## 3Q24 results at first glance

COM7 reported a net profit below our expectation by 8% due to a lower-than-expected GPM and higher expenses; in line with the BBG consensus estimate

### **Highlights**

- Net profit dropped 6% q-q in 3Q24 due to seasonal factors but increased by 16% y-y, supported by higher overall sales.
- Total sales rose by 10% y-y, driven mainly by the smartphone segment, especially following the launch of the iPhone 16. In addition, government economic stimulus measures helped drive sales.
- The 3Q24 GPM held steady at 13.3% y-y, while expenses remained well-managed, with SG&A to sales at 8.3%, stable both q-q and y-y.
- COM7 has announced that it is setting up a new subsidiary named "Solar9 Co, Ltd" to operate a solar cell distribution business. The investment is valued at THB1m, in which Com7 Holding Co, Ltd holds a 60% stake and Mr. Khwanchai Mayurasiriphong holds a 40% stake.

#### **Outlook**

We expect the 4Q24 net profit to grow both q-q, due to the high season, and y-y. We project the GPM to stabilize at around 13%, with robust smartphone demand anticipated. The potential shortage of products seen in 3Q24 reflects the strong demand, which could reduce promotional activities compared to 4Q23.

## COM7 PCL (COM7 TB)

## Exhibit 7: FSSIA ESG score implication

61.78 /100

| Rating | Score   | Implication  |
|--------|---------|--|
| ****   | >79-100 | Leading its industry peers in managing the most significant ESG risks which not only better cost efficiency but also lead to higher profitability.   |
| ***    | >59-79  | A mixed track record of managing the most significant ESG risks and opportunities relative to industry peers.  |
| ***    | >39-59  | Relevant ESG materiality matrix has been constructively addressed, well-managed and incorporated into day-to-day operations, in which targets and achievements are evaluated annually.   |
| **     | >19-39  | Relevant ESG materiality matrix has been identified with key management in charge for progress to be followed up on and to provide intensive disclosure. Most targets are conventional and achievable.   |
| *      | 1-19    | The company has adopted the United Nations Sustainable Development Goals (UN SDGs), established sustainability management guidelines and fully complies with regulations or ESG suggested guidance from related organizations such as the SET and SEC. |

#### **Additional Disclosures**

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 12-Nov-2024 unless otherwise stated.

#### RECOMMENDATION STRUCTURE

#### Stock ratings

Stock ratings are based on absolute upside or downside, which we define as (target price\* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

\* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

#### **Industry Recommendations**

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

#### **Country (Strategy) Recommendations**

**Overweight (O).** Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Neutral (N).** Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

**Underweight (U).** Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
