THAILAND / UTILITIES - RENEWABLES

# EV tailwind to arrive in 3Q22

- EA reported a 2Q22 NP of THB1.1b, down 8% y-y and 20% q-q; core NP came to THB1.06b, down 9% y-y and 22% q-q.
- We think EA's NP growth will accelerate starting in 3Q22 onward, driven by the delivery of e-buses and e-trucks.
- Maintain BUY and our SoTP-based TP of THB101.

# 2Q22 should be the last quarter of weak results

EA's 2Q22 net profit (NP) of THB1.1b, down 8% y-y and 20% q-q, was 15% below our forecast and 18% below Bloomberg's consensus estimate due to the weaker earnings from biodiesel and the lower-than-expected revenue of THB84m from EA's new venture – the manufacture and sales of batteries and e-buses – in 2Q22. 2Q22 core NP came to THB1.06b, down 9% y-y and 22% q-q, on an estimated net loss contribution of THB0.3b from Absolute Assembly, a manufacturing EV plant which postponed all of its 200 e-bus deliveries to 3Q22. This was partly offset by the stronger earnings from EA's wind and solar farms due to higher electricity production levels and rising electricity tariffs.

# Strong power offsets weaker earnings from biodiesel and EVs

In 2Q22, EA generated revenue of THB84m from its battery and EV business, with an estimated net loss of THB0.3b arising from higher personnel expenses as there were no sales in 2Q22 vs 30 e-bus sales in 1Q22. However, in 3Q22 onward, management expects to deliver 800 EVs in 3Q22 and 600-800 EVs in 4Q22, as production ramps up. 2Q22 power sales rose on a higher electricity sales volume of 170GW (+4% y-y, +17% q-q) from wind farms, and 177GWh (+6% y-y, +4% q-q) from solar farms. The average selling price (ASP) for electricity from solar farms was THB9.9/kWh (+4% y-y), and THB6.5/kWh (+7% y-y) for wind farms. As for biodiesel, 2Q22 sales dropped 49% y-y to 21m litres due to the government's change in the biodiesel formula from B7 to B5 since Feb-22, but this was offset by a 53% y-y higher ASP at THB52/litre.

## EV growth to commence in 3Q22

We think EA's NP growth will accelerate starting in 3Q22 onward and boost its 2022-23 NP growth, driven by the delivery of 1,500-2,000 e-buses in 2022 and the capacity expansion of its 1GWh phase 1 battery plant to 2GWh by 4Q22 and 4GWh by end-23.

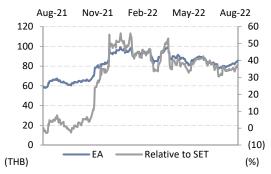

## An EV tailwind is coming soon for EA

We maintain BUY and our SoTP-based TP of THB101. EA is our top pick in the Thai renewables sector based on the strong NP outlook for its new S-curve growth projects, which we think will start to accelerate in 2022 onward.

#### Disclaimer

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

# Level

Certified This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

#### Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of 26 October 2021) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

#### **Additional Disclosures**

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 11-Aug-2022 unless otherwise stated.

## RECOMMENDATION STRUCTURE

## Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price\* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

#### **Industry Recommendations**

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

#### **Country (Strategy) Recommendations**

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
