## 3Q23 results at first glance

|                 |          |
|-----------------|----------|
| TARGET PRICE    | THB13.00 |
| CLOSE           | THB9.20  |
| UP/DOWNSIDE     | +41.3%   |
| TP vs CONSENSUS | -7.8%    |

3Q23 รายงานกำไรปกติ สูงกว่าทั้งเราและตลาดคาด 11% และ 4% ตามลำดับ

## Highlights

- SYNEX รายงานกำไรสุทธิ 143 ลบ. (+63% q-q, -34% y-y) หากไม่รวม Fx gain 25 ลบ. จะมีกำไรปกติเท่ากับ 118 ลบ. เพิ่มขึ้น 144% q-q จากการฟื้นตัวของตลาด Smart phone ทั้ง Android และ iPhone 15 แต่ยังคงลบ 37% y-y จากภาพรวมตลาดกลุ่มสินค้า Consumer ที่ยังแผ่ว
- SYNEX รายงานรายได้จากการขายเท่ากับ 9,370 ลบ. (+10% q-q, -7% y-y) เพิ่มขึ้น 10% q-q จากการเปิดตัว Smart phone ใหม่ทั้ง Android และ iPhone 15 ขณะที่ -7% y-y จากสินค้ากลุ่ม Consumer ที่แผ่ว
- อัตรากำไรขั้นต้นใน 3Q23 ที่ 3.9% (vs 2Q23 ที่ 3.8%, 3Q22 ที่ 4.5%) ลดลง 60 bps y-y จากภาพกำลังซื้อในตลาดสินค้า IT ที่ยังซบเซา ทำให้มีผลต่อการกำหนดราคาสินค้า รวมถึงบาทที่อ่อนค่าทำให้ต้นทุนสินค้าปรับตัวสูงขึ้น ขณะที่ SG&A expense ปรับลดลง 16% q-q และลดลง 13% y-y จากการที่บริษัทพยายามควบคุมค่าใช้จ่าย

## Outlook

- กำไรปกติ 9M23 เท่ากับ 297 ลบ. (-45% y-y) คิดเป็น 68% ของประมาณการกำไรทั้งปีของเรา โดยแนวโน้ม 4Q23 ยอดขายสินค้ากลุ่ม Communication ผ่าน iPhone 15 จะยังคงหนุนให้ Synex เติบโตได้ทั้ง q-q และ y-y และคาดว่าจะไม่มีการขาดแคลนสินค้าเหมือน 4Q22 จากโรงงาน Foxconn หยุดชั่วคราว รวมไปถึงจะหนุนยอดขายไปจนถึงต้นปีหน้าจากมาตรการ โครงการ e-Refund ขณะที่สินค้าในกลุ่ม Consumer เราเชื่อว่าปีนี้เป็นปีที่ bottom และจะเริ่มทยอยฟื้นตัวขึ้นในปี 2024 จากรอบการเปลี่ยนสินค้า IT ตั้งแต่การแพร่ระบาดของ Covid-19 ในช่วงปี 2020 ขณะที่กลุ่มสินค้า Commercial จะสามารถโตได้ดี หลังจากงานทั้งภาคเอกชนและภาครัฐฟื้นตัว
- เรายังคงประมาณการกำไรปกติปี 2023 เท่ากับ 435 ลบ. (-41% y-y) และ ปี 2024 เท่ากับ 610 ลบ. (+40% y-y) คงคำแนะนำ ซื้อ ราคาเป้าหมายปี 2024 ที่ 13 บาท

**35.18 /100**
**Exhibit 6: FSSIA ESG score implication**

| Rating | Score   | Implication                                                                                                                                                                                                                                            |
|--------|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ★★★★★  | >79-100 | Leading its industry peers in managing the most significant ESG risks which not only better cost efficiency but also lead to higher profitability.                                                                                                     |
| ★★★★☆  | >59-79  | A mixed track record of managing the most significant ESG risks and opportunities relative to industry peers.                                                                                                                                          |
| ★★★☆☆  | >39-59  | Relevant ESG materiality matrix has been constructively addressed, well-managed and incorporated into day-to-day operations, in which targets and achievements are evaluated annually.                                                                 |
| ★★☆☆☆  | >19-39  | <b>Relevant ESG materiality matrix has been identified with key management in charge for progress to be followed up on and to provide intensive disclosure. Most targets are conventional and achievable.</b>                                          |
| ★☆☆☆☆  | 1-19    | The company has adopted the United Nations Sustainable Development Goals (UN SDGs), established sustainability management guidelines and fully complies with regulations or ESG suggested guidance from related organizations such as the SET and SEC. |

