## การระบายสินค้าน่าจะสิ้นสุดลงในช่วง 1H23

- กำไรสุทธิ 1Q23 ลดลง q-q และ y-y อย่างไรก็ตามเราคิดว่ากำไรดังกล่าวเป็นจุดต่ำสุดของปีเนื่องจากลูกค้าน่าจะหันกลับมาซื้อสินค้าใน 2Q23
- เราปรับลดประมาณการกำไรปี 2023 ลง 35% (-30% y-y) แต่คาดว่ากำไรจะกลับมาโตดีที่ 31% y-y ในปี 2024
- คงแนะนำซื้อที่ราคาเป้าหมายใหม่ที่ 34 บาท (25x ของค่า 2024E P/E)

## ลูกค้าน่าจะกลับมาซื้อสินค้าใน 2Q23

ที่ประชุมนักวิเคราะห์เมื่อวันที่ 28 เม.ย. 2023 ผู้บริหารปรับลดประมาณการอัตราการเติบโตของรายได้ในปี 2023 ลงเหลือ 0-1% y-y จาก 15% y-y และสมมติฐานอัตรากำไรขั้นต้นเป็น 22.5-23.5% จาก 25% เพื่อสะท้อนผลกระทบการที่ตกต่ำใน 1Q23 ผู้บริหารคาดว่าลูกค้าจะกลับมาซื้อสินค้าใน 2Q23 เราคาดว่ารายได้ใน 2Q23 จะเพิ่มขึ้น q-q แต่ลดลง y-y จากฐานที่สูงใน 2Q22 เราคิดว่ากำไรของ ITC ใน 1Q23 เป็นจุดต่ำสุดของปีและคาดว่ากำไรจะฟื้นตัวตั้งแต่นั้นเป็นต้นไป

## คาดการณ์อาหารสัตว์เลี้ยงของสหรัฐฯ จะโตในระดับปานกลางในปี 2023

หลังรายได้จากธุรกิจอาหารสัตว์เลี้ยงในสหรัฐฯ โตถึง 9.8% และ 13.7% ในช่วงโควิดแพร่ระบาดในช่วงปี 2021-22 ตามลำดับ ตัวเลขการเติบโตในปี 2023 น่าจะชะลอตัวเป็น 3% (แหล่งที่มา: petfoodindustry.com) อย่างไรก็ตามการสำรวจเจ้าของสัตว์เลี้ยงเมื่อไม่นานมานี้ได้เปิดเผยว่าสินค้าและบริการสำหรับสัตว์เลี้ยงเป็นรายการที่ขาย ๆ ของแผนลดค่าใช้จ่ายครัวเรือนเป็นรองเพียงยาและค่าใช้จ่ายในการดูแลสุขภาพของมนุษย์เท่านั้น นอกจากนี้เรายังเห็นสัญญาณเชิงบวกจาก Nestle ซึ่งรายงานรายได้โต 15.7% y-y หลังปรับราคาขายอาหารสัตว์เลี้ยงขึ้น 12.2% y-y ใน 1Q23 ทั้งนี้มีการคาดการณ์ว่าตลาดอาหารสัตว์เลี้ยงในสหรัฐฯ จะโตในอัตรา 8.8% CAGR ในช่วงปี 2023-27

## ปรับลดประมาณการเพื่อสะท้อนกำไรที่อ่อนแอใน 1Q23

เราปรับลดประมาณการกำไรสุทธิปี 2023 ลง 35% มาอยู่ที่ 3 พัน ลบ. (-30% y-y) จากรายได้ที่ลดลงชั่วคราวใน 1Q23 และต้นทุนวัตถุดิบที่สูงเกินคาด ในรายละเอียดเราปรับลดประมาณการรายได้รวมปี 2023 ลง 15.7% (-6.5% y-y) และสมมติฐานอัตรากำไรขั้นต้นลดลงจาก 25% เป็น 20% ซึ่งต่ำกว่าเป้าหมายใหม่ของผู้บริหาร ในขณะที่เราคาดว่ากำไรสุทธิปี 2024 จะกลับมาโตดีถึง 31% y-y เป็น 4 พัน ลบ.

