EQUITY RESEARCH - COMPANY REPORT

NGERN TID LOR TIDLOR TB

THAILAND / FINANCE & SECURITIES

คาดกำไร 2Q24 ไม่น่าประทับใจ

- เราคาดว่ากำไร 2Q24 จะลดลงเล็กน้อย q-q แต่กำไรก่อนหักสำรองจะปรับขึ้นเล็กน้อย
 q-q แม้ว่าจะเป็น Low season
- แม้ว่าคุณภาพสินทรัพย์จะอยู่ในระดับที่จัดการได้ เราเห็นสัญญาณของการเสื่อมจาก
 NPL ratio และ Credit cost ที่คาดว่าจะปรับขึ้น
- คงคำแนะนำซื้อแต่ปรับลดราคาเป้าหมายปี 2024 เป็น 21 บาท

คาดกำไร 2Q24 จะลดลงจาก ECL ที่ปรับขึ้นเป็นสำคัญ

เราคาดกำไรสุทธิ 2Q24 อยู่ที่ 1.09พัน ลบ. ลดลงเล็กน้อยที่ 1.2% q-q แต่เพิ่มขึ้น 17.7% y-y โดยมีปัจจัยกดดันจากผลขาดทุนทางเครดิตที่คาดว่าจะเกิดขึ้น (ECL) ที่คาดว่าจะสูงขึ้น สอดคล้องกับคุณภาพสินทรัพย์ที่เสื่อมลง เราคาดว่ากำไรก่อนหักสำรอง (PPOP) จะอยู่ที่ 2.23 พัน ลบ. เพิ่มขึ้น 2.3% q-q และ 21.8% y-y จากสินเชื่อที่ขยายตัวต่อเนื่อง (+3.5% q-q, +18.9% y-y) ส่วนมากจากสินเชื่อทะเบียนรถยนต์และรถจักรยานยนต์สอดคล้องกับเป้า ประมาณการของผู้บริหารที่ +10-20% y-y (เราคาด +16.1% y-y) เราคาดว่า Loan spread จะ อยู่ที่ 14.79% ค่อนข้างทรงตัว q-q แต่ลดลง 28bp y-y แม้ว่าต้นทุนในการกู้ยืมจะสูงขึ้น เราเชื่อ ว่าผลกระทบดังกล่าวจะชดเชยได้ด้วย Loan yield ที่ปรับขึ้นจากการขึ้นอัตราดอกเบี้ยเงินกู้ สำหรับลูกค้าบางประเภทเพื่อให้เหมาะสมกับระดับความเสี่ยง เราคาดว่ารายได้ค่าธรรมเนียม จะเพิ่มขึ้นเล็กน้อย q-q แต่เพิ่มสูงถึง 19.7% y-y ส่วนมากจากรายได้นายหน้าประกันภัยซึ่ง เป็นไปตามเป้าของ TIDLOR ที่ +10-20% y-y เราคาดอัตราส่วนค่าใช้จ่ายในการดำเนินงานต่อ รายได้รวมอย่ที่ 54.4% เพิ่มขึ้นเล็กน้อย q-q แต่ลดลงจาก 55.3% ใน 2Q23

สัญญาณการเสื่อมของคุณภาพสินทรัพย์

เราคาดว่าคุณภาพสินทรัพย์จะเสื่อมลงต่อเนื่องใน 2Q24 โดยคาดว่าสัดส่วนหนี้ด้อยคุณภาพ (NPL ratio) และ ECL จะปรับขึ้นเป็น 1.70% และ 3.49% ตามลำดับ แม้ว่าตัวเลขที่เราคาด ดังกล่าวจะสอดคล้องกับเป้าประมาณการในปี 2024 ของบริษัทฯ เรามองว่าปัจจัยทั้งสอง ประการเป็นประเด็นที่ต้องกังวล TIDLOR ได้จัดการกับปัญหาลูกค้าที่ได้รับผลกระทบจาก สภาวะเศรษฐกิจที่ไม่เอื้ออำนวยและเกณฑ์การให้สินเชื่ออย่างรับผิดชอบของ ธปท. โดย ผลกระทบของประเด็นหลังได้ก่อให้เกิดการปรับโครงสร้างหนี้เพิ่มขึ้นใน 2Q24 อันเป็นผลให้เรา คาดว่าสัดส่วนสำรองต่อหนี้ด้อยคุณภาพ (Coverage ratio) จะลดลงเหลือ 250.7% จาก 264.1% ใน 1Q24

คงประมาณการกำไรปี 2024-26

เราคงประมาณการกำไรปี 2024-26 ของเราโดยคาดว่ากำไรสุทธิจะโต 19.9% CAGR ในขณะที่ เราคาดว่าสินเชื่อจะโต 15% CAGR นอกจากนี้ธุรกิจนายหน้าประกันภัยวินาศภัยที่คาดว่าจะโต 18% ต่อปีและต้นทุนความเสี่ยงในการปล่อยสินเชื่อ (Credit cost) ที่คาดว่าจะลดลงอย่าง ต่อเนื่องจะเป็นปัจจัยหนนสำคัญในประมาณการของเรา

