Highlights

- TTA รายงานกำไรสุทธิ 2Q23 อยู่ที่ 630 ลบ. เมื่อหักกำไรจากอัตราแลกเปลี่ยนเงิน กำไรจากการขายการลงทุนในกิจการร่วมค้าและการกลับรายการสำรองสินทรัพย์ดิจิทัล กำไรปกติจะอยู่ที่ 477 ลบ. เพิ่มขึ้นแรงจากที่เคยขาดทุน 7 ลบ. ใน 1Q23 แต่ยังคงลดลง 72% y-y
- แม้ว่ากำไรปกติ 2Q23 จะสูงกว่าที่เราคาด 52% เรายังเห็นว่า 2Q23 เป็นไตรมาสที่อ่อนแอ ธุรกิจบริการนอกชายฝั่งเป็นปัจจัยผลักดันสำคัญในไตรมาสนี้เนื่องจากธุรกิจหลัก (เรือเทกอง) รายงานรายได้อ่อนแอตามค่าระวางที่ลดลง
- ใน 2Q23 รายได้รวมอยู่ที่ 6 พัน ลบ. เพิ่มขึ้น 26% q-q ส่วนมากจากการเติบโตในธุรกิจบริการนอกชายฝั่ง แต่ลดลง 26% y-y จากธุรกิจเดินเรือที่อ่อนแอ ธุรกิจบริการนอกชายฝั่งสร้างรายได้ 36% ของรายได้รวมตามด้วยเดินเรือ (35%), เคมีเกษตร (16%), อาหารและเครื่องดื่ม (8%), และการลงทุนอื่น (5%)
- TC rate เฉลี่ยในธุรกิจเดินเรืออยู่ที่ USD14,719 ต่อลำต่อวันใน 2Q23 (+7% q-q, -52% y-y) ในขณะที่ค่าใช้จ่ายในการดำเนินงาน (OPEX) เพิ่ม 5% q-q และ 14% y-y เป็น USD4,500 ต่อวันจากค่าใช้จ่ายลูกเรือและต้นทุนด้านเทคนิคที่สูงขึ้น ธุรกิจเดินเรือรายงานกำไรปกติ 438 ลบ. ให้แก่ TTA หรือ 92% ของกำไรปกติของกลุ่มฯ
- การกลับมาเปิดดำเนินงานของเรือให้บริการได้น้ำ 2 ลำหลังการซ่อมบำรุงใน 1Q23 ทำให้รายได้บริการนอกชายฝั่งเพิ่ม 45% q-q และ 13% y-y และทำให้กำไรปกติเพิ่ม 65 ลบ. (+43% y-y)
- กำไรปกติ 1H23 ที่ 469 ลบ. (-82% y-y) คิดเป็นเพียง 30% ของประมาณการทั้งปีของเรา อย่างไรก็ตามราคาเป้าหมายของเราไว้ตามเดิมที่ 7 บาท (8x ของค่า 2023E P/E) แม้ว่าราคาหุ้นของ TTA จะปรับตัวลดลงอย่างต่อเนื่องซึ่งทำให้มี Upside มากกว่า 10% เมื่อเทียบกับราคาเป้าหมายของเรา เราคงแนะนำถือเนื่องจากหุ้นขาดปัจจัยบวกในระยะสั้น

Public disclosures related to sustainable development evaluation of Thai listed companies

Rating regarding the sustainable development of Thai listed companies, both on the SET and MAI, are publicly available on the website of the Securities and Exchange Commission of Thailand (SEC). Currently, ratings available are 1) "**CG Score**" by the Thai Institute of Directors Association (Thai IOD); 2) "**AGM Checklist**" by the Thai Investors Association (TIA), a "**CAC certified member**" of the Thai Private Sector Collective Action Against Corruption (CAC); and 3) "**Sustainability Investment List (THSI)**" by the Stock Exchange of Thailand. The ratings are updated on an annual basis. FSS International Investment Advisory Company Limited does not confirm nor certify the accuracy of such ratings.

CG Score by the Thai Institute of Directors Association (Thai IOD)¹

The **CG Score** indicates corporate governance (CG) strength in the sustainable development of Thai listed companies. Annually, the Thai IOD, with support from the Stock Exchange of Thailand (SET), surveys and assesses the CG practices of companies and publishes the results on the [Thai IOD website](#) in a bid to promote and enhance the CG of Thai listed companies in order to promote compliance with international standards for better investment decisions. The results are from the perspective of a third party, not an evaluation of operations, as of the date appearing in the report, and may be changed after that date.

The **five underlying categories and weighting** used for the CG scoring in 2022 include the rights of shareholders and equitable treatment of shareholders (weight 25% combined), the role of stakeholders (25%), disclosure and transparency (15%), and board responsibilities (35%).