| The Dow Jones Sustainability Indices (DJSI) By S&P Global                         | The DJSI World applies a transparent, rules-based component selection process based on the companies' Total Sustainability Scores resulting from the annual S&P Global Corporate Sustainability Assessment (CSA). Only the top-ranked companies within each industry are selected for inclusion.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Be a member and invited to the annual S&P Global Corporate Sustainability Assessment (CSA) for DJSI. Companies with an S&P Global ESG Score of less than 45% of the S&P Global ESG Score of the highest scoring company are disqualified. The constituents of the DJSI indices are selected from the Eligible Universe.                                                                                                                                                                                                                                                                                                           |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |
| Sustainability Investment List (THSI) by The Stock Exchange of Thailand (SET)     | THSI quantifies responsibility in Environmental and Social issues by managing business with transparency in Governance, updated annually. Candidates must pass the preemptive criteria, with two crucial conditions: 1) no irregular trading of the board members and executives; and 2) free float of >150 shareholders, and combined holding must be >15% of paid-up capital. Some key disqualifying criteria include: 1) CG score of below 70%; 2) independent directors and free float violation; 3) executives' wrongdoing related to CG, social & environmental impacts; 4) equity in negative territory; and 5) earnings in red for > 3 years in the last 5 years.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | To be eligible for <b>THSI inclusion</b> , verified data must be scored at a minimum of 50% for each indicator, unless the company is a part of DJSI during the assessment year. The scoring will be fairly weighted against the nature of the relevant industry and materiality.<br><b>SETTHSI Index</b> is extended from the THSI companies whose 1) market capitalization > THB5b (~USD150b); 2) free float >20%; and 3) liquidity >0.5% of paid-up capital for at least 9 out of 12 months. The SETTHSI Index is a market capitalisation-weighted index, cap 5% quarterly weight at maximum, and no cap for number of stocks. |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |
| <b>CG Score</b> by Thai Institute of Directors Association (Thai IOD)             | An indicator of CG strength in sustainable development, measured annually by the Thai IOD, with support from the Stock Exchange of Thailand (SET). The results are from the perspective of a third party, not an evaluation of operations.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Scores are rated in six categories: 5 for Excellent (90-100), 4 for Very Good (80-89), 3 for Good (70-79), 2 for Fair (60-69), 1 for Pass (60-69), and not rated for scores below 50. Weightings include: 1) the rights; 2) and equitable treatment of shareholders (weight 25% combined); 3) the role of stakeholders (25%); 4) disclosure & transparency (15%); and 5) board responsibilities (35%).                                                                                                                                                                                                                            |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |
| <b>AGM level</b> By Thai Investors Association (TIA) with support from the SEC    | It quantifies the extent to which shareholders' rights and equitable treatment are incorporated into business operations and information is transparent and sufficiently disclosed. All form important elements of two out of five the CG components to be evaluated annually. The assessment criteria cover AGM procedures before the meeting (45%), at the meeting date (45%), and after the meeting (10%). <i>(The first assesses 1) advance circulation of sufficient information for voting; and 2) facilitating how voting rights can be exercised. The second assesses 1) the ease of attending meetings; 2) transparency and verifiability; and 3) openness for Q&amp;A. The third involves the meeting minutes that should contain discussion issues, resolutions and voting results.)</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                             | The scores are classified into four categories: 5 for Excellent (100), 4 for Very Good (90-99), 3 for Fair (80-89), and not rated for scores below 79.                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |
| <b>Thai CAC</b> By Thai Private Sector Collective Action Against Corruption (CAC) | The core elements of the Checklist include corruption risk assessment, establishment of key controls, and the monitoring and developing of policies. The Certification is good for three years.<br><i>(Companies deciding to become a CAC certified member start by submitting a Declaration of Intent to kick off an 18-month deadline to submit the CAC Checklist for Certification, including risk assessment, in place of policy and control, training of managers and employees, establishment of whistleblowing channels, and communication of policies to all stakeholders.)</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | The document will be reviewed by a committee of nine professionals. A passed Checklist will move for granting certification by the CAC Council approvals whose members are twelve highly respected individuals in professionalism and ethical achievements.                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |
| <b>Morningstar Sustainalytics</b>                                                 | The Sustainalytics' ESG risk rating provides an overall company score based on an assessment of how much of a company's exposure to ESG risk is unmanaged. <i>Sources to be reviewed include corporate publications and regulatory filings, news and other media, NGO reports/websites, multi-sector information, company feedback, ESG controversies, issuer feedback on draft ESG reports, and quality &amp; peer reviews.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | A company's ESG risk rating score is the sum of unmanaged risk. The more risk is unmanaged, the higher ESG risk is scored.<br><table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>NEGL</th> <th>Low</th> <th>Medium</th> <th>High</th> <th>Severe</th> </tr> </thead> <tbody> <tr> <td>0-10</td> <td>10-20</td> <td>20-30</td> <td>30-40</td> <td>40+</td> </tr> </tbody> </table>                                                                                                                                                                                                                 | NEGL                                                                                                                          | Low            | Medium                                                                            | High      | Severe      | 0-10 | 10-20 | 20-30    | 30-40       | 40+ |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |

| <b>ESG Book</b>                                                                   | The ESG score identifies sustainable companies that are better positioned to outperform over the long term. The methodology considers the principle of financial materiality including information that significantly helps explain future risk-adjusted performance. Materiality is applied by over-weighting features with higher materiality and rebalancing these weights on a rolling quarterly basis.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | The total ESG score is calculated as a weighted sum of the features scores using materiality-based weights. The score is scaled between 0 and 100 with higher scores indicating better performance.                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |
| <b>MSCI</b>                                                                       | MSCI ESG ratings aim to measure a company's management of financially relevant ESG risks and opportunities. It uses a rules-based methodology to identify industry leaders and laggards according to their exposure to ESG risks and how well they manage those risks relative to peers.<br><table border="1" style="margin-left: auto; margin-right: auto;"> <tbody> <tr> <td><b>AAA</b></td> <td>8.571-10.000</td> <td><b>Leader:</b></td> <td>leading its industry in managing the most significant ESG risks and opportunities</td> </tr> <tr> <td><b>AA</b></td> <td>7.143-8.570</td> <td></td> <td></td> </tr> <tr> <td><b>A</b></td> <td>5.714-7.142</td> <td></td> <td></td> </tr> <tr> <td><b>BBB</b></td> <td>4.286-5.713</td> <td><b>Average:</b></td> <td>a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers</td> </tr> <tr> <td><b>BB</b></td> <td>2.857-4.285</td> <td></td> <td></td> </tr> <tr> <td><b>B</b></td> <td>1.429-2.856</td> <td></td> <td></td> </tr> <tr> <td><b>CCC</b></td> <td>0.000-1.428</td> <td><b>Laggard:</b></td> <td>lagging its industry based on its high exposure and failure to manage significant ESG risks</td> </tr> </tbody> </table> | <b>AAA</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 8.571-10.000                                                                                                                  | <b>Leader:</b> | leading its industry in managing the most significant ESG risks and opportunities | <b>AA</b> | 7.143-8.570 |      |       | <b>A</b> | 5.714-7.142 |     |  | <b>BBB</b> | 4.286-5.713 | <b>Average:</b> | a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers | <b>BB</b> | 2.857-4.285 |  |  | <b>B</b> | 1.429-2.856 |  |  | <b>CCC</b> | 0.000-1.428 | <b>Laggard:</b> | lagging its industry based on its high exposure and failure to manage significant ESG risks |

| <b>Moody's ESG solutions</b>                                                      | Moody's assesses the degree to which companies take into account ESG objectives in the definition and implementation of their strategy policies. It believes that a company integrating ESG factors into its business model and relatively outperforming its peers is better positioned to mitigate risks and create sustainable value for shareholders over the medium to long term.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |
| <b>Refinitiv ESG rating</b>                                                       | Designed to transparently and objectively measure a company's relative ESG performance, commitment and effectiveness across 10 main themes, based on publicly available and auditable data. The score ranges from 0 to 100 on relative ESG performance and insufficient degree of transparency in reporting material ESG data publicly. <i>(Score ratings are 0 to 25 = poor; &gt;25 to 50 = satisfactory; &gt;50 to 75 = good; and &gt;75 to 100 = excellent.)</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |
| <b>S&amp;P Global</b>                                                             | The S&P Global ESG Score is a relative score measuring a company's performance on and management of ESG risks, opportunities, and impacts compared to its peers within the same industry classification. The score ranges from 0 to 100.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |

The score is based on Bloomberg's view of ESG financial materiality. The score is a weighted generalized mean (power mean) of Pillar Scores, where the weights are determined by the pillar priority ranking. Values range from 0 to 10; 10 is the best.                                                                                                                                                                                                                                                              |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |
| Bloomberg                                                                         | ESG Disclosure Score                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Disclosure of a company's ESG used for Bloomberg ESG score. The score ranges from 0 for none to 100 for disclosure of every data point, measuring the amount of ESG data reported publicly, and not the performance on any data point.                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                               |                |                                                                                   |           |             |      |       |          |             |     |  |            |             |                 |                                                                                                                               |           |             |  |  |          |             |  |  |            |             |                 |                                                                                             |

Rating regarding the sustainable development of Thai listed companies, both on the SET and MAI, are publicly available on the website of the Securities and Exchange Commission of Thailand (SEC). Currently, ratings available are 1) "CG Score"; 2) "AGM Level"; 3) "Thai CAC"; and 4) "THSI". The ratings are updated on an annual basis. FSSIA does not confirm nor certify the accuracy of such ratings.

You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 14-Nov-2023 unless otherwise stated.

## RECOMMENDATION STRUCTURE

### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as  $(\text{target price}^* - \text{current price}) / \text{current price}$ .

**BUY (B).** The upside is 10% or more.

**HOLD (H).** The upside or downside is less than 10%.

**REDUCE (R).** The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### Industry Recommendations

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

**Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

**Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### Country (Strategy) Recommendations

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
