JASIF unitholder meeting rejects key part of ADVANC's proposal

While Jasmine Broadband Internet Infrastructure Fund (JASIF TB, NR)'s unitholder meeting accepted a proposal that would allow Jasmine International (JAS TB, REDUCE, THB3.10) to sell its investment in JASIF and Triple T Broadband (TTTBB, NL) to ADVANC, they rejected the proposed termination of the current rental and marketing services agreement, which from ADVANC's perspective, was the most important issue at hand.

What's the next move for ADVANC?

The proposed fibre optic cable rental and marketing contract revision was critical for ADVANC, and the rejection by JASIF's unitholders makes the TTTBB acquisition less attractive. If the original rental agreement remains unchanged, the company would have to pay over THB14b in rental fees until 2031, which would result in minimal benefits to ADVANC from the acquisition. ADVANC's two remaining options include 1) proceeding with the deal under the terms of the original agreement; or 2) terminating it. The company indicated that it would decide how to proceed following a board meeting this week.

ADVANC could choose to proceed or terminate the deal

We believe the odds are 50:50 whether ADVANC will proceed with the deal or reject it because with no revision of the rental contract, the deal is now less attractive. In our view, there is no significant difference between the two options. Note that we have not included the potential upside for the deal to our share price forecast yet because we project it to be minimal at only THB2-8 or 1-3% compared to the consensus TP.

Maintain BUY with the same 2023 TP of THB242

With ADVANC's share price at its lowest level in over a year, trading at 6.5x 2023E EV/EBITDA (-1SD of its mean), we think the downside is minimal, and that the market had already partially priced in the possibility that ADVANC's proposed rental contract revision would be rejected by JASIF's unitholders. Although there is a risk that ADVANC may lose its competitive advantage in the long term if the merger of its competitors can proceed, we believe JAS and ADVANC will come up with a way to resolve the rental contract issue in the future. Maintain BUY on ADVANC with the same TP of THB242.

RECOMMENDATION STRUCTURE**Stock ratings**

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.
