# **Back on track starting from 2Q22**

- 1Q22 NP at THB367m missed due to insurance claims, but cash collection came in at a record high.
- Solid cash collection trend and lower insurance claims should lead to stronger performance in 2Q22. Maintain BUY.

#### 1Q22 results miss due to insurance claims but AMC still strong

JMT reported a 1Q22 net profit of THB367m (+30% y-y, -23% q-q), which was lower than the Bloomberg consensus by 10% due to the rise in Covid insurance claims. However, its asset management business (AMC) – 87% of total revenue – was still solid, with record high cash collection (CC) of THB1.5b (+45% y-y, +6% q-q), in line with the gradual economic

### Strong cash collection should continue in 2Q22

At its 1Q22 post-results meeting, JMT stated that the total accumulated value of its NPL investments was THB26b in 1Q22, of which 32% was secured NPLs and 68% unsecured NPLs. Its accumulated total NPL CC amounted to 78% of the total NPL investment and its accumulated secured NPL CC was solid at 38% of total, JMT said. We think this shows JMT's ability to manage secured NPLs. On top of that, management projects that its total CC should continue to be strong in 2Q22, and if that trend continues, there could be an expected credit loss reversal in 2Q22 or 4Q22 depending on the auditor's adjustment. Regarding its insurance business, there were some Covid claims in Apr-22 - which should be the last - and JMT believes that claims in 2Q22 should fall q-q. The AMC JV with KBANK will start operations in 3Q22 with an expected initial gearing ratio of 3x, according to JMT. Thus, the initial investment cost would be cTHB0.8b-1b, based on our calculation. If the JV can deliver satisfactory performance, we believe KBANK will sell more NPLs to it in the future. We came up with a slightly positive view.

#### Expect a surge in 2Q22 net profit

We expect JMT's 2Q22 net profit to rise y-y and q-q and that its AMC business should perform well. Also, we expect lower insurance claims, therefore, its insurance business should improve.

#### Maintain as top pick with our 2022 GGM-based TP at THB80

We think the recent plunge in its share price has fully reflected the soft 1Q22 performance and see this an opportunity to BUY JMT ahead of strong growth in the coming quarters. JMT remains our top pick at a TP of THB80, as we view it as a stock for hedging against the economic downturn based on its unsecured NPL portfolio, and one that should grow with the economic recovery via its secured portfolio.

#### Investment thesis

JMT has been in the distressed asset management business for more than 16 years, with more than 28 years in the debt collection business. Its longstanding experience and effective working processes have enabled it to maintain its position as the market leader in both businesses.

We think the recent plunge in its share price has fully reflected the soft 1Q22 performance. We see this an opportunity to BUY JMT ahead of strong growth in the coming quarters. JMT remains our top pick at a TP of THB80, as we view it as a stock for hedging against the economic downturn based on its unsecured NPL portfolio, and one that should grow with the economic recovery via its secured portfolio.

# 1Q22 results miss due to insurance claims but AMC still strong

JMT reported a 1Q22 net profit of THB367m (+30% y-y, -23% q-q), which was lower than the Bloomberg consensus by 10% due to a rise in Covid insurance claims. Its 1Q22 net profit amounts to 16% of our 2022 net profit forecast.

#### 1Q22 key highlights

- Revenue from AMC remained strong at THB951m, up 40% y-y and 2% q-q. Also, CC hit a record high at THB1.5b, up 45% y-y and 6% q-q, in line with the gradual economic recovery. AMC's performance was partly undercut by a higher credit cost y-y and q-q to 275 bps from the rise in its secured portfolio.
- Its insurance business posted a weak performance from a one-time surge in Covid insurance claims.
- Revenue from debt collection (6% of total revenue) also dropped y-y and q-q due to relaxed debt collection by banks following the forbearance measure.
- JMT acquired NPLs valued at THB728m, which was lower than its 2022 target of THB10b.

# Strong cash collection should continue in 2Q22

At its 1Q22 post-results meeting, JMT stated that the total accumulated value of its NPL investments since its first acquisition in 2006 was THB26b as of 1Q22, of which 32% was secured NPLs and 68% was unsecured NPLs. JMT's accumulated total NPL cash collection was 78% of its total NPL investment and its accumulated secured NPL CC was at 38% of the total secured investment value, according to JMT. We think this should allay investors' concerns over JMT's ability to manage secured NPLs. Regarding its accumulated cash collection from unsecured NPLs, it was excellent at nearly 100% of its total investment, based on our calculation.

Exhibit 2: Comparing the accumulated cash collection of each NPL portfolio with the total investment

Sources: JMT; FSSIA estimates

Management has a strong conviction that its cash collection from both secured and unsecured NPLs should continue to be strong in 2Q22 in line with the economic recovery and thanks to its highly experienced NPL management. Given the strong trend in cash collection, there could be an expected credit loss reversal in 2Q22 or 4Q22 depending on the auditor's adjustment, according to management.

Regarding its insurance business, there were some Covid claims in Apr-22, which should be the last, as JMT stopped selling Covid insurance in 2Q21. JMT believes claims in 2Q22 will be lower than in 1Q22.

As for its AMC JV with Kasikornbank (KBANK, BUY, TP THB180), JMT announced that it would be setting up a JV AMC with KBANK named "JK Asset Management" (JK) with registered capital of THB200m. JK will start operations in 3Q22. The expected initial gearing ratio would be 3x, according to JMT. Thus, the initial investment cost for JK would be cTHB0.8b-1b, based on our calculation. If JK can deliver satisfactory performance, we believe KBANK will sell more NPLs to JK in the future. As we have already added the THB1b cost of JK's NPL management to our assumptions, it does not affect our estimates.

- 3) The success rate of debt collection is estimated at 10% of the total debt to be collected and the commission rate is 8% of the amount collected during 2022-24.

#### RECOMMENDATION STRUCTURE

#### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price\* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.