## คงแนะนำซื้อที่ราคาเป้าหมายใหม่ที่ 34 บาท

เราคิดว่ากำไรสุทธิของ ITC ใน 1Q23 เป็นจุดต่ำสุดของปีและแนวโน้มการระบายสินค้าน่าจะสิ้นสุดลงในช่วง 1H23 ในขณะที่เดียวกันเราคงแนะนำซื้อสำหรับตลาดอาหารสัตว์เลี้ยงโลกในระยะกลางถึงยาว ด้วยเหตุดังกล่าวเราปรับราคาเป้าหมายไปในปี 2024 ซึ่งสะท้อนคาดการณ์ของเราที่ว่าสถานการณ์ของ ITC จะกลับเป็นปกติ เราคงแนะนำซื้อที่ราคาเป้าหมายใหม่ที่ 34 (25x ของค่า 2024E P/E)

## Investment thesis

Thailand's i-Tail Corporation (ITC) is one of the world's leading pet food manufacturers. Its cost and innovation advantages come from its parent company, Thai Union Group (TU TB, BUY), one of the world's largest tuna processors. Given the management team's 20 years of experience on average, ITC can respond to changing demands and maintain its relationships with global pet food brands. Also, its growth has outpaced the rise in the value of the pet food market over the past three years. Despite the Covid-19 pandemic, the pet food market has continued to grow in line with the pet humanisation trend.

## Company profile

ITC was one of the top 10 global pet food companies by value in 2021 and ranked second in Asia. ITC is the Global PetCare (GPC) unit of Thai Union Manufacturing (TUM), which has operated a pet food business since 1977. Apart from Thailand, ITC has an extensive geographic presence in the US, UK, EU, China, and Japan.

## Principal activities (revenue, 2022)

- Pet Food - 84.4 %
- Treats - 15.0 %
- Other - 0.6 %

Source: i-Tail Corporation

## Major shareholders

- Thai Union Group - 77.8 %
- Others - 22.2 %

Source: i-Tail Corporation

## Catalysts

Potential catalysts for ITC's earnings growth in 2023 are 1) revenue growth driven by new customers and industry growth; 2) its capacity expansion plan; and 3) declining raw material costs and an end to the shipping container shortage.

## Risks to our call

Downside risks to our PE-based TP include 1) a stronger-than-expected THB against USD; 2) the high volatility of raw material prices; 3) labor shortages; and 4) changing consumer demand and lifestyles.

## Event calendar

Date	Event
Aug 2023	2Q23 results announcement

## Key assumptions

	2023E	2024E	2025E
Total capacity (tonnes/year)	194,872	206,627	224,103
Sales volume (tonnes/year)	134,272	148,274	162,909
Utilisation rate (%)	68.9	73.1	74.1
FX rate (USD/THB)	33.0	33.0	33.0
Tuna price (USD/tonne)	1,700	1,600	1,500
Total sales growth (%)	(6.5)	10.4	10.9
Gross margin (%)	20.0	23.0	24.0

## Earnings sensitivity

- For every THB1/USD increase, we estimate 2023 net profit to fall by 10%, and vice versa, all else being equal.
- For every 10% increase in the tuna price, we estimate 2023 net profit to fall by 8.5%, and vice versa, all else being equal.
- For every 10% increase in the aluminum price, we estimate 2023 net profit to fall by 2.9%, and vice versa, all else being equal.
- For every 5% increase in the minimum wage, we estimate 2023 net profit to fall by 2.4%, and vice versa, all else being equal.

Source: FSSIA estimates

## 1Q23 net profit missed our estimate but should be the bottom

ITC reported a 1Q23 net profit of THB425m (-37% q-q, -53% y-y). Excluding an FX gain of THB11m, the company's normalised earnings were equal to THB414m (-56% q-q, -53% y-y), below our estimate by 20%.

Total revenue dropped by 35.8% q-q and 16.7% y-y, in line with Thailand's food exports, as customers have delayed restocking after accumulating sizable inventories in previous quarters. In particular, cat food revenue plunged 40% q-q and 18% y-y, while treat revenue dropped by 31% q-q and 35% y-y.

ITC's 1Q23 gross margin also sharply decreased to 17.4% (vs 22.4% in 4Q22 and 23.8% in 1Q22), due to lower sales volumes, changes in the product mix which lowered the average selling prices, and higher raw material costs.

