Solid, in-line 2Q22 results

- CKP posted a 2Q22 NP of THB864m, up from THB39m in 1Q22 and +22% y-y due to higher NPs from its two hydropower plants.
- We project NP to grow q-q and y-y in 3Q22 and y-y in 4Q22, based on a higher electricity production level for XPCL on seasonality.
- Maintain BUY and our SoTP-based TP of THB6.6.

Solid 2Q22 results as expected

CKP posted a 2Q22 net profit (NP) of THB864m, up from THB39m in 1Q22 and +22% y-y, 2% above our NP estimate and 15% above Bloomberg's consensus forecast, due to the higher NPs from its two hydropower plants. These consisted of 1) a sharp NP jump from the 1.28GW Xayaburi (XPCL) hydropower plant due to seasonally higher water levels that helped generate a higher THB767m share of profit in 2Q22; and 2) a higher electricity sales volume due to the rising water level at the 615MW Nam Ngum 2 (NN2) hydropower plant. The EBITDA margin rose to 28.5% in 2Q22, mainly from NN2, which offset the weaker margins of Bangpa-in Industrial SPP (BIC) due to the rising gas cost.

XPCL was a true hero in 2Q22

The run-of-river XPCL saw a y-y higher sales volume at 2,208.6GWh (+8.1% y-y) due to the Mekong River's higher average seasonal water flows, leading to a higher share of profit of THB767m in 2Q22. NN2 saw a lower electricity sales volume in 2Q22 at 391GWh, down 23% y-y, due to the lower planned sales volume by CKP. We think CKP will increase electricity production at NN2 in 2H22, given the large amount of water stored in its reservoir and the heavy rainfall in 1H22. BIC SPP saw a 3.2% y-y higher electricity sales volume at 383.6GWh and a sharp rise in the gas cost to THB422.7/mmbtu, up 77% y-y.

Expect stronger 3Q22 results

We project CKP's NP to grow q-q and y-y in 3Q22 and y-y in 4Q22, based on higher expected electricity production at XPCL on seasonally high water flows and at NN2 on its high reservoir level. However, NP from BIC could decline further due to potentially higher q-q gas costs given the higher price of imported LNG needed to compensate for the gas supply shortfall from the Erawan gas field in Thailand and Zawtika in Myanmar.

More growth ahead

We maintain BUY and our SoTP-based TP of THB6.6. We think CKP remains attractive as a key beneficiary of the strong NPs from its hydropower plants NN2 and XPCL. We think in 3Q22, CKP stands to benefit from Thailand's higher electricity imports from hydropower plants in Laos that could balance its gas-fired capacity losses.

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

* CGR scoring should be considered with news regarding wrong doing of the company or director or executive of the company such unfair practice on securities trading, fraud, and corruption SEC imposed a civil sanction against insider trading of director and executive

Level

Certified This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of 26 October 2021) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 11-Aug-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
