THAILAND / COMMERCE

BUY

UNCHANGED

Low expectation with good yield

- ธุรกิจมีการกระจายความเสี่ยงแต่การแข่งขันยังดุเดือด
- คาดกำไร 2025 จะโต 11.5% y-y แต่ต้นทุนต้นทุนน้อยลง y-y ใน 2Q-4Q25
- คงคำแนะนำซื้อหลังปรับราคาเป้าหมายลงเหลือ 24 บาท (DCF)

ธุรกิจมีการกระจายความเสี่ยงแต่การเติบโตในธุรกิจค้าปลีกยังมีความท้าทาย

BJC ดำเนินกิจการโดยมีการกระจายความเสี่ยงไปในธุรกิจต่าง ๆ ประกอบด้วยการผลิตบรรจุภัณฑ์และสินค้าอุปโภคบริโภค การค้าผลิตภัณฑ์ทางการแพทย์และค้าปลีก การกระจายความเสี่ยงดังกล่าวช่วยลดความเสี่ยงเฉพาะในแต่ละธุรกิจและช่วยหนุนให้ฐานกำไรมีเสถียรภาพ อย่างไรก็ตามเรายังเห็นความท้าทายอย่างต่อเนื่องในการผลักดันการเติบโตที่สูงขึ้นโดยเฉพาะในธุรกิจหลักอย่างค้าปลีก (65% ของยอดขายและ 50% ของกำไรสุทธิหลังหักภาษี) ซึ่งเผชิญการแข่งขันที่รุนแรงจาก Lotus's ในขณะที่การขยายธุรกิจไปยังต่างประเทศยังเป็นไปอย่างช้า ๆ ดังนั้นเราจึงเชื่อว่าการเติบโตในระยะสั้นจะยังอยู่ในระดับต่ำ

คาดการณ์เติบโตของกำไรจะน่าตื่นเต้นน้อยลงใน 2Q-4Q25

เราคาดว่ากำไรสุทธิจะโต 7.3% y-y CAGR ในช่วงปี 2025-27 โดยมีปัจจัยผลักดันจากการเติบโตของรายได้และอัตรากำไรขั้นต้นที่สูงขึ้น สำหรับในปี 2025 เราคาดว่ากำไรจะสูงขึ้น 11.5% y-y โดยมีปัจจัยหนุนจากอัตรากำไรขั้นต้นที่สูงขึ้นในธุรกิจการผลิต การควบคุมค่าใช้จ่ายการขายและบริหารอย่างมีประสิทธิภาพและการขยายธุรกิจ Thai-Scandic Steel ที่ประสบปัญหาขาดทุนใน 1Q25 (โดยปกติจะให้ผลขาดทุนต่อปีอยู่ที่ประมาณ 130 ลบ.) เราคาดว่ากำไรจะโตในระดับปานกลาง y-y ใน 2Q25-4Q25 จากฐานที่สูงขึ้นในปี 2024

Upside ระยะยาวจากทั้ง synergy และการปรับโครงสร้างยังไม่แน่นอน

มองไปในอนาคตประเด็นการเติบโตระยะกลางถึงยาวจะขึ้นอยู่กับผลการปลดล็อกประโยชน์ที่ได้จากความผูกพันกับ THBEV group เพื่อขยายตลาดไปทั่ว ASEAN ทั้งในธุรกิจค้าปลีกและการผลิต ทั้งนี้เราคาดว่าในระยะยาว BJC อาจซื้อ MM Mega Market (ธุรกิจค้าส่งในเวียดนามซึ่งบริษัทแม่เป็นเจ้าของอยู่ในปัจจุบันแต่ BJC เป็นผู้บริหาร) เพื่อนำมาบริหารเองเต็ม 100% ซึ่งจะช่วยเสริมสถานะของบริษัทฯ ในตลาดเวียดนามให้แข็งแกร่งยิ่งขึ้น อย่างไรก็ตามการนำธุรกิจค้าปลีก (Big C) เข้า IPO แยกธุรกิจค้าปลีก (Big C) น่าจะไม่เกิดขึ้นในระยะสั้นจากการปรับลดระดับ Valuation ของตลาดและกำไรต่อหุ้นของ BJC ที่อาจลดลงในขณะที่เงินที่ได้จากการขายอาจไม่สูงนักและการแข่งขันในตลาดค้าปลีกยังรุนแรง

