Thailand is not just Bangkok

- CPN unveiled its five-year investment plan (2025-29) under the retail-led mixed-use development strategy to drive growth.
- With record-breaking revenue and profit in 2024, we expect profit growth to reach a new high in 2025.
- Reiterate our BUY call with a TP of THB83.

A five-year plan with THB120b budget to drive growth

CPN unveiled its five-year investment plan (2025-29) under the retail-led mixed-use development strategy, with a total capex of THB120b. The plan includes the development of new projects and the transformation of existing ones to drive regional growth across the country. In 2025, CPN plans to open two new shopping centers – Central Park (3Q25) and Central Krabi (4Q25) – one office building, Central Park Offices (3Q25), and one community mall, Marketplace Thepharak (1Q25). Additionally, the company will transform two existing shopping centers: Central Pinklao (reopening in 3Q25), and Central Chaengwattana (4Q25). Furthermore, CPN plans to launch 10 new residential projects.

Thailand is not just Bangkok

For 2026, CPN plans to open two new shopping centers: Central Khonkaen Campus (2Q26) and The Central Phahonyothin (4Q26). CPN will also revamp its four existing shopping centers. CPN strategically expands into high-purchasing-power locations that are densely populated, close to hospitals, schools, and key provincial landmarks. At the same time, the Central Group, in collaboration with top global luxury brands, continues to drive foot traffic, ensuring strong consumer engagement and shopping activity.

Strong financial position to support financial plan

Over the next five years, CPN's THB120b capex will be heavily concentrated in the first three years (2025-27), accounting for over 60% of the total. The primary funding source will be internal cash flow. As of the end of 2024, CPN's interest-bearing debt decreased to THB69b, with an average financing cost of only 3.0%. Notably, 62% of the debt is tied to a floating rate, allowing CPN to benefit from potential market interest rate reductions. CPN's net IBD/E ratio remains low at 0.58x, while the company consistently generates cash flow of approximately THB26b-28b per year. With its strong financial position, CPN is well-equipped to support its investment strategy.

Reiterate our BUY call with TP of THB83

With record-breaking revenue and profit in 2024, we expect profit growth to reach a new high in 2025. Despite a slowdown in the real estate market, CPN's residential business contributes only 8% of the total gross profit. We maintain our earnings forecast. CPN's shares are currently trading at a 2025E P/E of just 12.6x, with an expected dividend yield of 4.4% per year. We reiterate our BUY call with a TP of THB83 (DCF, 7.4% WACC, 2% LTG).

Investment thesis

CPN unveiled its five-year investment plan (2025-29) under the retail-led mixed-use development strategy, with a total capex of THB120b. Such capex will be heavily concentrated in the first three years (2025-27), accounting for over 60% of the total. The primary funding source will be internal cash flow. Its net IBD/E ratio remains low at 0.58x, while the company consistently generates cash flow of approximately THB26b-28b per year. With its strong financial position, CPN is well-equipped to support its investment strategy.

With record-breaking revenue and profit in 2024, we expect profit growth to reach a new high in 2025. CPN's shares are currently trading at a 2025E P/E of just 12.6x, with an expected dividend yield of 4.4% per year. We reiterate our BUY call with a TP of THB83 (DCF, 7.4% WACC, 2% LTG).

Company profile

Central Pattana PCL is the largest retail property developer in Thailand, with over 40 years of experience. At end-2Q24, CPN managed 42 shopping centers and 17 community malls, seven office buildings, nine hotels, and 35 residential projects. It has a net retail leasable area of 2.3m sqm. with an average 90% occupancy rate.

www.centralpattana.co.th

Principal activities (revenue, 2024)

- Revenue from rent and services - 81.3 %
- Revenue from food and beverage - 2.2 %
- Revenue from hotel operation - 4.0 %
- Revenue from residential project - 12.6 %

Source: Central Pattana

Major shareholders

- Chirathivat Family - 37.0 %
- Others - 63.0 %

Source: Central Pattana

Catalysts

Key potential catalysts include 1) NLA expansion with new shopping malls; 2) effective cost control or the ability to pass through increased costs to tenants; and 3) the success of its housing projects.

Risks to our call

Key downside risks to our DCF-derived TP are deviations from our estimates on rental and occupancy rates, returns on its new investments, capex, and interest rates.

Event calendar

Date	Event
29 April 2025	Annual General Meeting of Shareholders

Key assumptions

	2025E	2026E	2027E
NLA (sqm m)	2.30	2.60	2.75
Retail rental rate (THB/sqm/month)	2,293	2,500	2,600
Rental revenue (THB m)	40,918	43,086	45,912
Hotel revenue (THB m)	1,893	1,983	2,156
Residential revenue (THB m)	6,968	6,736	6,000
Total revenue (THB m)	50,111	52,923	55,254
Blended GPM (%)	53.9	54.2	54.7
SG&A to sales (%)	16.7	16.6	16.9

Source: FSSIA estimates

Earnings sensitivity

- For every 5% increase in rental rates, we project 2025 earnings to rise by 3%, and vice versa, all else being equal.
- For every 1% increase in occupancy rate, we project 2025 earnings to rise by 1%, and vice versa, all else being equal.
- For every 1% increase in SG&A to sales, we project 2025 earnings to drop by 2.8%, and vice versa, all else being equal.

