กำไรสุทธิ 1Q26 ใกล้เคียงคาด แต่กำไรปกติต่ำกว่าคาด

กำไรสุทธิ 1Q26 เท่ากับ 1.11 พันลบ. (+9.9% q-q, 9.2% y-y) หากไม่รวมรายการพิเศษทางภาษี (จากการปรับโครงสร้างบริษัทในกาษา) 423 ลบ. และ FX loss 135 ลบ. จะมีกำไรปกติ 825 ลบ. (-10.5% q-q, -17.7% y-y) รายได้รวม -8.5% q-q, +7.6% y-y โดย y-y ได้ทุก segment นำโดย Pet Food +22.6% y-y, Frozen +11.6% y-y ส่วน Ambient +2.5% y-y อัตรากำไรขั้นต้นอยู่ที่ 18.2% ลดลงจาก 18.3% ใน 4Q25 และ 18.8% ใน 1Q25 สาเหตุที่ลดลง y-y เพราะถูกกระทบจาก US tariff และค่าเงินบาทแข็งค่าราว 6.9% y-y SG&A to sales อยู่ที่ 14.5% ปรับขึ้นจาก 13.9% ใน 4Q25 เพราะรายได้ลดลง แต่ลดลงจาก 15.8% ใน 1Q25 โดยมี transformation cost ราว 121 ลบ. (-22.4% q-q, -59.4% y-y) ส่วนแบ่งกำไรบริษัทรวมทำได้ดี +69.7% q-q, +4.4% y-y มาจาก Avanti Feed และ RBF ที่มีผลการดำเนินงานฟื้นตัวดี

ระยะสั้น 2Q26 ยังดูฟื้นตัวได้ดี

ผู้บริหารให้วิสัยทัศน์ 2Q26 จะโต y-y ในอัตรากำไรที่ต่ำกว่าระดับ 7.6% y-y ที่ทำได้ใน 1Q26 นั้น หมายถึงจะโต q-q ได้ตามฤดูกาล และคาดอัตรากำไรขั้นต้นจะปรับขึ้น q-q ได้ จากการฟื้นตัวของ Ambient และ Frozen เป็นหลัก ภาพรวมต้นทุนบรรจุก่อนจะเริ่มทยอยปรับขึ้นใน 2Q26 ซึ่งความเสี่ยงด้านอัตราเงินเฟ้อเป็นสิ่งที่บริษัทเผชิญมาตลอด และในปีนี้เป็น crisis ที่เกิดจากสงครามและกระทบทุกคน ผู้บริหารจึงมั่นใจว่าจะสามารถปรับขึ้นราคาเพื่อสะท้อนต้นทุนที่สูงขึ้นได้นอกจากนี้อยู่ระหว่างขอคืนเงินภาษี (US tariff) อาจใช้เวลาราว 60-90 วัน สำหรับ Ambient, Pet Food และ Value Added products แต่สำหรับ Frozen อาจใช้เวลานานกว่า (6 เดือน ถึง 3 ปี) เพราะอยู่ในกลุ่มที่เสียภาษีตอบโต้การทุ่มตลาด

ราคาหุ้นผ่านพีคแล้วใน มี.ค. ยังตั้งเป้ารักษาระดับอัตรากำไรขั้นต้นในปี

ราคาปลาทูน่าล่าสุดเดือน เม.ย. อยู่ที่ USD1,875/ตัน (-6.3% q-q, +21.0% y-y) อ่อนตัวลงจากที่ทำไฮระดับ USD2,000 ในเดือน มี.ค. ซึ่งผู้บริหารระบุว่า สถานการณ์เริ่มนิ่งขึ้นและให้กรอบราคาปลาในช่วงที่เหลือของปีนี้ที่ USD1,800-1850/ตัน ปัจจุบันบริษัทโฟกัสกับการปรับราคาสินค้า และปรับ product portfolio ให้เหมาะสมกับสถานการณ์ ควบคู่กับการจัดการต้นทุนและค่าใช้จ่าย เพื่อรักษาระดับอัตรากำไรขั้นต้นให้ได้ตามเป้าหมายที่ 19-20% (1Q26 ทำได้ 18.2%) และยังคงเป้ารายได้ปี 2026 โต 3-4% y-y รวมถึง SG&A to sales ที่ 13.5-14.5%

