

# B.GRIMM POWER BGRIM TB

THAILAND / UTILITIES - CONVENTIONAL

## BUY

## Core net profit improved in 2Q22

- BGRIM's 2Q22 net loss was THB193m, down from a net profit of THB23m in 1Q22.
- We expect BGRIM to recover marginally in 2H22, driven by the higher fuel tariff to compensate for the continued higher gas cost.
- Maintain BUY and our SoTP-TP of THB44.

### 2Q22 net loss worsened by FX loss

BGRIM's 2Q22 net loss was THB193m, down from a net profit (NP) of THB23m in 1Q22. Excluding non-recurring items, 2Q22 core NP was THB147m, up 332% q-q but down 86% y-y, mainly due to 1) the sharp increase in the gas price; 2) lower electricity and steam sales to industrial users (IUs) in both Thailand and Vietnam; 3) the 8.7% y-y lower electricity revenue for the power sold to the Electricity Generating Authority of Thailand (EGAT); and 4) an unrealised FX loss of THB541m. BGRIM's revenue rose to THB14.7b (+28% y-y, -0.6% q-q), driven by a higher tariff from EGAT (+52% y-y), IUs in Thailand (+10% y-y), IUs in Vietnam (+11% y-y) and steam to IUs (+69% y-y).

### Margin improved on the q-q lower gas cost

The EBITDA margin rose to 17.1% in 2Q22, up from 14.7% in 1Q22, but down from 30.7% in 2Q21 due to the sharp rise in the gas price to THB421.9/mmbtu (-4.6% q-q, +77% y-y) from the impact of the higher prices for LNG imports by PTT (PTT TB, BUY) to compensate for the gas supply shortfall from the Erawan gas field. While the gas price spiked by 77% y-y, the price of electricity sold to IUs rose to THB3.55/kWh (+10% y-y, +2.6% q-q), and the steam price rose to THB1,332/t (+69% y-y, +25% q-q), resulting in narrower margins for the electricity and steam sold to IUs from BGRIM's small power producers (SPP).

### Slower-but-better earnings outlook in 2H22-2023

We believe BGRIM's core net profit has bottomed out in 2Q22 and expect it to recover marginally in 2H22 as the higher fuel tariff compensates for the continued higher gas cost. However, by 1Q23 we think earnings growth will accelerate, driven by 1) the full impact of the five new SPPs under SPP power purchase agreements, which are scheduled to start their operations in 2H22; and 2) gradually lower gas prices due to the lower price of self-imported LNG.

### Still the best SPP play in Thailand

Maintain BUY and our SoTP-TP of THB44. We think BGRIM is attractive as a turnaround and growth power play on an earnings recovery, with key catalysts from the structural declines in the gas cost in Thailand as gas production from the Erawan gas field should rise in 2H22-2024.

**Disclaimer:**

The disclosure of the survey results of the Thai Institute of Directors Association ("IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

\* CGR scoring should be considered with news regarding wrong doing of the company or director or executive of the company such unfair practice on securities trading, fraud, and corruption SEC imposed a civil sanction against insider trading of director and executive

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

### Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of 26 October 2021) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

**Additional Disclosures**

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 11-Aug-2022 unless otherwise stated.

**RECOMMENDATION STRUCTURE****Stock ratings**

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

**Industry Recommendations**

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

**Country (Strategy) Recommendations**

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
