Transition undermined 2Q22 results

- OSP posted a 2Q22 NP of THB604m (-19% q-q, -26% y-y), due to weaker domestic sales and its ongoing transformation.
- Gross margin dipped to 31.7% in 2Q22, down from 32.1% in 1Q22 and 36.3% in 2Q21, due to higher material costs.
- We maintain BUY and our TP of THB42.

Softer 2Q22 results on domestic beverage market

OSP recorded a 2Q22 net profit of THB604m, down 19% q-q and 26% y-y, missing Bloomberg's consensus estimate by 4% and ours by 5%. Revenue plunged to THB7.3b, down 3% q-q but up 4% y-y, due mainly to weaker domestic sales and OSP's ongoing transformation and premiumisation strategy aimed at building its product portfolio, strengthening distribution networks, and enhancing its flexibility and capabilities in manufacturing and operations. Gross margin dipped to 31.7% in 2Q22, down from 32.1% in 1Q22 and 36.3% in 2Q21, due to higher material costs.

Beverage growth supported by international markets

The beverage segment saw an overall 1% y-y decline in revenue to THB5.9b in 2Q22, dragged down by the 3.4% lower revenue in the domestic market that was partly offset by 6.3% y-y higher sales in overseas markets. The key reason for the drop in domestic revenue was the aggressive price competition and OSP's premiumisation transition, which management believes will help invigorate its long-term growth outlook. Functional drinks grew from C-Vitt, which captured a higher market share of 40.1% (+730bps y-y), thanks to demand growth from the health and well-being consumer trend and demand recovery in the modern trade channel. International markets continued their solid growth despite the unrest in Myanmar, rising inflation, and the debt repayment crisis in Laos.

Personal care demand rebounded

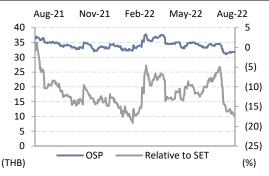

Revenue from personal care grew to THB587m, up 22% y-y and 6% q-q, due to the impact of the economic reopening, which drove demand for baby care (Baby Mild brand), women's beauty care (Twelve Plus), and male grooming products (Exit).

Improving outlook ahead

We maintain BUY and our TP of THB42. We see OSP as Thailand's leading consumer play with a solid product portfolio and a better earnings growth outlook backed by its transformation into premium product categories. OSP announced a THB0.45 dividend for its 1H22 operations, implying a 100% payout ratio based on its THB0.45 EPS.

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of 26 October 2021) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 11-Aug-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
