# Healthy earnings lie ahead

- Expect 3Q22 core profit to grow 11% q-q and 28% y-y to THB3b, led by the recovery of international patient revenue.
- Expect core profit to jump by 47% in 2022 with the assumption of 19% revenue growth and an EBITDA margin of 23.8%.
- Maintain BUY with higher DCF-TP of THB33/shr.

# Expect revenue to grow by 5% q-q and 16% y-y in 3Q22

The key growth driver is the recovery of international patient revenue, which should recover to 95% of the pre-Covid level in 3Q22 (vs 91% in 2Q22). Revenue from CLMV and expat patients has exceeded pre-Covid since 2Q22, and the momentum should continue. Revenue from Middle East patients should recover to c60-70% of pre-Covid in 3Q22 from 58% in 2Q22. Meanwhile, non-Covid Thai patient revenue should grow by 10% q-q on the high season for Thai healthcare. Covid revenue should decline from 12% of total revenue in 2Q22 to 8% in 3Q22. Overall, we expect the EBITDA margin to improve from 23.3% in 2Q22 to 23.8% in 3Q22, boosting 3Q22 core profit to THB3b - higher than 3Q19's by 2%.

# International patient revenue to continue to grow in 4Q22-1Q23

International patient revenue should maintain its growth momentum in 4Q22-1Q23. Based on pre-Covid data, international patient revenue in 4Q and 1Q was c5-10% higher than in 3Q. This year there is ample room for the Middle East patient volume to recover to pre-Covid. According to the Ministry of Tourism and Sports. Middle East tourist arrivals recovered to 68% of pre-Covid in July-Aug. We believe the recovery momentum will continue, implying more fly-in Middle East patients over the next few quarters. Thus, we expect revenue from international patients to reach the pre-Covid level by 4Q22 and potentially exceed it by 1Q23.

## Strong EBITDA margin may lead to an earnings upside

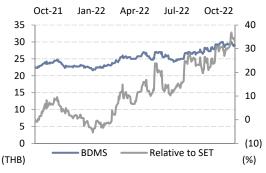

We estimate revenue to grow by 19% in 2022, relatively in line with management's guidance of 15-20%. We have a slightly more bullish view on the EBITDA margin which we forecast at 23.8% in 2022, compared to management's guidance of 23%, as a strong utilisation rate of 70-75% in 3Q22 would more than offset rising staff and utilities expenses in 2H22.

#### Revise up core profit and TP

We revise up our 2022-24E core profit by 3-12% to reflect the strong business outlook, and derive a new 2023 DCF-TP of THB33/shr. BDMS is trading at 36x 2023E P/E, slightly above its 5-yr average of 35x. Upsides include a stronger-than-expected EBITDA margin – we estimate that every 1% increase would raise 2023 profit by 6% - and the recovery of Chinese patients (accounted for 2% of total revenue in 2019).

#### Investment thesis

BDMS has aggressively expanded its hospital network from 10 in 2004 to 54 currently. The company had a high capex level, averaging 17% of revenue over 2013-19. It is at the tail-end of its capex cycle, as it already achieved its target of 50 hospitals.

BDMS plans to focus on its organic growth. We expect its EBITDA margin to improve from 22% in 2020 to 24% in 2023, led by a higher utilisation rate, its Centre of Excellence (CoE) project, and the turnaround of loss-making hospitals.

BDMS has a healthy balance sheet with a 2021 net D/E of only 0.1x. FCFF should accelerate, based on our estimates, and this would provide an upside to its dividend payouts.

## Company profile

BDMS is the largest healthcare provider in terms of market capital in Thailand. It operates 54 hospitals under six brands.

# **Catalysts**

Key potential growth drivers include 1) higher insurance patient revenue; 2) rising demand from medical tourists; and 3) an improving EBITDA margin led by CoE hospitals.

#### Risks to our call

Downside risks to our DCF-based target price include 1) a slowdown in international patients due to economic concerns, political protests or floods; 2) regulatory risks from drug price and medical bill controls; and 3) higher-than-expected capex and opex for CoE projects.

#### Earnings sensitivity

- For every 1% increase in patient volume, we project 2023 earnings to rise by 2%, and vice versa, all else being equal.
- For every 1% increase in EBITDA margin, we project 2023 earnings to rise by 6%, and vice versa, all else being equal.

#### Disclaimer:

The disclosure of the survey results of the Thai Institute of Directors Association ('IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey results may be changed after that date. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such survey results.

Sources: Thai Institute of Directors Association (IOD); FSSIA's compilation; data as of 26 October 2021

<sup>\*</sup> CGR scoring should be considered with news regarding wrong doing of the company or director or executive of the company such unfair practice on securities trading, fraud, and corruption SEC imposed a civil sanction against insider trading of director and executive

#### **Level** Certified

This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.

Declared This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

#### Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of 26 October 2021) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

#### **Additional Disclosures**

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 05-Oct-2022 unless otherwise stated.

# RECOMMENDATION STRUCTURE

#### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price\* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

#### **Industry Recommendations**

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

#### **Country (Strategy) Recommendations**

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
