Higher gas cost eroded 3Q22 NP

- BGRIM's 3Q22 net loss was THB529m, deepening from the net loss of THB193m in 2Q22.
- The EBITDA margin dipped to 13.7% in 3Q22, down from 17.1% in 2Q22, due to the sharp rise in the gas price.
- Maintain BUY and our SoTP-TP of THB41.

Gas cost, FX loss hurt 3Q22 earnings

BGRIM's 3Q22 net loss was THB529m, deepening from the net loss of THB193m in 2Q22. Excluding non-recurring items, 3Q22 core net profit was THB25m, down 83% q-q and 96% y-y, mainly due to 1) the sharp increase in the gas price; 2) 5% q-q and 36% y-y lower steam sales to industrial users (IUs) in Thailand; 3) a net gain of THB17m from non-operating items; and 4) an unrealised FX loss of THB830m. BGRIM's revenue rose to THB18.4b (+57% y-y, +25% q-q), driven by a higher tariff from the Electricity Generating Authority of Thailand (EGAT) (+78% y-y), IUs in Thailand (+19% y-y), IUs in Vietnam (+7% y-y), and a higher selling price for steam to IUs (+91% y-y).

Gas price hikes offset Ft hikes

The EBITDA margin dipped to 13.7% in 3Q22, down from 17.1% in 2Q22 and 26.3% in 3Q21. This was due to the sharp rise in the gas price to THB558/mmbtu (+32% q-q, +1.1x y-y) from the impact of the higher prices for LNG imports via PTT (PTT TB, BUY) to compensate for the gas supply shortfall from the Erawan gas field, which were partly offset by the increase in the Ft rate. The price of electricity sold to IUs in Thailand rose to THB3.89/kWh (+19% y-y, +10% q-q), and the steam price rose to THB1,403/t (+91% y-y, +5% q-q), resulting in narrower margins for the electricity and steam sold to IUs from BGRIM's small power producers.

Core net profit to improve in 4Q22

We believe BGRIM's core net profit has bottomed out in 3Q22 and expect it to recover marginally in 4Q22, as we project 1) the gas cost for BGRIM to decline from THB558/mmbtu in 3Q22 to THB510/mmbtu in 4Q22 – this should drive up BGRIM's gross margin and boost its core net profit back to THB0.2b-0.4b in 4Q22, in our view; and 2) the higher fuel tariff should compensate for the higher gas cost.

Maintain BUY with TP of THB41

We maintain BUY and our SoTP-based TP of THB41. We think BGRIM is attractive as a turnaround and growth power play on an earnings recovery, with key catalysts from the structural decline in the gas cost in Thailand as production from the Erawan gas field should rise in 2H22-2024. With this report, we transfer coverage of BGRIM to Siriluck Pinthusoonthorn.

Investment thesis

B.Grimm Power (BGRIM) is one of Thailand's small power producer (SPP) pioneers, providing a reliable source of electricity to industrial users (IUs). It has continued to expand its portfolio, with the number of its SPPs increasing from one in 1998 to 13 at end-2016 and 17 as of 1Q20, while equity capacity has risen from 85MW in 1998 to 974MW in 2016 and 1,996MW in 2019. Its solid operational efficiency and optimisation, as well as in-house development and maintenance services, have made BGRIM a reliable power supplier and generated solid returns for its shareholders.

With a superior SPP portfolio and solid capabilities in SPP development and operations, BGRIM plans to expand its capacity substantially. The company aims to increase its capacity to 7.2GW by 2025, up from 3.25GW as of 2021, and aims to increase its renewable energy and conventional power capacities via SPPs in domestic and overseas markets.

Company profile

BGRIM is a holding company investing in electricity generating businesses of Small Power plants (SPP) with major gas-fired and solar farm power assets in Thailand, Laos, and Vietnam.

Catalysts

Higher utilisation rates at its power plants, rising demand for electricity in Thailand and Vietnam, and higher crude oil prices are all key potential earnings growth drivers

Risks to our call

The downside risks to our SoTP-based TP include 1) lower-than-expected demand for electricity in Thailand, 2) a lower crude price, and 3) unplanned shutdowns of its SPPs.

Event calendar

Date	Event
Feb 2023	4Q22/2022 results announcement

Key assumptions

	2022E	2023E	2024E
Utilisation rate (%)	92	93	94
Dispatched power (GWh)	12,778	11,504	11,510
Oil price (USD/bbl)	110	100	100
Average tariff (THB/kWh)	4.09	3.84	4.16
Gas price (THB/mmBtu)	501	451	427

Earnings sensitivity

- Ceteris paribus, for every 1% increase in gas price, we estimate 2023 earnings would decline 6.8%, and vice versa.
- Ceteris paribus, for every 1% increase in interest rate, we estimate 2023 earnings would decline 18%, and vice versa.

Level	
Certified	This level indicates practical participation with thoroughly examination in relation to the recommended procedures from the audit committee or the SEC's certified auditor, being a certified member of Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) or already passed examination to ensure independence from external parties.
Declared	This level indicates determination to participate in the Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC)

Disclaimer:

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, FSS International Investment Advisory Company Limited does not confirm, verify, or certify the accuracy and completeness of the assessment results.

Note: Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of 26 October 2021) are categorised into: 1) companies that have declared their intention to join CAC, and; 2) companies certified by CAC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 10-Nov-2022 unless otherwise stated.

RECOMMENDATION STRUCTURE**Stock ratings**

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