คงประมาณการกำไรและราคาเป้าหมาย

เรายังคาดกำไรสุทธิปี 2026 ไว้ที่ 4.78 พันลบ. (+3.7% y-y) โดยกำไร 1Q26 คิดเป็น 23.3% ของกำไรทั้งปี และคงเป้า 14.2 บาท ราคาหุ้นปัจจุบันเทรดที่ 10x 2026E PE และคาด Dividend yield ราว 6% คงคำแนะนำซื้อ บริษัทยังคงแผนลงทุนในปีที่ 5.5-6.0 พันลบ. โดยมีแผนลงทุนธุรกิจเพาะเลี้ยงสัตว์น้ำในอควาเรียม (ผ่าน TFM), พัฒนาสายการผลิตอัตโนมัติสำหรับ ITC และมีแผนขยายกำลังการผลิตธุรกิจ Packaging

บทวิเคราะห์ฉบับนี้แปลมาจากต้นฉบับภาษาอังกฤษ ที่ออกรายงานเมื่อวันที่ 6 พฤษภาคม 2026

Investment thesis

TU is one of the world’s largest seafood companies. It is a leading producer and exporter of frozen and canned seafood such as tuna, shrimp, sardines, and mackerel. TU has affiliated companies, such as I-Tail Corporation (ITC TB, BUY), a major pet food manufacturer in Thailand. It also has overseas subsidiaries, one of which owns Chicken of the Sea, the #3 canned seafood brand in the US, and the TUE Group (formerly MWB), which owns canned seafood brands ranking among the top three in European markets, such as John West, Petit Navire, Parmentier, King Oscar, and Mareblu.

Company profile

Thai Union was founded in 1977 as a canned tuna processor and exporter. It is now an international OEM business with a global portfolio of consumer-favourite brands. TU had 18 brands, five strategic partnerships and key joint ventures, and eight overseas sales offices. TU has 13 production locations in 12 countries and two innovation and R&D centres. In 2025, its revenue contributions from the USA, Europe, Thailand, Japan, and other were 38.5%/30.3%/11.9%/4.9%/14.9%, respectively.

Catalysts

Potential catalysts for TU’s 2026 earnings growth include 1) revenue growth of the three units; 2) its pet food and ready-to-eat capacity expansion; 3) the declining tuna price outlook; and 4) potential upside from M&A activity.

Risks to our call

Downside and upside risks to our TP include 1) a slower or faster-than-expected revenue recovery; 2) higher or lower-than-expected freight costs; 3) more fluctuating raw material costs than expected; 4) higher-than-expected labor costs and labor shortages; and 5) a stronger baht than expected.

Earnings sensitivity

- For every THB1/USD increase, we estimate 2026 net profit to fall by 7%, and vice versa, all else being equal.
- For every 1% increase in the tuna price, we estimate 2026 net profit to fall by 5.8%, and vice versa, all else being equal.
- For every 5% increase in the minimum wage, we estimate 2026 net profit to fall by 4.3%, and vice versa, all else being equal.

1Q26 net profit in line, but core profit below expectations

TU reported a 1Q26 net profit at THB1.11b (+9.9% q-q, +9.2% y-y), in line with expectations. Excluding a tax-related one-off gain from the corporate restructuring in Ghana (THB423m) and FX loss of THB135m, core profit was THB825m (-10.5% q-q, -17.7% y-y), below our estimate. This was mainly due to lower-than-expected gross margin and higher expenses, despite stronger-than-expected profit from ITC.

