**EQUITY RESEARCH - COMPANY REPORT** 

THAILAND / FOOD & BEVERAGE

- We expect a 2Q24 net profit of THB911m, a 13-quarter high.
- Key drivers are strong demand in Myanmar, personal care and a solid gross margin.
- Revising up 2024E net profit to grow 23% and our TP to THB28.

# 2Q24 net profit may reach a 13-quarter high

We expect a 2Q24 net profit of THB911m (+10% q-q, +66% y-y), exceeding previous expectations. Despite a high base in 1Q24, we expect total revenue to grow 2.2% q-q and 10.6% y-y. The main drivers are 1) domestic revenue, with OSP's 2Q24E energy drink market share increasing to 46.5% from 46.4% in 1Q24; and 2) we expect the personal care segment to achieve double-digit growth both q-q and y-y. In addition, we assume that revenue from Myanmar will increase q-q and y-y, setting a new high, which is a positive surprise as Myanmar typically peaks in 1Q. This indicates that demand in Myanmar remains strong.

# We are impressed by the solid gross margin

Although OSP's gross margin in 1Q24 was high at 36.5%, with the positive impact of ongoing cost savings after closing its low-efficiency factories towards the end of 2023, we expect a higher 2Q24 gross margin of 36.8%. This would result in a gross margin of 36.6% for 1H24, exceeding our previous estimates. OSP has started advertising, promoting, and introducing new presenters, but has still managed to do so efficiently and with revenue growth. Hence, we expect the 2Q24 SG&A to sales ratio to drop to 23.7% from 24.7% in 1Q24.

#### Revising up net profit to grow 23% y-y in 2024

Due to the higher expected gross margin and revenue growth, we are revising our net profit forecasts for 2024-26 up by 13-17%, representing a growth rate of 23.3%/8.2%/8.4%, respectively. We expect our net profit in 2H24 to decline h-h, in line with seasonality. However, we expect good growth in terms of y-y, particularly in Myanmar, where demand remains strong, and also due to the positive impact of cost savings. Therefore, we expect to see a continuous improvement in the gross margin and consider 36-37% as a new base for the company.

#### Retain BUY rating with higher TP of THB28

We raise our TP to THB28 from THB24.5 (based on a 28x P/E ratio; unchanged). There is still an upside of 16%. We have started to see a stronger market share in the domestic energy drink market. Although it is lower than the historical high of 54%, the positive impact of the price increase, which has been well-received by customers, has led to revenue growth. Going forward, we expect to see new products from OSP to bring more excitement to the market.

#### Investment thesis

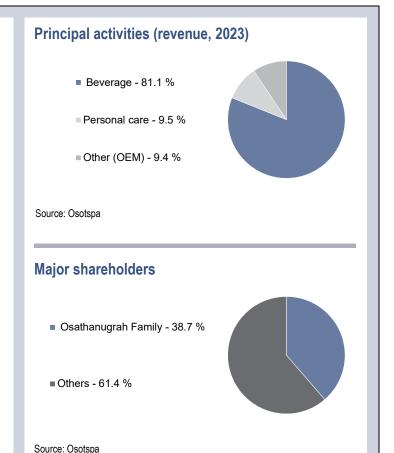

OSP has a very long history of over 132 years. We are impressed with OSP's growth over the last century via innovative products that have evolved according to changing consumer needs, organizational advancements, and marketing breakthroughs. We think OSP conducts its business with good governance and responsibility to all stakeholders.

The company has continued to focus on cost efficiency via its Fast Forward 10x program, whose five pillars for transformation are cost, process, function, hybrid workforce, and assets. It targets THB5b in cost savings in 5-7 years (2022-28).

# Company profile

Osotspa was established in 1891 as a pharmaceutical company. It is now one of the largest consumer product companies in Thailand. Revenue is derived from beverages (81% of sales), personal care (9% of sales) and others (10%). About 17% of its sales come from overseas markets, such as Myanmar, Laos and Cambodia, nearly all of which are from the energy drinks segment. It was listed in October 2018.

www.osotspa.com

# Catalysts

Potential catalysts for OSP's earnings growth in 2024 are 1) revenue growth driven by sales volumes; 2) gaining more domestic energy drink market share; 3) declining energy costs; 4) successfully improving its production efficiency; and 5) the success of new product launches.

#### Risks to our call

Downside risks to our P/E-based TP include 1) a slower-than-expected consumption recovery; 2) higher-than-expected competition; 3) high volatility in energy costs; and 4) changing legal policies both in Thailand and Myanmar.

# **Event calendar**

Date	Event
August 2024	2Q24 results announcement
August 2024	2Q24 analyst meeting

#### **Key assumptions**

	2024E	2025E	2026E
Beverage revenue growth (%)	12.8	5.8	5.3
Personal care revenue growth (%)	2.5	5.0	5.0
Total revenue growth (%)	10.4	5.6	5.3
Gross margin (%)	36.0	36.3	36.5
SG&A to sales (%)	24.6	24.6	24.5

#### Earnings sensitivity

- For every 1% increase in revenue, we estimate 2024 net profit to rise by 1.2%, and vice versa, all else being equal.
- For every 0.2% increase in GPM, we estimate 2024 net profit to rise by 2.0%, and vice versa, all else being equal.
- For every 0.2% increase in SG&A, we estimate 2024 net profit to fall by 1.9%, and vice versa, all else being equal.

# Osotspa PCL (OSP TB)

# Exhibit 20: FSSIA ESG score implication

61.48 /100

Rating	Score	Implication
****	>79-100	Leading its industry peers in managing the most significant ESG risks which not only better cost efficiency but also lead to higher profitability.
****	>59-79	A mixed track record of managing the most significant ESG risks and opportunities relative to industry peers.
***	>39-59	Relevant ESG materiality matrix has been constructively addressed, well-managed and incorporated into day-to-day operations, in which targets and achievements are evaluated annually.
**	>19-39	Relevant ESG materiality matrix has been identified with key management in charge for progress to be followed up on and to provide intensive disclosure. Most targets are conventional and achievable.
*	1-19	The company has adopted the United Nations Sustainable Development Goals (UN SDGs), established sustainability management guidelines and fully complies with regulations or ESG suggested guidance from related organizations such as the SET and SEC.

#### Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 16-Jul-2024 unless otherwise stated.

#### RECOMMENDATION STRUCTURE

#### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price\* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

#### **Industry Recommendations**

**Overweight.** The analyst expects the fundamental conditions of the sector to be positive over the next 12 months. **Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months. **Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

#### **Country (Strategy) Recommendations**

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
