25 OCTOBER 2024

EQUITY RESEARCH - COMPANY REPORT

WHA CORPORATION THAILAND / PROPERTY DEVELOPMENT

WHA TB

3Q24E profit remains at high level

- High chance of exceeding land sales target of 2,500 rai in 2024.
- Expect 3Q24 profit to be soft q-q, higher y-y in line with land transfers. 2024 should mark another record profit.
- Maintain our BUY rating with a TP of THB6.40.

High chance of exceeding land sales target of 2,500 rai in 2024

With solid demand for industrial estate, we expect WHA to sell around 740 rai of land in 3Q24 (+79% q-q, -25% y-y), mainly land sale of 400 rai to Google to build its first data center in Thailand. As a result, land sales for 9M24 should reach 1,782 rai, accounting for 71% of the company's annual target of 2,500 rai. We believe there is a high chance of exceeding this target (which would be an all-time high for the third consecutive year), as the company is still in negotiations with data center operators, both existing and new clients, as well as other major industrial sectors such as electronics, automotive, and consumer products.

3Q24E profit to be soft q-q, higher y-y in line with land transfers

We expect WHA to register a core profit of THB951m in 3Q24 (-26.2% qq, +52.8% y-y), primarily based on expected land transfers of 370 rai, compared to 620 rai in 2Q24 and 289 rai in 3Q23, mainly from WHAIER (a 60:40 JV between WHA and IRPC), resulting in a higher equity income from WHAIER. As for WHA's land transfer revenue, we anticipate its IE revenue to decline to THB811m (-27.3% q-q, -20.3% y-y). Revenue from the utilities business (WHAUP) is expected to improve, in line with the increased water volume sales from existing and new clients. For the power business, we estimate a lower profit sharing from WHAUP due to high coal inventory costs.

2024 should be another record high for profit

We expect the core profit to be THB3.6b for 9M24 (+79.2% y-y), accounting for 75% of our full-year estimate. The outlook for 4Q24 is promising, as land transfers typically see a boost at the end of the year, along with profits from factory and warehouse sales into WHAIR. We maintain our 2024 core profit estimate at a record high of THB4.8b (+9.4% y-y). Additionally, we maintain an average profit growth of 8.7% CAGR for 2024-26.

Maintain our BUY rating with TP of THB6.40

The share price currently trades at 2025E P/E of 16.3x, its five-year average while WHA group business is promising. We maintain our BUY rating with a TP of THB6.40, based on 2025E P/E of 18x (+0.5SD of its five-year historical average).

Investment thesis

We expect WHA to register a core profit of THB951m in 3Q24 (-26.2% q-q, +52.8% y-y), primarily based on expected land transfers of 370 rai, compared to 620 rai in 2Q24 and 289 rai in 3Q23. We expect the core profit to be THB3.6b for 9M24 (+79.2% y-y), accounting for 75% of our full-year estimate. The outlook for 4Q24 is promising, as land transfers typically see a boost at the end of the year, along with profits from factory and warehouse sales into the WHAIR. We maintain our 2024 core profit estimate at a record high of THB4.8b (+9.4% y-y).

We maintain our BUY rating with a TP of THB6.40, based on 2025E P/E of 18x (+0.5SD of its five-year historical average).

Company profile

WHA is a leading provider of one-stop services, covering all kinds of customer demands relating to logistics services, classifying into four business hubs, i.e., Logistics, Industrial Development, Utilities & Power, and Digital Business. The Company sets a clear policy to sell its assets into Real-Estate Investment Trust (WHART, WHAIR, and WHABT) as an additional source of funds.

www.wha.co.th

Catalysts

Key potential catalysts include 1) government investment promotion policies that exceed expectations; 2) economic growth that exceeds expectations; and 3) higher private and public sector investment growth.

Risks to our call

Downside risks to our TP include 1) local political uncertainties; 2) a delay in budget approval; 3) inability to sell assets into its trusts as planned; and 4) intense competition from abroad.

Earnings sensitivity

- For every 5% change in land price, we project WHA's 2025 core profit to change by 4%, all else being equal.
- For every 0.5% change in average cost of fund, we project WHA's 2025 core profit to change by 1.5%, all else being equal.

69.86 /100

Exhibit 7: FSSIA ESG score implication

Rating	Score	Implication
****	>79-100	Leading its industry peers in managing the most significant ESG risks which not only better cost efficiency but also lead to higher profitability.
****	>59-79	A mixed track record of managing the most significant ESG risks and opportunities relative to industry peers.
***	>39-59	Relevant ESG materiality matrix has been constructively addressed, well-managed and incorporated into day-to-day operations, in which targets and achievements are evaluated annually.
$\star\star$	>19-39	Relevant ESG materiality matrix has been identified with key management in charge for progress to be followed up on and to provide intensive disclosure. Most targets are conventional and achievable.
*	1-19	The company has adopted the United Nations Sustainable Development Goals (UN SDGs), established sustainability management guidelines and fully complies with regulations or ESG suggested guidance from related organizations such as the SET and SEC.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 24-Oct-2024 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months. **Neutral.** The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months. **Underweight.** The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