Total revenue declined 8.5% q-q but grew 7.6% y-y, largely in line with expectations. All segments posted y-y growth, led by Pet Food (+22.6% y-y), followed by Frozen (+11.6% y-y) and Ambient (+2.5% y-y). On a q-q basis, revenue dropped significantly in Frozen (-23.7% q-q), followed by Ambient (-3.4% q-q).

Gross margin was 18.2%, slightly down from 18.3% in 4Q25 and 18.8% in 1Q25. The y-y decline was mainly due to US tariff impact, along with a stronger Thai baht (+6.9% y-y).

SG&A to sales was 14.5%, up from 13.9% in 4Q25 due to lower revenue, but down from 15.8% in 1Q25 thanks to revenue growth. Transformation costs were THB121m (-22.4% q-q, -59.4% y-y), equivalent to 0.4% of total revenue.

Equity income performed well, increasing 69.7% q-q and 4.4% y-y, supported by a recovery in Avanti Feed and RBF.

	FY 26 Guidance	Key factors
Sales Growth	+3 to 4% YoY	<ul style="list-style-type: none"> Growth is expected across all categories, led by a strong expansion in PetCare and Feed. Sales growth will be driven primarily by higher volumes and the gradual pass-through of U.S. tariffs to customers. Our FY 26 sales outlook is based on an FX assumption of average 32.5* THB/ USD.
GPM	~19.0 to 20.0%	<ul style="list-style-type: none"> GPM improvement supported by stronger margins in Ambient and Frozen, while PetCare and Value-added remain stable.
SG&A to sales	~13.5 to 14.5%	<ul style="list-style-type: none"> Full-year impact from U.S. tariffs from Frozen Thailand. Higher marketing investment to support branded-product growth. Lower transformation costs.
CAPEX	~ THB 5.5 to 6.0bn	<ul style="list-style-type: none"> CAPEX comprise normal investment requirements as well as additional CAPEX for new Feed's plant in Ecuador, completion of automated warehouse for PetCare and new facility expansion of our packaging business.
Dividend policy	At least 50% dividend payout ratio

Thai Union Group PCL (TU TB)

FSSIA ESG rating

★★★★★

Exhibit 28: FSSIA ESG score implication

82.75 /100

Rating	Score	Implication
★★★★★	>79-100	Leading its industry peers in managing the most significant ESG risks which not only better cost efficiency but also lead to higher profitability.
★★★★	>59-79	A mixed track record of managing the most significant ESG risks and opportunities relative to industry peers.
★★★	>39-59	Relevant ESG materiality matrix has been constructively addressed, well-managed and incorporated into day-to-day operations, in which targets and achievements are evaluated annually.
★★	>19-39	Relevant ESG materiality matrix has been identified with key management in charge for progress to be followed up on and to provide intensive disclosure. Most targets are conventional and achievable.
★	1-19	The company has adopted the United Nations Sustainable Development Goals (UN SDGs), established sustainability management guidelines and fully complies with regulations or ESG suggested guidance from related organizations such as the SET and SEC.

