UNCHANGED

TARGET PRICE	THB82.00
CLOSE	THB61.50
UP/DOWNSIDE	+33.3%
PRIOR TP	THB82.00
CHANGE IN TP	UNCHANGED
TP vs CONSENSUS	+1.6%

Expect a record profit in 3Q23

- Expect continued core profit growth in 3Q23 (+11% q-q, +40% y-y), mainly driven by the residential business.
- Revise up our 2023-25 profit forecast by 16%/12%/13%.
- Maintain BUY at our TP of THB82.

Two Go! Hotels opened in 3Q23

In 3Q23, the number of assets under CPN's management was unchanged from 2Q23 except for its hotel unit, which opened two Go! Hotel in Rayong and Chonburi, bringing the total number of hotels to eight and the total number of rooms to 1,338. At the end of 3Q23, CPN had 38 shopping malls with a total NLA of 2.3 mm. sqm., 17 community malls, and one shopping mall under its JV. The company also has ten office buildings, eight hotels, and 27 residential projects for sale.

Residential unit still the key for 3Q23 growth

We expect CPN to register a core profit of THB4.0b in 3Q23 (+11% q-q, +40% y-y), mainly attributable to increases in revenue from its residential unit (-88% q-q, +207% y-y) to THB1.9b, contributing 16% of total revenue due to transfers of three condos in Ayutthaya, Hadyai, and Phuket. Shopping mall traffic should continue to improve in both Bangkok and upcountry. We estimate rental revenue from malls to increase 1% q-q and 12% y-y, while the tariff cut of 1.5% on its electricity bills during May - Aug 2023 should benefit the company. Revenue from the hotel business should increase 5% q-q and 53% y-y due to the opening of Go! Hotel in Bowin (4Q22), Ban Chang (2Q23), and Sriracha and Rayong (3Q23).

Revise up 2023-25 profit projection due to residential

Given a promising 9M23 core profit outlook, we have increased our 2023-25 profit forecast by 16%/12%/13% to a growth rate of 39%/6%/5%, respectively, mainly by raising our revenue forecast from the residential unit. It should be CPN's key growth driver in 2023, while shopping malls and hotels should drive its earnings growth in 2024-25.

Maintain BUY call and TP of THB82

We maintain our BUY rating and DCF-based TP of THB82 (7.2% WACC, 3% LTG). CPN's share price is currently trading at 17.5x 2024E P/E, -1.5SD of its five-year historical average.

Investment thesis

We think CPN stands as one of the most attractive domestic plays with its solid five-year investment plan to develop mixed-use projects including shopping malls, office buildings, residential properties, and hotels, in addition to the acquisition of Siam Future Development (SF, not rated).

CPN has low exposure to high energy prices and rising interest rates. The company also has a long-term plan to achieve net-zero carbon emissions by reducing energy consumption by 50% and increasing the use of clean energy by 50%.

Company profile

Central Pattana PCL is the largest retail property developer in Thailand with over 40 years of experience. At end-3Q22, CPN managed 38 shopping centres, 17 community malls and one super-regional mall in Malaysia, along with 10 office buildings, three hotels and 25 residential projects. Its retail net leasable area stands at 2.3m sqm with an average 90% occupancy rate.

www.centralpattana.co.th

Principal activities (revenue, 2022)

- Revenue from rent and services - 87.5 %
- Revenue from food and beverage - 1.8 %
- Revenue from hotel operation - 10.6 %

Source: Central Pattana

Major shareholders

- Chirathivat Family - 37.0 %
- Others - 63.0 %

Source: Central Pattana

Catalysts

Key catalysts include 1) stronger earnings growth from retail rents driven by the NLA expansion with new shopping malls, improving margins on gradually lower rental rate discounts, and higher occupancy rates for offices and hotels; 2) effective cost control to lower the variable cost portion; and 3) the acquisition of SF, which we expect will boost CPN's net profit by 10-20%, annually.

Risks to our call

Key downside risks to our DCF-derived TP are deviations to our estimates on rental and occupancy rates, returns on its new investments, capex, and interest rates.