### Exhibit 1: 1Q23 earnings results

## Public disclosures related to sustainable development evaluation of Thai listed companies

**Rating** regarding the sustainable development of Thai listed companies, both on the SET and MAI, are publicly available on the website of the Securities and Exchange Commission of Thailand (SEC). Currently, ratings available are 1) "**CG Score**" by the Thai Institute of Directors Association (Thai IOD); 2) "**AGM Checklist**" by the Thai Investors Association (TIA), a "**CAC certified member**" of the Thai Private Sector Collective Action Against Corruption (CAC); and 3) "**Sustainability Investment List (THSI)**" by the Stock Exchange of Thailand. The ratings are updated on an annual basis. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such ratings.

### CG Score by the Thai Institute of Directors Association (Thai IOD)<sup>1</sup>

The **CG Score** indicates corporate governance (CG) strength in the sustainable development of Thai listed companies. Annually, the Thai IOD, with support from the Stock Exchange of Thailand (SET), surveys and assesses the CG practices of companies and publishes the results on the [Thai IOD website](#) in a bid to promote and enhance the CG of Thai listed companies in order to promote compliance with international standards for better investment decisions. The results are from the perspective of a third party, not an evaluation of operations, as of the date appearing in the report, and may be changed after that date.

The **five underlying categories and weighting** used for the CG scoring in 2022 include the rights of shareholders and equitable treatment of shareholders (weight 25% combined), the role of stakeholders (25%), disclosure and transparency (15%), and board responsibilities (35%).

The CGR report rates CG in six categories: 5 for Excellent (score range 90-100), 4 for Very Good (score range 80-89), 3 for Good (Score range 70-79), 2 for Fair (score range 60-69), 1 for Pass (score range 60-69), and not rated (score below 50).

### AGM Checklist by the Thai Investors Association (TIA)<sup>2</sup>

The "**AGM Checklist**" quantifies the extent to which shareholders' rights and equitable treatment are incorporated into business operations and the extent to which information is sufficiently disclosed and the level of its transparency. All the considered factors form important elements of two out of five the CG components. Annually, the TIA, with support from the SEC, leads the project to evaluate the quality of Annual General Meetings of Shareholders (AGMs) and to rate quality of the meetings.

The **Checklist** contains the minimum requirements under law that companies must comply with, or best practices according to international CG guidance. Representatives of the TIA will attend the meetings and perform the evaluation. The assessment criteria cover AGM procedures before the meeting (45%), at the meeting date (45%), and after the meeting (10%). The first assesses 1) advance circulation of sufficient information for voting; and 2) facilitating of how voting rights can be exercised. The second assesses 1) the ease of attending meetings; 2) transparency and verifiability; and 3) openness for Q&A. The third involves the meeting minutes that should contain discussion issues, resolutions and voting results.

The results are classified into four categories: 5 for Excellent (score 100), 4 for Very Good (score 90-99), 3 for Fair (score 80-89), and not rated (score below 79).

### CAC certified member by the Thai Private Sector Collective Action Against Corruption (CAC)<sup>3</sup>

A **CAC certified member** is a listed company whose Checklist satisfies the CAC Certification's criteria and is approved by the CAC Council. The core elements of the Checklist include corruption risk assessment, establishment of key controls, and the monitoring and developing of policies. Note that the CAC does not certify the behaviour of the employees nor whether the companies have engaged in bribery, and Certification is good for three years.

Companies deciding to become a CAC certified member **start with** by submitting a Declaration of Intent signed by the Chairman of the Board to kick off the 18-month deadline for companies to submit the CAC Checklist for Certification. The 18-month provision is for risk assessment, in place of policy and control, training of managers and employees, establishment of whistleblowing channels, and communication of policies to all stakeholders.

The checklist document will be reviewed by the CAC Certification Committee for adequate information and evidence. It is worth noting that the committee consists of nine professionals in business law, corporate governance, internal audit, financial audit and experienced representatives from certified members.