Disclaimer for ESG scoring

ESG score	Methodology	Rating																			
The Dow Jones Sustainability Indices (DJSI) By S&P Global	The DJSI World applies a transparent, rules-based component selection process based on the companies' Total Sustainability Scores resulting from the annual S&P Global Corporate Sustainability Assessment (CSA). Only the top-ranked companies within each industry are selected for inclusion.	Be a member and invited to the annual S&P Global Corporate Sustainability Assessment (CSA) for DJSI. Companies with an S&P Global ESG Score of less than 45% of the S&P Global ESG Score of the highest scoring company are disqualified. The constituents of the DJSI indices are selected from the Eligible Universe.																			
SET ESG Ratings List (SETESG) by The Stock Exchange of Thailand (SET)	SET ESG quantifies responsibility in Environmental and Social issues by managing business with transparency in Governance, updated annually. Candidates must pass the preemptive criteria, with two crucial conditions: 1) no irregular trading of the board members and executives; and 2) free float of >150 shareholders, and combined holding must be >15% of paid-up capital. Some key disqualifying criteria include: 1) CG score of below 70%; 2) independent directors and free float violation; 3) executives' wrongdoing related to CG, social & environmental impacts; 4) equity in negative territory; and 5) earnings in red for > 3 years in the last 5 years.	To be eligible for SETESG inclusion , verified data must be scored at a minimum of 50% for each indicator, unless the company is a part of DJSI during the assessment year. The scoring will be fairly weighted against the nature of the relevant industry and materiality. SETESG Index is extended from the SET ESG Ratings companies whose 1) market capitalization > THB5b (~USD150b); 2) free float >20%; and 3) liquidity >0.5% of paid-up capital for at least 9 out of 12 months. The SETTHSI Index is a market capitalisation-weighted index, cap 5% quarterly weight at maximum, and no cap for number of stocks.																			
CG Score by Thai Institute of Directors Association (Thai IOD)	An indicator of CG strength in sustainable development, measured annually by the Thai IOD, with support from the Stock Exchange of Thailand (SET). The results are from the perspective of a third party, not an evaluation of operations.	Scores are rated in six categories: 5 for Excellent (90-100), 4 for Very Good (80-89), 3 for Good (70-79), 2 for Fair (60-69), 1 for Pass (60-69), and not rated for scores below 50. Weightings include: 1) the rights; 2) and equitable treatment of shareholders (weight 25% combined); 3) the role of stakeholders (25%); 4) disclosure & transparency (15%); and 5) board responsibilities (35%).																			
AGM level By Thai Investors Association (TIA) with support from the SEC	It quantifies the extent to which shareholders' rights and equitable treatment are incorporated into business operations and information is transparent and sufficiently disclosed. All form important elements of two out of five the CG components to be evaluated annually. The assessment criteria cover AGM procedures before the meeting (45%), at the meeting date (45%), and after the meeting (10%). <i>(The first assesses 1) advance circulation of sufficient information for voting; and 2) facilitating how voting rights can be exercised. The second assesses 1) the ease of attending meetings; 2) transparency and verifiability; and 3) openness for Q&A. The third involves the meeting minutes that should contain discussion issues, resolutions and voting results.)</i>	The scores are classified into four categories: 5 for Excellent (100), 4 for Very Good (90-99), 3 for Fair (80-89), and not rated for scores below 79.																			
Thai CAC By Thai Private Sector Collective Action Against Corruption (CAC)	The core elements of the Checklist include corruption risk assessment, establishment of key controls, and the monitoring and developing of policies. The Certification is good for three years. <i>(Companies deciding to become a CAC certified member start by submitting a Declaration of Intent to kick off an 18-month deadline to submit the CAC Checklist for Certification, including risk assessment, in place of policy and control, training of managers and employees, establishment of whistleblowing channels, and communication of policies to all stakeholders.)</i>	The document will be reviewed by a committee of nine professionals. A passed Checklist will move for granting certification by the CAC Council approvals whose members are twelve highly respected individuals in professionalism and ethical achievements.																			