Event calendar

Date	Event
13 November 2023	3Q23 earnings announcement

Key assumptions

	2023E	2024E	2025E
	(%)	(%)	(%)
NLA	2.13	2.24	2.27
Retail rental rate	1,635	1,684	1,734
Occupancy rate	90	90	91
Revenue from malls (THB m)	36,988	40,236	42,847
Revenue from hotels (THB m)	1,497	1,502	1,623
Residential revenue (THB m)	5,500	3,500	3,000
Blended GPM	51.3	52.4	52.6
SG&A to sales	16.3	16.6	16.5

Source: FSSIA estimates

Earnings sensitivity

- For every 5% increase in rental rate, we project 2023 earnings to rise by 3%, and vice versa, all else being equal.
- For every 1% increase in SG&A to sales, we project 2023 earnings to drop by 2.8%, and vice versa, all else being equal.

Central Pattana PCL (CPN TB)

FSSIA ESG rating

Exhibit 9: FSSIA ESG score implication

81.38 /100

Rating	Score	Implication
★★★★★	>79-100	Leading its industry peers in managing the most significant ESG risks which not only better cost efficiency but also lead to higher profitability.
★★★★	>59-79	A mixed track record of managing the most significant ESG risks and opportunities relative to industry peers.
★★★	>39-59	Relevant ESG materiality matrix has been constructively addressed, well-managed and incorporated into day-to-day operations, in which targets and achievements are evaluated annually.
★★	>19-39	Relevant ESG materiality matrix has been identified with key management in charge for progress to be followed up on and to provide intensive disclosure. Most targets are conventional and achievable.
★	1-19	The company has adopted the United Nations Sustainable Development Goals (UN SDGs), established sustainability management guidelines and fully complies with regulations or ESG suggested guidance from related organizations such as the SET and SEC.

