A slight improvement in 2Q22

- INTUCH's net profit in 2Q22 grew slightly by 3% q-q to THB2.6b thanks to an improvement in THCOM's earnings.
- ADVANC's performance remained flat.
- Maintain BUY with the same 2023 TP of THB83.50.

A slight improvement in 2Q22

INTUCH's net profit in 2Q22 grew slightly q-q to THB2.6b (+3% q-q, -6% y-y), mainly driven by Thaicom (THCOM TB, HOLD, TP THB9.20)'s improved earnings. Advanced Info Service (ADVANC TB, BUY, TP THB250)'s earnings, on the other hand, remained flat. INTUCH and other businesses' performance remained at a loss of THB41m. The company also announced an interim dividend payment of THB1.76 per share.

ADVANC: 2Q22 results were in line

ADVANC's 2Q22 core earnings grew by 1% q-q to THB6.4b (-6% y-y), in line with our expectation. The company's extra items in 2Q22 included one-time revenue of THB240m and a loss of THB335m from exchange. Mobile revenue grew slightly to THB29.2b (+1.3% q-q, +0.4% y-y) in 2Q22. The growth mainly came from the recovery of economic activities and increasing international roaming. For more information on ADVANC's performance, please see our ADVANC report, "Advanced Info Service (ADVANC TB) - 2Q22 results were in line", dated 9 Aug-22.

THCOM: 2Q22 core earnings improved significantly

THCOM's core net profit in 2Q22 was THB64m (+488% q-q) thanks to an improvement in its revenue and cost minimisation. The company's revenue increased by 7% q-q to THB737m thanks to the revenue from occasional services. However, its own satellites TC7 and TC8 had a lower utilisation rate of 52% vs 54% in 1Q22 due to lower demand from domestic broadcast customers. The company recognised an extra gain of THB245m mainly from foreign exchange thanks to the depreciation of the THB vs the USD. The losses from Lao Telecommunications remained high at THB104m vs THB74m in 1Q22 due to the appreciation of the USD against the Lao kip. For more information on THCOM's performance, please see our THCOM report, "Thaicom (THCOM TB) - Still waiting for the catalyst", dated 8 Aug-22

Maintain BUY with the same TP of THB83.50

INTUCH's share price has outperformed both ADVANC and THCOM since Jun-22. We believe this is due to the NAV discount, with INTUCH trading at a discounted rate since May-22, allowing the company to offer a higher dividend yield than ADVANC. We still like INTUCH in terms of a dividend play. Maintain BUY with the same 2023 TP of THB83.50.

Disclaimer:

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

Level

Certified This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of 26 October 2021) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 10-Aug-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months. **Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
