Termination of investment in Bitkub

- SCB announced the cancellation of its investment in Bitkub, as Bitkub is currently in the process of resolving various issues as per the recommendations and orders of the Securities and Exchange Commission.
- SCB will not incur a penalty fee from the termination.
- One of the reasons for the overhang in SCB's share price is the concern over the price of the deal. Thus, we think the cancellation should positively impact SCB's share price in the short term.
- For the long term, SCB's business expansion plan should still be monitored.

Termination of transaction relating to investment in Bitkub

This afternoon, SCB announced that SCB Securities (SCBS; SCB's subsidiary) has terminated the share purchase agreement for the acquisition of a 51% share of Bitkub Online Co., Ltd. (Bitkub) for cTHB18b, as Bitkub is currently in the process of resolving various issues as per the recommendations and orders of the Securities and Exchange Commission, Thailand, the timeframe of which remains uncertain.

Short-term overhang should come to an end, but...

SCB will not incur a penalty fee from the termination, and it should have more liquidity for potential investments in the future. Although we think SCB will not pay any special dividend from the deal's cancellation, one of the reasons for the overhang in its share price is the concern over the price of this deal. Therefore, we think the cancellation of this deal should positively impact SCB's share price.

... In the long run, its business expansion should be monitored

Although the termination of this deal does not impact our earnings estimates and valuation, the acquisition of Bitkub is one step in SCB's five-year-planned fintech journey. Hence, we think its business expansion plan should still be monitored. We note that SCB and SCBS have stated that they remain committed to their strategic plans to expand into businesses relating to blockchain technology and digital assets.

Maintain BUY with 2023 GGM-based TP of THB134

Although there are still uncertainties regarding SCB's transformation plan, we think its core banking business should still perform well. Its share price has slumped significantly, with a -18% YTD return vs a -8% YTD return for SETBANK. It currently trades at 0.7x 2023E P/BV, with an expected 2023 ROE of 8.5%. Thus, we reiterate our BUY call on SCB with an unchanged 2023 SoTP-based TP of THB134.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.
