THAILAND / UTILITIES - CONVENTIONAL

## GULF TB

**BUY**

UNCHANGED

### Four JVs for faster growth roadmap

- GULF has already announced four JVs with a number of leading corporates to strengthen its growth trajectory.
- We expect GULF to secure additional power capacity growth from two power development plans in Thailand and Vietnam.
- Maintain BUY and our SoTP-based TP of THB60.

ROE (%)	11.0	13.6	13.6	13.6

### Four JVs to grow renewable and digital asset exchange ventures

In the past month, GULF has announced four JVs with a number of leading corporates to strengthen its growth trajectory, comprising 1) a JV with Central Retail Group (CRC TB, BUY) via Greengen Energy Company (GGE, 50% owned by GULF) to develop solar rooftops and sell electricity to CRC's customers via CRC's Thai Watsadu subsidiary (announced on 26 May-22); 2) a JV with Gunkul Engineering (GUNKUL TB, BUY) (50%) to develop renewable energy for wind farms and solar rooftops (25 May-22); 3) the establishment of the JV SG Solar Company (SG Solar, 50%) to develop solar rooftops for Siam Cement (SCC TB, BUY)'s group companies (20 May-22); and 4) setting up a digital asset exchange (51%) with Binance in Thailand (17 May-22).

### Renewable growth roadmap is now crystallising

Out of four JVs announced in May-22, three JVs are intended to grow the renewable capacity by up to 1,000MW within 2022-25, according to management. The solar energy capacity will comprise both solar rooftops (GGE, GUNKUL JV, SG Solar) and wind farms, as well as other renewable projects related to energy innovation like microgrids and smart metres. We believe GULF could announce additional JVs with other leading companies in waste-to-energy (WTE), both for municipal solid waste and industrial waste (IW) WTE power plants by the end of 2022.

### Two PDPs are key growth drivers in 2022-23

In 2022, we expect GULF to secure additional power capacity growth from two power development plans (PDP) in Thailand and Vietnam. Under Thailand's current PDP 2018 Revision 1, the renewable energy capacity is targeted to reach 18.7GW or 21% of total capacity by 2037. Most of the new renewable capacity will come from solar farms and rooftops (8.7GW), solar floating farms (2.7GW), wind (1.5GW), WTE-IW (44MW up to 200MW), and others (3.2GW). We expect the bidding for wind, solar farm, and WTE capacities to occur within 2022. Vietnam's PDP 8 (2021-30E) with 43.9% renewable sources is set for 2030.

### Growth-runner in Thai power sector

Maintain BUY and our SoTP-TP of THB60. We think GULF is one of Thailand's attractive power plays with a visible growth outlook in 2022-25.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

**Disclaimer:**

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of June 24, 2019) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Company	Ticker	Price	Rating	Valuation & Risks
Gulf Energy Development	GULF TB	THB 47.25	BUY	The downside risks to our SoTP-based TP on GULF include 1) lower-than-expected demand for electricity in Thailand; 2) a lower crude price; and 3) delays in project commercial operation dates.
Central Retail Corp	CRC TB	THB 36.75	BUY	The key downside risks to our DCF-based TP include 1) new waves of Covid-19; and 2) lower-than-expected sales from the high-margin fashion business.
Gunkul Engineering	GUNKUL TB	THB 5.65	BUY	The downside risks to our SoTP-based TP on GUNKUL include 1) lower-than-expected demand for electricity in Thailand, 2) declining EPC backlogs, and 3) lower-than-expected utilisation rates for solar and wind farms
Siam Cement	SCC TB	THB 364.00	BUY	Downside risks to our SOTP based TP include 1) a lower-than-expected demand for chemicals, CBM, and packaging; 2) rising coal costs for its cement and packaging units; and 3) weaker demand from the automobile industry that could erode the demand for SCC's chemical unit and its dividend contributions.

## Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finasia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finasia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 25-May-2022 unless otherwise stated.

## RECOMMENDATION STRUCTURE

### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

**BUY (B).** The upside is 10% or more.

**HOLD (H).** The upside or downside is less than 10%.

**REDUCE (R).** The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### Industry Recommendations

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### Country (Strategy) Recommendations

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
