# 3Q24 core profit set to increase y-y

- We anticipate a 3Q24 core profit of THB2.2b (+1% q-q, +29% y-y), driven by sales & GPM growth y-y across both business segments.
- We have increased our 2025-26 forecasts by 3.8% and 5.0%, respectively, incorporating the synergy benefits of cTHB4b.
- Maintain BUY call, roll over our DCF-TP to 2025 at THB42/share.

## 3Q24 core profit set to increase y-y

We anticipate a 3Q24 net profit of THB1.9b (-12% q-q, +14% y-y). Excluding one-time expenses of THB290m from the amalgamation (expected to be THB96m net tax) and a derivative loss of THB194m, we project a core profit of THB2.2b (+1% q-q, +29% y-y), driven by sales growth across both business segments. Wholesale (Makro) should have SSSG of 3% in the quarter, with all formats and fresh food leading the growth. Additionally, Makro opened three new stores in 3Q24. We project the retail segment (Lotus) to have SSSG of 3% in both Thailand and Malaysia, despite a net store closure of 22 locations (opened 21 Go Fresh and closed 42 and 1 supermarket). Sales continue to grow due to the larger sales space at Go Fresh stores.

# Fresh food to drive GPM, and SG&A still increasing from Makro

The consolidated GPM from sales should increase by 40bps y-y to 14.1% in 3Q24 due to a greater focus on fresh food and improved sales in the high-margin dry food segment for both wholesale and retail. However, we expect SG&A expenses to rise by 3% y-y, mainly due to Makro's omnichannel and new distribution center costs.

# Revise up our 2025-26E by 3.8% and 5% to factor in synergy benefits

We have slightly adjusted our 2024 forecast down by 2%, reflecting the lower-than-expected service and rental income, with a core profit of THB10.4b (+19% y-y). For 2025-26, we have increased our forecast by 3.8% and 5.0%, respectively, incorporating the synergy benefits from the amalgamation, which are expected to contribute THB4b (discount from management's guidance of THB5b) over three years (split evenly between SG&A cost reductions and CAPEX savings).

# Maintain our BUY call, roll over DCF-TP to 2025 at THB42

After factoring in the synergies, we roll over our DCF-based target price to 2025 with a new target price of THB42/share, and maintain our BUY call. We expect the synergy benefits from the amalgamation to amount to THB4b, primarily from operational cost savings (THB2b) and CAPEX reductions (THB2b).

TARGET PRICE THB42.00 **CLOSE** THB31.50 **UP/DOWNSIDE** +33.3% **PRIOR TP** THB36.00 **CHANGE IN TP** +16.7% TP vs CONSENSUS +14.4%

### Investment thesis

CPAXT is a leading wholesaler (under Makro). After its retail and rental units merged under Lotus's, CPAXT achieved synergies from Makro's expertise in the wholesale business, especially in the food segment, and Lotus's strengths in the retail and rental market. In 2024-26, we expect revenue growth of 4.1% CAGR to THB550b and core profit growth of 19.0% CAGR to THB14.8b, supported by 1) a recovery in tourism and domestic consumption, which should boost domestic purchasing power; 2) a synergy value of THB4b over three years (2025-27); 3) the O2O strategy; and 4) focusing on fresh food to drive GPM.

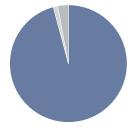

# Company profile

CPAXT operates a wholesale unit under Makro to distribute consumer products to SMEs, retailers, restaurant operators, freelancers, and various institutions. Also, it is in the food service business to import and distribute frozen and chilled food to restaurants and small retailers. Finally, it has retail and rental subsidiaries under Lotus's.

www.cpaxtra.com

# Principal activities (revenue, 2023)

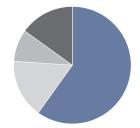

- Sales 95.8 %
- Service income 1.2 %
- Rental and rendering retail services - 2.9 %

Source: CP Axtra

# Major shareholders

- CP ALL 59.9 %
- Charoen Pokphand Holdings -16.2 %
- CP Merchandising 8.9 %
- Others 15.1 %

Source: CP Axtra

# **Catalysts**

Potential catalysts for CPAXT include: 1) a faster-thanexpected domestic consumption and tourism recovery; 2) a better-than-expected recovery of its retail operation; and 3) a higher-than-expected synergy value from the amalgamation.

### Risks to our call

Key downside risks to our DCF-based TP include 1) a lower-than-expected SSSG; 2) a lower-than-expected GPM; 3) higher-than-expected SG&A expenses; 4) an operating loss from its overseas units; and 5) lower-than-expected synergy value.

# **Event calendar**

Date	Event
7 Nov 2024	3Q24 results announcement
11 Nov 2024	Analyst meeting

# **Key assumptions**

MAKRO	2024E	2025E	2026E
SSSG MAKRO (%)	3.0	3.0	3.0
SSSG Lotus-TH (%)	3.0	3.0	3.0
SSSG Lotus-ML (%)	3.0	3.0	3.0
New stores growth (%)	4.5	4.3	4.1
GPM (%)	16.3	16.5	16.7
SG&A to revenue (%)	13.3	13.1	13.0

Source: FSSIA estimates

### Earnings sensitivity

- For every 1% increase in SSSG, we estimate 2025 EPS to rise by 0.8% and vice versa, all else being equal.
- For every 0.1% increase in GPM, we estimate 2025 EPS to rise by 3.0% and vice versa, all else being equal.
- For every 0.1% increase in SG&A to revenue, we estimate 2025 EPS to fall by 3.1% and vice versa, all else being equal.

# Exhibit 15: FSSIA ESG score implication

59.46 /100

Rating	Score	Implication
****	>79-100	Leading its industry peers in managing the most significant ESG risks which not only better cost efficiency but also lead to higher profitability.
****	>59-79	A mixed track record of managing the most significant ESG risks and opportunities relative to industry peers.
***	>39-59	Relevant ESG materiality matrix has been constructively addressed, well-managed and incorporated into day-to-day operations, in which targets and achievements are evaluated annually.
**	>19-39	Relevant ESG materiality matrix has been identified with key management in charge for progress to be followed up on and to provide intensive disclosure. Most targets are conventional and achievable.
*	1-19	The company has adopted the United Nations Sustainable Development Goals (UN SDGs), established sustainability management guidelines and fully complies with regulations or ESG suggested guidance from related organizations such as the SET and SEC.

### **Additional Disclosures**

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 07-Oct-2024 unless otherwise stated.

### RECOMMENDATION STRUCTURE

# Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price\* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

### **Industry Recommendations**

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

### **Country (Strategy) Recommendations**

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