Downside จำกัดพร้อมผลตอบแทนในรูปเงินปันผลที่ดี

ราคาหุ้นของ BJC ลดลงไปแล้ว 15.8% YTD ปัจจุบันหุ้นมีการซื้อขายที่ 14.9x 2025E P/E ใกล้เคียงกับค่าเฉลี่ยของกลุ่มฯ จากความคาดหวังของตลาด ที่อยู่ในระดับต่ำเราเชื่อว่าปัจจุบันทั้งกำไรและราคาหุ้นมี Downside จำกัด นอกจากนี้ Valuation ในปัจจุบันยังให้ผลตอบแทนในรูปเงินปันผลที่น่าสนใจถึง 4.6% เราคงคำแนะนำซื้อหลังปรับลดราคาเป้าหมายเป็น 24 จาก 31 บาท (DCF) ทั้งนี้ บทวิเคราะห์ฉบับนี้ปัจจุบันจัดทำโดยคุณกมล อัครวิรินทร์ชัย

Investment thesis

BJC has a good diversified business portfolio ranging from can and glass manufacturing to consumer products. Additionally, the company is the second-largest hypermarket operator in Thailand.

In our opinion, we foresee challenging competition with CPAXT and other retailers amid the slowdown in economic expansion. In addition, the long-term synergy and restructuring (MM Mega Market acquisition and Big C IPO) remain uncertain. However, given the low expectations and limited earnings downside, we maintain our Buy call on the stock.

Company profile

BJC is a fully-integrated consumer company with a presence in Thailand and ASEAN. It is part of TCC group, the largest beverage company in Thailand. Businesses include packaging, manufacturing consumer products, healthcare and modern trade. In 2016, it acquired 98% of Big C.

Catalysts

Key potential growth catalysts for BJC in 2025-27 include: 1) better consumer confidence in the nationwide market; 2) a rise in international tourist arrivals; 3) government economic stimulus packages; and 4) a substantial decline in BJC's production costs such as aluminum, soda ash, cullet, and natural gas.

Risks to our call

Downside risks to our DCF-based TP include 1) a decline in domestic purchasing power; 2) lower-than-expected tourist arrivals; 3) the absence of the government stimulus; 4) higher raw material costs; and 5) intensifying competition pressuring the retail business.

Earnings sensitivity

- For every 1% increase in SSSG, we estimate 2025 EPS would rise 0.7%, and vice versa, all else being equal.
- For every 0.1% increase in GPM, we estimate 2025 EPS would rise 2.5%, and vice versa, all else being equal.
- For every 0.1% increase in SG&A to revenue, we estimate 2025 EPS would fall 2.5%, and vice versa, all else being equal.

Valuation

After transferring coverage, we revise our target price on BJC to THB24 from THB31 per share, based on a DCF valuation method (7.8% WACC, 1.5% TG). We assume BJC's terminal growth at 1.5% per year, reflecting the fierce competition in its core business and the uncertainty over long-term upside. Our new target price implies 18.7x 2025E P/E, equivalent to -1.25SD below BJC's 5-year historical trading average.

BJC's share price is down 16% YTD. BJC now trades at 14.9x 2025E P/E, aligning with the sector average. Given the low expectations, we believe the downside risk to both earnings and share price is now limited. In addition, the current valuation offers an attractive dividend yield of 4.6%. We maintain our BUY call on BJC.

Berli Jucker PCL (BJC TB)

FSSIA ESG rating

Exhibit 16: FSSIA ESG score implication

79.24 /100

Rating	Score	Implication
★★★★★	>79-100	Leading its industry peers in managing the most significant ESG risks which not only better cost efficiency but also lead to higher profitability.
★★★★	>59-79	A mixed track record of managing the most significant ESG risks and opportunities relative to industry peers.
★★★	>39-59	Relevant ESG materiality matrix has been constructively addressed, well-managed and incorporated into day-to-day operations, in which targets and achievements are evaluated annually.
★★	>19-39	Relevant ESG materiality matrix has been identified with key management in charge for progress to be followed up on and to provide intensive disclosure. Most targets are conventional and achievable.
★	1-19	The company has adopted the United Nations Sustainable Development Goals (UN SDGs), established sustainability management guidelines and fully complies with regulations or ESG suggested guidance from related organizations such as the SET and SEC.

