaker NPs from SPPs

RG's revenue rose on higher energy payments but saw 28% y-y lower availability payments, while revenue from RATCH-Australia (RAC) rose to THB1b (+42% y-y) due to the full operations of the two new wind farms, Yandin and Collector. RATCH Cogen (RCO) saw 70% higher y-y revenue of THB778m due to higher demand. RATCH's small power producers saw mixed NP results in 1Q22, including Berkprai (-THB18m y-y), Navanakorn Electricity (-THB76m y-y), and RW Cogen (-THB1.4m y-y) due to the higher gas cost.

Expect a strong earnings recovery ahead

We expect RATCH's NP growth to rise in 2022-23, premised on 1) our high utilisation rate assumption of 85-87% for HPC; and 2) equity capacity growth (137MW) from two coal-fired power plants, Thang Long and Paiton, and the Guangxi Fangchenggang nuclear power plant in China (+236MW in 2022E), the Riau power plant in Indonesia (+146MW in 2022E) and HKP in Thailand (+700MW estimated in 2024-25).

Maintain BUY

We maintain BUY and our SoTP-based TP of THB60. We think RATCH remains an attractive investment as a large-scale, IPP-driven company in Thailand with multiple growth projects.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 13-May-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