คงคำแนะนำซื้อหลังปรับลดราคาเป้าหมายปี 2024 เป็น 21 บาท

เราคงคำแนะนำซื้อ อย่างไรก็ดีเราปรับลดราคาเป้าหมายปี 2024 ของเราเป็น 21 จาก 27 บาท เพื่อสะท้อน Cost of equity ที่คาดไว้ที่ 11.2% (จาก 10.2%) คิดเป็น 1.91x P/BV (จาก 2.39x) ภายใต้สมมติฐาน LT-ROE ที่ 15.5%

Investment thesis

We reiterate our BUY call on TIDLOR at the current price due to:

- Its leadership and professionalism in the vehicle title loan business, distinguishing TIDLOR from its competitors (MTC and SAWAD). Also, technologyintensive investment coupled with branch expansion helps generate positive results in its branch performance over competitors (both loans and net profit per branch).
- Its insurance brokerage business, which offers another source of high-margin income, supports growth and diversifies long-term risks.
- However, we view its asset quality as a cause for concern due mainly to the continued rise in NPLs and credit costs despite aligning with guidance.

Company profile

TIDLOR, founded in October 2006, is a non-bank financial services provider and an operator of technology-enabled, inclusive financial services. The company offers a full suite of vehicle title loans (motorcycles, cars, pickup trucks and tractors), hirepurchase financing for used trucks, and insurance brokerage services under the brand "Ngern Tid Lor".

www.ngerntidlor.com

Principal activities (revenue, 1Q24)

■ Net interest income - 80.7 %

Non-interest income - 19.3 %

Source: Ngern Tid Lor

Major shareholders

■ Bank of Ayudhya - 30.0 %

Siam Asia Credit Access PTE Ltd - 20.1 %

Others - 49.9 %

Source: Ngern Tid Lor

Catalysts

- 1) A faster-than-expected economic recovery in Thailand;
- 2) Government stimulus;
- Higher-than-expected growth of non-life insurance premiums.

Risks to our call

Downside risks to our GGM-based TP include 1) the expansion into auto-title loans by the Government Savings Bank and Auto X (subsidiary of SCB X); 2) further weakening asset quality could potentially hit both loan yield and credit cost; and 3) tighter supervision from related regulators.

Declining 2Q24E profit; rising ECLs are a key drag

We expect a 2Q24 net profit of THB1.09b, a slight drop of 1.2% q-q but an increase of 17.7% y-y, pressured by an anticipated rise in ECLs, aligning with its deteriorated asset quality. The expected PPOP amounts to THB2.23b, increasing by 2.3% q-q and 21.8% y-y, due to a continued loan expansion of 3.5% q-q and 18.9% y-y, mainly from car and motorcycle title loans, matching management's guidance of +10-20% y-y (we estimate +16.1% y-y). The expected loan spread of 14.79% is relatively flat q-q but dips 28bp y-y. Despite an escalated cost of funds, we believe that the impact could be offset by the accelerated loan yield, partly from an increase in loan interest rates for certain groups of customers to suit their risk profiles. We expect fee income to increase slightly q-q but grow aggressively by 19.7% y-y, mainly from insurance brokerage income, which is on track with TIDLOR's target of +10-20% y-y. The expected cost-to-income ratio for 2Q24 is 54.4%, slightly increasing q-q but declining from 55.3% in 2Q23.

Signs of deteriorating asset quality

TIDLOR's 2Q24E asset quality continues to deteriorate, with a rise in the NPL ratio and ECLs. We expect the NPL ratio to accelerate to 1.70% and the credit cost to 3.49%. Despite the expected figures aligning with its 2024 guidance, we view them as a cause for concern. TIDLOR has addressed the issue of its customers suffering from the unfavorable economic situation and the BoT's responsible lending implementation. The latter's impact has incurred more restructuring cases in 2Q24. Consequently, the expected coverage ratio narrows to 250.7% from 264.1% in 1Q24.

Maintain 2024-26E earnings

We maintain our 2024-26E earnings, with expected net profit growth at a 19.9% CAGR over 15%-CAGR loan growth. The expansion of 50 branches in 2023 and a target of 50-100 new ones in 2024 (32 branches opened in 1H24) support its loan growth target. In addition, anticipated growth of c18% p.a. in the non-life insurance brokerage business and a continued reduction in credit costs are the crucial drivers in our forecast.