Disclaimer for ESG scoring

ESG score	Methodology	Rating																				
The Dow Jones Sustainability Indices (DJSI) By S&P Global	The DJSI World applies a transparent, rules-based component selection process based on the companies' Total Sustainability Scores resulting from the annual S&P Global Corporate Sustainability Assessment (CSA). Only the top-ranked companies within each industry are selected for inclusion.	Be a member and invited to the annual S&P Global Corporate Sustainability Assessment (CSA) for DJSI. Companies with an S&P Global ESG Score of less than 45% of the S&P Global ESG Score of the highest scoring company are disqualified. The constituents of the DJSI indices are selected from the Eligible Universe.																				
SET ESG Ratings List (SETESG) by The Stock Exchange of Thailand (SET)	SET ESG quantifies responsibility in Environmental and Social issues by managing business with transparency in Governance, updated annually. Candidates must pass the preemptive criteria, with two crucial conditions: 1) no irregular trading of the board members and executives; and 2) free float of >150 shareholders, and combined holding must be >15% of paid-up capital. Some key disqualifying criteria include: 1) CG score of below 70%; 2) independent directors and free float violation; 3) executives' wrongdoing related to CG, social & environmental impacts; 4) equity in negative territory; and 5) earnings in red for > 3 years in the last 5 years.	To be eligible for SETESG inclusion , verified data must be scored at a minimum of 50% for each indicator, unless the company is a part of DJSI during the assessment year. The scoring will be fairly weighted against the nature of the relevant industry and materiality. SETESG Index is extended from the SET ESG Ratings companies whose 1) market capitalization > THB5b (~USD150b); 2) free float >20%; and 3) liquidity >0.5% of paid-up capital for at least 9 out of 12 months. The SETTHSI Index is a market capitalisation-weighted index, cap 5% quarterly weight at maximum, and no cap for number of stocks.																				
CG Score by Thai Institute of Directors Association (Thai IOD)	An indicator of CG strength in sustainable development, measured annually by the Thai IOD, with support from the Stock Exchange of Thailand (SET). The results are from the perspective of a third party, not an evaluation of operations.	Scores are rated in six categories: 5 for Excellent (90-100), 4 for Very Good (80-89), 3 for Good (70-79), 2 for Fair (60-69), 1 for Pass (60-69), and not rated for scores below 50. Weightings include: 1) the rights; 2) and equitable treatment of shareholders (weight 25% combined); 3) the role of stakeholders (25%); 4) disclosure & transparency (15%); and 5) board responsibilities (35%).																				
AGM level By Thai Investors Association (TIA) with support from the SEC	It quantifies the extent to which shareholders' rights and equitable treatment are incorporated into business operations and information is transparent and sufficiently disclosed. All form important elements of two out of five the CG components to be evaluated annually. The assessment criteria cover AGM procedures before the meeting (45%), at the meeting date (45%), and after the meeting (10%). <i>(The first assesses 1) advance circulation of sufficient information for voting; and 2) facilitating how voting rights can be exercised. The second assesses 1) the ease of attending meetings; 2) transparency and verifiability; and 3) openness for Q&A. The third involves the meeting minutes that should contain discussion issues, resolutions and voting results.)</i>	The scores are classified into four categories: 5 for Excellent (100), 4 for Very Good (90-99), 3 for Fair (80-89), and not rated for scores below 79.																				
Thai CAC By Thai Private Sector Collective Action Against Corruption (CAC)	The core elements of the Checklist include corruption risk assessment, establishment of key controls, and the monitoring and developing of policies. The Certification is good for three years. <i>(Companies deciding to become a CAC certified member start by submitting a Declaration of Intent to kick off an 18-month deadline to submit the CAC Checklist for Certification, including risk assessment, in place of policy and control, training of managers and employees, establishment of whistleblowing channels, and communication of policies to all stakeholders.)</i>	The document will be reviewed by a committee of nine professionals. A passed Checklist will move for granting certification by the CAC Council approvals whose members are twelve highly respected individuals in professionalism and ethical achievements.																				
Morningstar Sustainabilitys	The Sustainabilitys' ESG risk rating provides an overall company score based on an assessment of how much of a company's exposure to ESG risk is unmanaged. <i>Sources to be reviewed include corporate publications and regulatory filings, news and other media, NGO reports/websites, multi-sector information, company feedback, ESG controversies, issuer feedback on draft ESG reports, and quality & peer reviews.</i>	A company's ESG risk rating score is the sum of unmanaged risk. The more risk is unmanaged, the higher ESG risk is scored. <table><tr><th>NEGL</th><th>Low</th><th>Medium</th><th>High</th><th>Severe</th></tr><tr><td>0-10</td><td>10-20</td><td>20-30</td><td>30-40</td><td>40+</td></tr></table>	NEGL	Low	Medium	High	Severe	0-10	10-20	20-30	30-40	40+										
NEGL	Low	Medium	High	Severe																		
0-10	10-20	20-30	30-40	40+																		
ESG Book	The ESG score identifies sustainable companies that are better positioned to outperform over the long term. The methodology considers the principle of financial materiality including information that significantly helps explain future risk-adjusted performance. Materiality is applied by over-weighting features with higher materiality and rebalancing these weights on a rolling quarterly basis.	The total ESG score is calculated as a weighted sum of the features scores using materiality-based weights. The score is scaled between 0 and 100 with higher scores indicating better performance.																				
MSCI	MSCI ESG ratings aim to measure a company's management of financially relevant ESG risks and opportunities. It uses a rules-based methodology to identify industry leaders and laggards according to their exposure to ESG risks and how well they manage those risks relative to peers. <table><tr><td>AAA</td><td>8.571-10.000</td><td rowspan="3">Leader:</td><td rowspan="3">leading its industry in managing the most significant ESG risks and opportunities</td></tr><tr><td>AA</td><td>7.143-8.570</td></tr><tr><td>A</td><td>5.714-7.142</td></tr><tr><td>BBB</td><td>4.286-5.713</td><td rowspan="3">Average:</td><td rowspan="3">a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers</td></tr><tr><td>BB</td><td>2.857-4.285</td></tr><tr><td>B</td><td>1.429-2.856</td></tr><tr><td>CCC</td><td>0.000-1.428</td><td>Laggard:</td><td>lagging its industry based on its high exposure and failure to manage significant ESG risks</td></tr></table>		AAA	8.571-10.000	Leader:	leading its industry in managing the most significant ESG risks and opportunities	AA	7.143-8.570	A	5.714-7.142	BBB	4.286-5.713	Average:	a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers	BB	2.857-4.285	B	1.429-2.856	CCC	0.000-1.428	Laggard:	lagging its industry based on its high exposure and failure to manage significant ESG risks