Disclaimer for ESG scoring

ESG score	Methodology	Rating										
The Dow Jones Sustainability Indices (DJSI) By S&P Global	The DJSI World applies a transparent, rules-based component selection process based on the companies' Total Sustainability Scores resulting from the annual S&P Global Corporate Sustainability Assessment (CSA). Only the top-ranked companies within each industry are selected for inclusion.	Be a member and invited to the annual S&P Global Corporate Sustainability Assessment (CSA) for DJSI. Companies with an S&P Global ESG Score of less than 45% of the S&P Global ESG Score of the highest scoring company are disqualified. The constituents of the DJSI indices are selected from the Eligible Universe.										
Sustainability Investment List (THSI) by The Stock Exchange of Thailand (SET)	THSI quantifies responsibility in Environmental and Social issues by managing business with transparency in Governance, updated annually. Candidates must pass the preemptive criteria, with two crucial conditions: 1) no irregular trading of the board members and executives; and 2) free float of >150 shareholders, and combined holding must be >15% of paid-up capital. Some key disqualifying criteria include: 1) CG score of below 70%; 2) independent directors and free float violation; 3) executives' wrongdoing related to CG, social & environmental impacts; 4) equity in negative territory; and 5) earnings in red for > 3 years in the last 5 years.	To be eligible for THSI inclusion , verified data must be scored at a minimum of 50% for each indicator, unless the company is a part of DJSI during the assessment year. The scoring will be fairly weighted against the nature of the relevant industry and materiality. SETTHSI Index is extended from the THSI companies whose 1) market capitalization > THB5b (~USD150b); 2) free float >20%; and 3) liquidity >0.5% of paid-up capital for at least 9 out of 12 months. The SETTHSI Index is a market capitalisation-weighted index, cap 5% quarterly weight at maximum, and no cap for number of stocks.										
CG Score by Thai Institute of Directors Association (Thai IOD)	An indicator of CG strength in sustainable development, measured annually by the Thai IOD, with support from the Stock Exchange of Thailand (SET). The results are from the perspective of a third party, not an evaluation of operations.	Scores are rated in six categories: 5 for Excellent (90-100), 4 for Very Good (80-89), 3 for Good (70-79), 2 for Fair (60-69), 1 for Pass (60-69), and not rated for scores below 50. Weightings include: 1) the rights; 2) and equitable treatment of shareholders (weight 25% combined); 3) the role of stakeholders (25%); 4) disclosure & transparency (15%); and 5) board responsibilities (35%).										
AGM level By Thai Investors Association (TIA) with support from the SEC	It quantifies the extent to which shareholders' rights and equitable treatment are incorporated into business operations and information is transparent and sufficiently disclosed. All form important elements of two out of five the CG components to be evaluated annually. The assessment criteria cover AGM procedures before the meeting (45%), at the meeting date (45%), and after the meeting (10%). <i>(The first assesses 1) advance circulation of sufficient information for voting; and 2) facilitating how voting rights can be exercised. The second assesses 1) the ease of attending meetings; 2) transparency and verifiability; and 3) openness for Q&A. The third involves the meeting minutes that should contain discussion issues, resolutions and voting results.)</i>	The scores are classified into four categories: 5 for Excellent (100), 4 for Very Good (90-99), 3 for Fair (80-89), and not rated for scores below 79.										
Thai CAC By Thai Private Sector Collective Action Against Corruption (CAC)	The core elements of the Checklist include corruption risk assessment, establishment of key controls, and the monitoring and developing of policies. The Certification is good for three years. <i>(Companies deciding to become a CAC certified member start by submitting a Declaration of Intent to kick off an 18-month deadline to submit the CAC Checklist for Certification, including risk assessment, in place of policy and control, training of managers and employees, establishment of whistleblowing channels, and communication of policies to all stakeholders.)</i>	The document will be reviewed by a committee of nine professionals. A passed Checklist will move for granting certification by the CAC Council approvals whose members are twelve highly respected individuals in professionalism and ethical achievements.										
Morningstar Sustainalytics	The Sustainalytics' ESG risk rating provides an overall company score based on an assessment of how much of a company's exposure to ESG risk is unmanaged. <i>Sources to be reviewed include corporate publications and regulatory filings, news and other media, NGO reports/websites, multi-sector information, company feedback, ESG controversies, issuer feedback on draft ESG reports, and quality & peer reviews.</i>	A company's ESG risk rating score is the sum of unmanaged risk. The more risk is unmanaged, the higher ESG risk is scored. <table><tr><th>NEGL</th><th>Low</th><th>Medium</th><th>High</th><th>Severe</th></tr><tr><td>0-10</td><td>10-20</td><td>20-30</td><td>30-40</td><td>40+</td></tr></table>	NEGL	Low	Medium	High	Severe	0-10	10-20	20-30	30-40	40+
NEGL	Low	Medium	High	Severe								
0-10	10-20	20-30	30-40	40+								
ESG Book	The ESG score identifies sustainable companies that are better positioned to outperform over the long term. The methodology considers the principle of financial materiality including information that significantly helps explain future risk-adjusted performance. Materiality is applied by over-weighting features with higher materiality and rebalancing these weights on a rolling quarterly basis.	The total ESG score is calculated as a weighted sum of the features scores using materiality-based weights. The score is scaled between 0 and 100 with higher scores indicating better performance.										
MSCI	MSCI ESG ratings aim to measure a company's management of financially relevant ESG risks and opportunities. It uses a rules-based methodology to identify industry leaders and laggards according to their exposure to ESG risks and how well they manage those risks relative to peers.											
	AAA 8.571-10.000	Leader: leading its industry in managing the most significant ESG risks and opportunities										
	AA 7.143-8.570											
	A 5.714-7.142	Average: a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers										
	BBB 4.286-5.713											
	BB 2.857-4.285	Laggard: lagging its industry based on its high exposure and failure to manage significant ESG risks										
	B 1.429-2.856											
	CCC 0.000-1.428											
Moody's ESG solutions	Moody's assesses the degree to which companies take into account ESG objectives in the definition and implementation of their strategy policies. It believes that a company integrating ESG factors into its business model and relatively outperforming its peers is better positioned to mitigate risks and create sustainable value for shareholders over the medium to long term.											
Refinitiv ESG rating	Designed to transparently and objectively measure a company's relative ESG performance, commitment and effectiveness across 10 main themes, based on publicly available and auditable data. The score ranges from 0 to 100 on relative ESG performance and insufficient degree of transparency in reporting material ESG data publicly. <i>(Score ratings are 0 to 25 = poor; >25 to 50 = satisfactory; >50 to 75 = good; and >75 to 100 = excellent.)</i>											
S&P Global	The S&P Global ESG Score is a relative score measuring a company's performance on and management of ESG risks, opportunities, and impacts compared to its peers within the same industry classification. The score ranges from 0 to 100.											
Bloomberg	ESG Score	Bloomberg score evaluating the company's aggregated Environmental, Social and Governance (ESG) performance. The score is based on Bloomberg's view of ESG financial materiality. The score is a weighted generalized mean (power mean) of Pillar Scores, where the weights are determined by the pillar priority ranking. Values range from 0 to 10; 10 is the best.										
Bloomberg	ESG Disclosure Score	Disclosure of a company's ESG used for Bloomberg ESG score. The score ranges from 0 for none to 100 for disclosure of every data point, measuring the amount of ESG data reported publicly, and not the performance on any data point.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 27-Oct-2023 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