A passed Checklist will move on to the **CAC Council** for granting certification approvals. The CAC Council consists of twelve prominent individuals who are highly respected in professionalism and ethical achievements. Among them are former ministers, a former central bank governor, the former head of the Thai Listed Companies Association, Chairman of Anti-Corruption Organizations (Thailand), Chairman of Thai Institute of Directors, and reputable academic scholars.

### Sustainability Investment (THSI)<sup>4</sup> by the Stock Exchange of Thailand (SET)

Thailand Sustainability Investment (**THSI**) quantifies responsibility in **E**nvironmental, and **S**ocial issues, by managing business with transparency in **G**overnance. The THSI serves as another choice for investors who desire to adopt a responsible investment approach, according to the SET.

Annually, the SET will announce the voluntary participation of the company candidates which pass the preemptive criteria, and whose two key crucial conditions are met, i.e. no irregular trading of the board members and executives and a free float of >15% by the number of shareholders, and combined holding must >15% of paid-up capital. Some key disqualifying criteria include a CG score of below 70%; independent directors and free float violation; executives' wrongdoing related to CG, social and environmental impacts, equity in negative territory, and earnings in the red for more than three years in the last five years. To become eligible for THSI, the candidate must pass three indicators in data declaration: **E**conomic (CG, risk management, customer relation management, supply chain management, and innovation); **E**nvironmental (environmental management, eco-efficiency, and climate risk); **S**ocial (human rights, talent attraction, operational health & safety, community development, and stakeholder engagement); and the incorporation of ESG in business operations.

To be approved for THSI inclusion, verified data must be scored at a 50% minimum for each indicator, unless the company is a part of the Dow Jones Sustainability Indices<sup>5</sup> (DJSI) during the assessment year. The scoring will be fairly weighted against the nature of the relevant industry and materiality.

Note that, from the **THSI list**, the SET further developed a sustainability **SETTHSI Index** in June 2018 from selected THSI companies whose 1) market capitalisation > THB5b (~USD150b); 2) free float >20%; and 3) liquidity >0.5% of paid-up capital for at least 9 out of 12 months. The SETTHSI Index is a market capitalisation-weighted index, cap 5% quarterly weight at maximum, and no cap for number of stocks.

#### Disclaimer:

<sup>1</sup> Thai Institute of Directors Association ([Thai IOD](#)) was established in December 1999 and is a membership organisation that strives to promote professionalism in directorship. The Thai IOD offers directors certification and professional development courses, provides a variety of seminars, forums and networking events, and conducts research on board governance issues and practices. Membership comprises board members from companies ranging from large publicly listed companies to small private firms.

<sup>2</sup> Thai Investors Association ([TIA](#)) was established in 1983 with a mission to promote investment knowledge and to protect the investment rights of Thai investors. In 2002, the association was appointed by the Securities and Exchange Commission (SEC) to represent individual shareholders. To obtain information for evaluation, the association recruits volunteer investors to join AGMs and score the meetings. Weightings for each meeting are at a 45:45:10 ratio. They have been applied since 2017 and subject to change.

<sup>3</sup> Thai Private Sector Collective Action against Corruption ([CAC](#)) was founded in 2010 and is 100% privately funded. It is an initiative by the Thai private sector to take part in tackling corruption problems via collective action. The CAC promotes the implementation of effective anti-corruption policies in order to create a transparent business ecosystem by developing a unique certification program for large/medium/small companies to apply for and to control corruption risk systematically and efficiently. The CAC's operations are sponsored by the US-based Center for Private Enterprise (CIPE) and the UK Prosperity Fund.

<sup>4</sup> Sustainability Investment List ([THSI](#)), created by the Stock Exchange of Thailand in 2015, comprises the listed companies that conduct sustainable business operations.

<sup>5</sup> Dow Jones Sustainability Indices – [Wikipedia](#) – Launched in 1999, DJSI evaluates the sustainability performance of companies based on corporate economic, environmental, and social performance.

FSSIA may incorporate the recommendations and target prices of companies currently covered by FSS Research into equity research reports, denoted by an 'FSS' before the recommendation. FSS Research is part of Finansia Syrus Securities Public Company Limited, which is the parent company of FSSIA.

All share prices are as at market close on 08-May-2023 unless otherwise stated.

## RECOMMENDATION STRUCTURE

### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### Industry Recommendations

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### Country (Strategy) Recommendations

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