AA	7.143-8.570																					
A	5.714-7.142																					
BBB	4.286-5.713	Average:	a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers																			
BB	2.857-4.285																					
B	1.429-2.856																					
CCC	0.000-1.428	Laggard:	lagging its industry based on its high exposure and failure to manage significant ESG risks																			
Moody's ESG solutions	Moody's assesses the degree to which companies take into account ESG objectives in the definition and implementation of their strategy policies. It believes that a company integrating ESG factors into its business model and relatively outperforming its peers is better positioned to mitigate risks and create sustainable value for shareholders over the medium to long term.																					
Refinitiv ESG rating	Designed to transparently and objectively measure a company's relative ESG performance, commitment and effectiveness across 10 main themes, based on publicly available and auditable data. The score ranges from 0 to 100 on relative ESG performance and insufficient degree of transparency in reporting material ESG data publicly. <i>(Score ratings are 0 to 25 = poor; >25 to 50 = satisfactory; >50 to 75 = good; and >75 to 100 = excellent.)</i>																					
S&P Global	The S&P Global ESG Score is a relative score measuring a company's performance on and management of ESG risks, opportunities, and impacts compared to its peers within the same industry classification. The score ranges from 0 to 100.																					
Bloomberg	ESG Score	Bloomberg score evaluating the company's aggregated Environmental, Social and Governance (ESG) performance. The score is based on Bloomberg's view of ESG financial materiality. The score is a weighted generalized mean (power mean) of Pillar Scores, where the weights are determined by the pillar priority ranking. Values range from 0 to 10; 10 is the best.																				
Bloomberg	ESG Disclosure Score	Disclosure of a company's ESG used for Bloomberg ESG score. The score ranges from 0 for none to 100 for disclosure of every data point, measuring the amount of ESG data reported publicly, and not the performance on any data point.																				

[Rating](#) regarding the sustainable development of Thai listed companies, both on the SET and MAI, are publicly available on the website of the Securities and Exchange Commission of Thailand (SEC). Currently, ratings available are 1) "**CG Score**"; 2) "**AGM Level**"; 3) "**Thai CAC**"; and 4) **THSI**. The ratings are updated on an annual basis. FSSIA does not confirm nor certify the accuracy of such ratings.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports. You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 30-Jun-2025 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