The CGR report rates CG in six categories: 5 for Excellent (score range 90-100), 4 for Very Good (score range 80-89), 3 for Good (Score range 70-79), 2 for Fair (score range 60-69), 1 for Pass (score range 60-69), and not rated (score below 50).

Corporate Governance Report Disclaimer

The disclosure of the survey result of the Thai Institute of Directors Association ("IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of companies listed on the Stock Exchange of Thailand and the Market of Alternative Investment disclosed to the public and able to be accessed by a general public investor at [Thai IOD website](#). The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information.

The survey result is as of the data appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey result may be changed after that date. **FSSIA** does not confirm nor certify the accuracy of such survey result.

AGM Checklist by the Thai Investors Association (TIA)²

The "**AGM Checklist**" quantifies the extent to which shareholders' rights and equitable treatment are incorporated into business operations and the extent to which information is sufficiently disclosed and the level of its transparency. All the considered factors form important elements of two out of five the CG components. Annually, the TIA, with support from the SEC, leads the project to evaluate the quality of Annual General Meetings of Shareholders (AGMs) and to rate quality of the meetings.

The **Checklist** contains the minimum requirements under law that companies must comply with, or best practices according to international CG guidance. Representatives of the TIA will attend the meetings and perform the evaluation. The assessment criteria cover AGM procedures before the meeting (45%), at the meeting date (45%), and after the meeting (10%). The first assesses 1) advance circulation of sufficient information for voting; and 2) facilitating of how voting rights can be exercised. The second assesses 1) the ease of attending meetings; 2) transparency and verifiability; and 3) openness for Q&A. The third involves the meeting minutes that should contain discussion issues, resolutions and voting results.

The results are classified into four categories: 5 for Excellent (score 100), 4 for Very Good (score 90-99), 3 for Fair (score 80-89), and not rated (score below 79).

CAC certified member by the Thai Private Sector Collective Action Against Corruption (CAC)³

A **CAC certified member** is a listed company whose Checklist satisfies the CAC Certification's criteria and is approved by the CAC Council. The core elements of the Checklist include corruption risk assessment, establishment of key controls, and the monitoring and developing of policies. Note that the CAC does not certify the behaviour of the employees nor whether the companies have engaged in bribery, and Certification is good for three years.

Companies deciding to become a CAC certified member **start with** by submitting a Declaration of Intent signed by the Chairman of the Board to kick off the 18-month deadline for companies to submit the CAC Checklist for Certification. The 18-month provision is for risk assessment, in place of policy and control, training of managers and employees, establishment of whistleblowing channels, and communication of policies to all stakeholders.

The checklist document will be reviewed by the CAC Certification Committee for adequate information and evidence. It is worth noting that the committee consists of nine professionals in business law, corporate governance, internal audit, financial audit and experienced representatives from certified members.

A passed Checklist will move on to the **CAC Council** for granting certification approvals. The CAC Council consists of twelve prominent individuals who are highly respected in professionalism and ethical achievements. Among them are former ministers, a former central bank governor, the former head of the Thai Listed Companies Association, Chairman of Anti-Corruption Organizations (Thailand), Chairman of Thai Institute of Directors, and reputable academic scholars.

Sustainability Investment (THSI)⁴ by the Stock Exchange of Thailand (SET)

Thailand Sustainability Investment (**THSI**) quantifies responsibility in **E**nvironmental, and **S**ocial issues, by managing business with transparency in **G**overnance. The THSI serves as another choice for investors who desire to adopt a responsible investment approach, according to the SET.

Annually, the SET will announce the voluntary participation of the company candidates which pass the preemptive criteria, and whose two key crucial conditions are met, i.e. no irregular trading of the board members and executives and a free float of >150 by the number of shareholders, and combined holding must >15% of paid-up capital. Some key disqualifying criteria include a CG score of below 70%; independent directors and free float violation; executives' wrongdoing related to CG, social and environmental impacts, equity in negative territory, and earnings in the red for more than three years in the last five years. To become eligible for THSI, the candidate must pass three indicators in data declaration: **E**conomic (CG, risk management, customer relation management, supply chain management, and innovation); **E**nvironmental (environmental management, eco-efficiency, and climate risk); **S**ocial (human rights, talent attraction, operational health & safety, community development, and stakeholder engagement); and the incorporation of ESG in business operations.

To be approved for THSI inclusion, verified data must be scored at a 50% minimum for each indicator, unless the company is a part of the Dow Jones Sustainability Indices⁵ (DJSI) during the assessment year. The scoring will be fairly weighted against the nature of the relevant industry and materiality.

Note that, from the **THSI list**, the SET further developed a sustainability **SETTHSI Index** in June 2018 from selected THSI companies whose 1) market capitalisation > THB5b (~USD150b); 2) free float >20%; and 3) liquidity >0.5% of paid-up capital for at least 9 out of 12 months. The SETTHSI Index is a market capitalisation-weighted index, cap 5% quarterly weight at maximum, and no cap for number of stocks.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.