Exhibit 8: FSSIA ESG score implication

36.71 /100

Rating	Score	Implication
****	>79-100	Leading its industry peers in managing the most significant ESG risks which not only better cost efficiency but also lead to higher profitability.
****	>59-79	A mixed track record of managing the most significant ESG risks and opportunities relative to industry peers.
***	>39-59	Relevant ESG materiality matrix has been constructively addressed, well-managed and incorporated into day-to-day operations, in which targets and achievements are evaluated annually.
**	>19-39	Relevant ESG materiality matrix has been identified with key management in charge for progress to be followed up on and to provide intensive disclosure. Most targets are conventional and achievable.
*	1-19	The company has adopted the United Nations Sustainable Development Goals (UN SDGs), established sustainability management guidelines and fully complies with regulations or ESG suggested guidance from related organizations such as the SET and SEC.

Company	Ticker	Price	Rating	Valuation & Risks
Aeon Thana Sinsap (Thailand	d) AEONTS TB	THB 116.50	HOLD	Downside risks are: 1) regulatory actions to curb industry growth; 2) a higher-than- expected policy rate; and 3) deteriorating asset quality. Upside risks are: 1) better-than- estimated economic improvement; 2) stronger-than-estimated improvement in the overall asset quality; and 3) less pressure from the market yield and cost of funds.
Ngern Tid Lor	TIDLOR TB	THB 18.40	BUY	Downside risks to our GGM-based TP include 1) the expansion into auto-title loans by the Government Savings Bank and Auto X (subsidiary of SCB X); 2) further weakening asset quality could potentially hit both loan yield and credit cost; and 3) tighter supervision from related regulators.
Muangthai Capital	MTC TB	THB 43.75	BUY	Downside risks to our GGM-based TP include 1) a further weakening of asset quality that could potentially hit both loan yield and credit cost; and 2) changes in financial regulations by the Bank of Thailand and the Office of Consumer Protection Board.
Srisawad Corp	SAWAD TB	THB 36.50	HOLD	Downside risks to our GGM-based TP include 1) a further weakening of asset quality that could potentially hit both loan yield and credit cost; and 2) changes in financial regulations by the Bank of Thailand and the Office of Consumer Protection Board. Upside risks include 1) a faster-than-expected decline in losses on sales of repossessed cars for SCAP; and 2) an interest rate downtrend could push its interest spread.
Krungthai Card	КТС ТВ	THB 38.25	HOLD	Downside risks are: 1) regulatory actions to curb industry growth; 2) a higher-than- expected policy rate; and 3) deteriorating asset quality. Upside risks are: 1) better-than- estimated economic improvement; 2) stronger-than-estimated improvement in the overall asset quality; and 3) less pressure from the market yield and cost of funds.
Saksiam Leasing	SAK TB	THB 5.15	HOLD	Upside risks to our GGM-derived TP include 1) loan expansion following the broad-based economic recovery 2) a reduction in cost of funds due mainly to the downward interest rate trend and 3) an accelerated decrease in credit costs owing to the rise in consumers purchasing power. Downside risks include 1) competition from existing and new players 2) regulatory changes by the Bank of Thailand (BoT) and 3) a slower-than-expected reduction in its cost of funds due to a shift toward more long-term loans.
Asia Sermkij Leasing PCL	ASK TB	THB 13.70	HOLD	Downside risks to our GGM-derived TP include 1) an economic slowdown, especially for logistics activities and private investment; 2) deteriorating asset quality; and 3) changes in financial regulations from the Bank of Thailand. Upside risks include 1) a better-than-expected macroeconomic improvement; 2) downtrend of policy rate could reduce cost of funds and enhance interest spreads; and 3) a faster-than-expected decline in ECL expense.
Ratchthani Leasing	THANI TB	THB 2.20	HOLD	Downside risks to our GGM-derived TP include 1) an economic slowdown, especially for logistics activities and private investment; 2) deteriorating asset quality; and 3) changes in financial regulations from the Bank of Thailand. Upside risks include 1) a better-than-expected macroeconomic improvement; 2) a downtrend in the policy rate could reduce cost of funds and enhance interest spreads; and 3) a faster-than-expected decline in ECL expense.
JMT Network Services	JMT TB	THB 13.70	HOLD	Downside risks to our P/BV-based TP include 1) lower cash collection from both debt management and debt tracking collection services; and 2) higher-than-expected funding costs and operating expenses. Upside risks includes 1) better-than-expected purchasing power and cash collection 2) lower-than-expected operating and financing expense
Bangkok Commercial Asset Mngt.	BAM TB	THB 7.45	HOLD	Downside risks to our NAV-based TP include 1) lower cash collection than estimated; 2) lower-than-expected bad debt acquisition; and 3) a slowdown in the property market. Upsides include 1) better-than-expected economic conditions and debt repayment momentum; and 2) an acceleration in the demand for NPAs.
Chayo Group	СНАУО ТВ	THB 3.50	HOLD	Downside risks to our GGM-based TP include 1) lower-than-expected bad debt acquisition; and 2) higher-than-expected operating expenses. Upside risks include 1) better-than-expected cash collection performance and lower pressure from ECL, 2) stronger-than-expected loan growth, and 3) better cost control than expected.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 09-Jul-2024 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