Source: FSSIA estimates

Expanding prosperity to regional areas

CPN's investment plan in 2025 includes:

- 2 new shopping centers: Central Park (3Q25) and Central Krabi (4Q25)
- 1 office building: The Offices @Central Park (3Q25)
- 1 community mall: Marketplace Thepharak (1Q25)

In addition, CPN will revamp two existing shopping centers:

- Central Pinklao (reopening 3Q25)
- Central Chaengwattana (reopening 4Q25)

For 2026, CPN plans to open two new shopping centers:

- Central Khonkaen Campus (opening 2Q26)
- The Central Phahonyothin (opening 4Q26)

Additionally, CPN will revamp and expand four existing shopping centers:

- Central Northville (on the former site of Central Rattanathibet, opening 2Q26)
- Central Chiang Mai Airport (opening 2Q26)
- Central Phuket (opening 3Q26)
- Central Bangna (opening 3Q26)

Disclaimer for ESG scoring

ESG score	Methodology	Rating																				
The Dow Jones Sustainability Indices (DJSI) By S&P Global	The DJSI World applies a transparent, rules-based component selection process based on the companies' Total Sustainability Scores resulting from the annual S&P Global Corporate Sustainability Assessment (CSA). Only the top-ranked companies within each industry are selected for inclusion.	Be a member and invited to the annual S&P Global Corporate Sustainability Assessment (CSA) for DJSI. Companies with an S&P Global ESG Score of less than 45% of the S&P Global ESG Score of the highest scoring company are disqualified. The constituents of the DJSI indices are selected from the Eligible Universe.																				
SET ESG Ratings List (SETESG) by The Stock Exchange of Thailand (SET)	SET ESG quantifies responsibility in Environmental and Social issues by managing business with transparency in Governance, updated annually. Candidates must pass the preemptive criteria, with two crucial conditions: 1) no irregular trading of the board members and executives; and 2) free float of >150 shareholders, and combined holding must be >15% of paid-up capital. Some key disqualifying criteria include: 1) CG score of below 70%; 2) independent directors and free float violation; 3) executives' wrongdoing related to CG, social & environmental impacts; 4) equity in negative territory; and 5) earnings in red for > 3 years in the last 5 years.	To be eligible for SETESG inclusion , verified data must be scored at a minimum of 50% for each indicator, unless the company is a part of DJSI during the assessment year. The scoring will be fairly weighted against the nature of the relevant industry and materiality. SETESG Index is extended from the SET ESG Ratings companies whose 1) market capitalization > THB5b (~USD150b); 2) free float >20%; and 3) liquidity >0.5% of paid-up capital for at least 9 out of 12 months. The SETTHSI Index is a market capitalisation-weighted index, cap 5% quarterly weight at maximum, and no cap for number of stocks.																				
CG Score by Thai Institute of Directors Association (Thai IOD)	An indicator of CG strength in sustainable development, measured annually by the Thai IOD, with support from the Stock Exchange of Thailand (SET). The results are from the perspective of a third party, not an evaluation of operations.	Scores are rated in six categories: 5 for Excellent (90-100), 4 for Very Good (80-89), 3 for Good (70-79), 2 for Fair (60-69), 1 for Pass (60-69), and not rated for scores below 50. Weightings include: 1) the rights; 2) and equitable treatment of shareholders (weight 25% combined); 3) the role of stakeholders (25%); 4) disclosure & transparency (15%); and 5) board responsibilities (35%).																				
AGM level By Thai Investors Association (TIA) with support from the SEC	It quantifies the extent to which shareholders' rights and equitable treatment are incorporated into business operations and information is transparent and sufficiently disclosed. All form important elements of two out of five the CG components to be evaluated annually. The assessment criteria cover AGM procedures before the meeting (45%), at the meeting date (45%), and after the meeting (10%). <i>(The first assesses 1) advance circulation of sufficient information for voting; and 2) facilitating how voting rights can be exercised. The second assesses 1) the ease of attending meetings; 2) transparency and verifiability; and 3) openness for Q&A. The third involves the meeting minutes that should contain discussion issues, resolutions and voting results.)</i>	The scores are classified into four categories: 5 for Excellent (100), 4 for Very Good (90-99), 3 for Fair (80-89), and not rated for scores below 79.																				
Thai CAC By Thai Private Sector Collective Action Against Corruption (CAC)	The core elements of the Checklist include corruption risk assessment, establishment of key controls, and the monitoring and developing of policies. The Certification is good for three years. <i>(Companies deciding to become a CAC certified member start by submitting a Declaration of Intent to kick off an 18-month deadline to submit the CAC Checklist for Certification, including risk assessment, in place of policy and control, training of managers and employees, establishment of whistleblowing channels, and communication of policies to all stakeholders.)</i>	The document will be reviewed by a committee of nine professionals. A passed Checklist will move for granting certification by the CAC Council approvals whose members are twelve highly respected individuals in professionalism and ethical achievements.																				
