Groundbreaking orders in 3Q22

- NEX posted a 2Q22 NL of THB59m, up from a NL of THB63m in 1Q22 due to the THB36m share of loss from AAB.
- We remain positive on NEX's quarterly performance and expect NEX to turn around with a NP of THB0.3b-0.5b in 3Q22.
- Maintain BUY and our SoTP-based target price of THB21.6.

2Q22 should be the last quarter of net losses

NEX posted a 2Q22 net loss (NL) of THB59m, up from a NL of THB63m in 1Q22 – 17% below our forecast – due to the THB36m share of loss from Absolute Assembly (AAB) due to postponed e-bus deliveries. In 2Q22, NEX booked no earnings from e-buses as the delivery of 200 completed e-buses was delayed by a longer-than-expected approval process for the new models to be granted tax-free status under AAB's industrial estate free trade zone. We estimate that the 2Q22 NL was mainly incurred from NEX's fixed overhead expenses for its employees at THB35m per quarter, with an additional loss coming from NEX's new intercity bus operation and AAB's share of loss.

Orders for e-buses and e-trucks are now in the pipeline

We remain positive on NEX's quarterly performance and expect NEX will turn around in 3Q22 with a NP of THB0.3b-0.5b, based on the delivery of 800 e-buses, and the new management team's renewed focus on e-bus and e-truck ventures. NEX is now likely to see up to 2,000 e-buses and e-trucks delivered in 2H22, and 3,000-4,000 more e-bus and e-truck orders from Beyond Securities (BYD TB, not rated) and private companies as well as state-owned enterprises within 24 months, according to management.

Quarterly net profits to rise sequentially in 3Q22 onward

We project that NEX will see quarterly NP growth starting in 3Q22 onward on the earnings contribution from its manufacturing plant (via its 45% stake) and e-bus and e-truck sales. We expect NEX's quarterly net profit to be around THB0.3b-0.4b in 3Q22 and in the range of between THB0.3b-0.5b per quarter in 2022-23, driven by the sales of 1,000-2,000 e-buses and 1,000-2,000 e-trucks, based on management's guidance.

Maintain BUY; NEX as a turnaround and EV growth play

We maintain BUY and our SoTP-based target price of THB21.6. We think NEX, via its JV with Energy Absolute (EA TB, BUY, TP THB101), is Thailand's leading player in the commercial EV segment (e-buses and e-trucks) thanks to its first-mover advantage to timely capitalise on the government's pro-EV policies and tax incentives.

Disclaimer:

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

Level

Certified This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of 26 October 2021) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 15-Aug-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
