THAILAND / OIL & GAS

Strong 2Q22 results on higher GRM

- 2Q22 NP was THB5.3b, up 21% q-q and 199% y-y, mainly due to an after-tax, non-recurring loss.
- Core NP was THB7.4b, up 213% q-q due to a higher GRM and the high utilisation rate of 102%.
- Maintain BUY at our TP of THB41.

Refinery rebound boosted 2Q22 results

2Q22 net profit (NP) was THB5.3b, up 21% q-q and 199% y-y, missing the BBG consensus forecast by 15% and our own by 1%, mainly due to an after-tax, non-recurring loss. 2Q22 core NP was THB7.4b, up 213% qg due to a higher gross refining margin (GRM) and the high utilisation rate of 102%, or 122.5kbpd. In 2Q22, there were multiple pre-tax nonoperating items, including: 1) a THB4.3b oil inventory gain; 2) a hedging loss of THB6.4b; 3) an FX loss of THB516m; and 4) an impairment loss of THB20m.

Higher GRM offset by larger hedging loss

Total EBITDA was THB12.6b in 2Q22, down 8% g-g due to the larger hedging loss despite a sharp rise in GRM. Accounting GRM was USD17.6/bbl in 2Q22, up 33% q-q due to a higher inventory gain. Market GRM was USD24.4/bbl, up 257% q-q, driven by q-q higher product margins and higher sales of unconverted oil. Power EBITDA was THB1.1b in 2Q22, up 11.5% y-y but down 64% q-q, due to the absence of the THB2b divestment gain in 1Q22.

Marketing EBITDA rose while biodiesel and E&P dropped

Marketing EBITDA was THB1.5b in 2Q22 (+78% y-y, +31% q-q) due to a higher marketing margin at THB0.94/litre (+59% q-q) and nine new oil service stations for a total of 1,301 in 2Q22. The marketing sales volume jumped in 2Q22, driven by a rise in the industrial sales volume to 300m litres (+60% y-y, +5% q-q) and the rise in retail service station sales volume of 1,170m litres (+18% y-y, +4% q-q). Biodiesel EBITDA plunged to THB93m, (-69% y-y, -73% q-q) on weaker demand and the rising feedstock cost of crude palm oil. The E&P unit saw 17% q-q lower EBITDA to THB3.5b due to a 54% q-q lower gas price of USD14.7/mmbtu despite a 3% q-q rise in sales volume to 16kboed.

A well-balanced integrated refinery play

Maintain BUY and our TP of THB41. We think BCP is an attractive refinery play thanks to its multiple growth drivers in 2022, including the higher price of oil & gas, rising demand for domestic oil, the improving margins and sales volumes of its non-oil businesses, and the potential earnings upside from its E&P unit.

Disclaimer

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

Level

Certified This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of 26 October 2021) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 11-Aug-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