Morningstar Sustainabilitycs	The Sustainabilitycs' ESG risk rating provides an overall company score based on an assessment of how much of a company's exposure to ESG risk is unmanaged. <i>Sources to be reviewed include corporate publications and regulatory filings, news and other media, NGO reports/websites, multi-sector information, company feedback, ESG controversies, issuer feedback on draft ESG reports, and quality & peer reviews.</i>	A company's ESG risk rating score is the sum of unmanaged risk. The more risk is unmanaged, the higher ESG risk is scored. <table><tr><th>NEGL</th><th>Low</th><th>Medium</th><th>High</th><th>Severe</th></tr><tr><td>0-10</td><td>10-20</td><td>20-30</td><td>30-40</td><td>40+</td></tr></table>	NEGL	Low	Medium	High	Severe	0-10	10-20	20-30	30-40	40+										
NEGL	Low	Medium	High	Severe																		
0-10	10-20	20-30	30-40	40+																		
ESG Book	The ESG score identifies sustainable companies that are better positioned to outperform over the long term. The methodology considers the principle of financial materiality including information that significantly helps explain future risk-adjusted performance. Materiality is applied by over-weighting features with higher materiality and rebalancing these weights on a rolling quarterly basis.	The total ESG score is calculated as a weighted sum of the features scores using materiality-based weights. The score is scaled between 0 and 100 with higher scores indicating better performance.																				
MSCI	MSCI ESG ratings aim to measure a company's management of financially relevant ESG risks and opportunities. It uses a rules-based methodology to identify industry leaders and laggards according to their exposure to ESG risks and how well they manage those risks relative to peers. <table><tr><td>AAA</td><td>8.571-10.000</td><td rowspan="3">Leader:</td><td rowspan="3">leading its industry in managing the most significant ESG risks and opportunities</td></tr><tr><td>AA</td><td>7.143-8.570</td></tr><tr><td>A</td><td>5.714-7.142</td></tr><tr><td>BBB</td><td>4.286-5.713</td><td rowspan="3">Average:</td><td rowspan="3">a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers</td></tr><tr><td>BB</td><td>2.857-4.285</td></tr><tr><td>B</td><td>1.429-2.856</td></tr><tr><td>CCC</td><td>0.000-1.428</td><td>Laggard:</td><td>lagging its industry based on its high exposure and failure to manage significant ESG risks</td></tr></table>		AAA	8.571-10.000	Leader:	leading its industry in managing the most significant ESG risks and opportunities	AA	7.143-8.570	A	5.714-7.142	BBB	4.286-5.713	Average:	a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers	BB	2.857-4.285	B	1.429-2.856	CCC	0.000-1.428	Laggard:	lagging its industry based on its high exposure and failure to manage significant ESG risks
AAA	8.571-10.000	Leader:	leading its industry in managing the most significant ESG risks and opportunities																			
AA	7.143-8.570																					
A	5.714-7.142																					
BBB	4.286-5.713	Average:	a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers																			
BB	2.857-4.285																					
B	1.429-2.856																					
CCC	0.000-1.428	Laggard:	lagging its industry based on its high exposure and failure to manage significant ESG risks																			
Moody's ESG solutions	Moody's assesses the degree to which companies take into account ESG objectives in the definition and implementation of their strategy policies. It believes that a company integrating ESG factors into its business model and relatively outperforming its peers is better positioned to mitigate risks and create sustainable value for shareholders over the medium to long term.																					
Refinitiv ESG rating	Designed to transparently and objectively measure a company's relative ESG performance, commitment and effectiveness across 10 main themes, based on publicly available and auditable data. The score ranges from 0 to 100 on relative ESG performance and insufficient degree of transparency in reporting material ESG data publicly. <i>(Score ratings are 0 to 25 = poor; >25 to 50 = satisfactory; >50 to 75 = good; and >75 to 100 = excellent.)</i>																					
S&P Global	The S&P Global ESG Score is a relative score measuring a company's performance on and management of ESG risks, opportunities, and impacts compared to its peers within the same industry classification. The score ranges from 0 to 100.																					
Bloomberg	ESG Score	Bloomberg score evaluating the company's aggregated Environmental, Social and Governance (ESG) performance. The score is based on Bloomberg's view of ESG financial materiality. The score is a weighted generalized mean (power mean) of Pillar Scores, where the weights are determined by the pillar priority ranking. Values range from 0 to 10; 10 is the best.																				
Bloomberg	ESG Disclosure Score	Disclosure of a company's ESG used for Bloomberg ESG score. The score ranges from 0 for none to 100 for disclosure of every data point, measuring the amount of ESG data reported publicly, and not the performance on any data point.																				

[Rating](#) regarding the sustainable development of Thai listed companies, both on the SET and MAI, are publicly available on the website of the Securities and Exchange Commission of Thailand (SEC). Currently, ratings available are 1) "**CG Score**"; 2) "**AGM Level**"; 3) "**Thai CAC**"; and 4) **THSI**. The ratings are updated on an annual basis. FSSIA does not confirm nor certify the accuracy of such ratings.

You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 19-Mar-2025 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