Morningstar Sustainalytics	The Sustainalytics' ESG risk rating provides an overall company score based on an assessment of how much of a company's exposure to ESG risk is unmanaged. <i>Sources to be reviewed include corporate publications and regulatory filings, news and other media, NGO reports/websites, multi-sector information, company feedback, ESG controversies, issuer feedback on draft ESG reports, and quality & peer reviews.</i>	A company's ESG risk rating score is the sum of unmanaged risk. The more risk is unmanaged, the higher ESG risk is scored. <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>NEGL</th> <th>Low</th> <th>Medium</th> <th>High</th> <th>Severe</th> </tr> </thead> <tbody> <tr> <td>0-10</td> <td>10-20</td> <td>20-30</td> <td>30-40</td> <td>40+</td> </tr> </tbody> </table>	NEGL	Low	Medium	High	Severe	0-10	10-20	20-30	30-40	40+									
NEGL	Low	Medium	High	Severe																	
0-10	10-20	20-30	30-40	40+																	
ESG Book	The ESG score identifies sustainable companies that are better positioned to outperform over the long term. The methodology considers the principle of financial materiality including information that significantly helps explain future risk-adjusted performance. Materiality is applied by over-weighting features with higher materiality and rebalancing these weights on a rolling quarterly basis.	The total ESG score is calculated as a weighted sum of the features scores using materiality-based weights. The score is scaled between 0 and 100 with higher scores indicating better performance.																			
MSCI	MSCI ESG ratings aim to measure a company's management of financially relevant ESG risks and opportunities. It uses a rules-based methodology to identify industry leaders and laggards according to their exposure to ESG risks and how well they manage those risks relative to peers. <table border="1" style="margin-left: auto; margin-right: auto;"> <tbody> <tr> <td>AAA</td> <td>8.571-10.000</td> <td rowspan="3">Leader:</td> <td rowspan="3">leading its industry in managing the most significant ESG risks and opportunities</td> </tr> <tr> <td>AA</td> <td>7.143-8.570</td> </tr> <tr> <td>A</td> <td>5.714-7.142</td> </tr> <tr> <td>BBB</td> <td>4.286-5.713</td> <td rowspan="3">Average:</td> <td rowspan="3">a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers</td> </tr> <tr> <td>BB</td> <td>2.857-4.285</td> </tr> <tr> <td>B</td> <td>1.429-2.856</td> </tr> <tr> <td>CCC</td> <td>0.000-1.428</td> <td>Laggard:</td> <td>lagging its industry based on its high exposure and failure to manage significant ESG risks</td> </tr> </tbody> </table>	AAA	8.571-10.000	Leader:	leading its industry in managing the most significant ESG risks and opportunities	AA	7.143-8.570	A	5.714-7.142	BBB	4.286-5.713	Average:	a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers	BB	2.857-4.285	B	1.429-2.856	CCC	0.000-1.428	Laggard:	lagging its industry based on its high exposure and failure to manage significant ESG risks
AAA	8.571-10.000	Leader:	leading its industry in managing the most significant ESG risks and opportunities																		
AA	7.143-8.570																				
A	5.714-7.142																				
BBB	4.286-5.713	Average:	a mixed or unexceptional track record of managing the most significant ESG risks and opportunities relative to industry peers																		
BB	2.857-4.285																				
B	1.429-2.856																				
CCC	0.000-1.428	Laggard:	lagging its industry based on its high exposure and failure to manage significant ESG risks																		
Moody's ESG solutions	Moody's assesses the degree to which companies take into account ESG objectives in the definition and implementation of their strategy policies. It believes that a company integrating ESG factors into its business model and relatively outperforming its peers is better positioned to mitigate risks and create sustainable value for shareholders over the medium to long term.																				
Refinitiv ESG rating	Designed to transparently and objectively measure a company's relative ESG performance, commitment and effectiveness across 10 main themes, based on publicly available and auditable data. The score ranges from 0 to 100 on relative ESG performance and insufficient degree of transparency in reporting material ESG data publicly. <i>(Score ratings are 0 to 25 = poor; >25 to 50 = satisfactory; >50 to 75 = good; and >75 to 100 = excellent.)</i>																				
S&P Global	The S&P Global ESG Score is a relative score measuring a company's performance on and management of ESG risks, opportunities, and impacts compared to its peers within the same industry classification. The score ranges from 0 to 100.																				
Bloomberg	ESG Score	Bloomberg score evaluating the company's aggregated Environmental, Social and Governance (ESG) performance. The score is based on Bloomberg's view of ESG financial materiality. The score is a weighted generalized mean (power mean) of Pillar Scores, where the weights are determined by the pillar priority ranking. Values range from 0 to 10; 10 is the best.																			
Bloomberg	ESG Disclosure Score	Disclosure of a company's ESG used for Bloomberg ESG score. The score ranges from 0 for none to 100 for disclosure of every data point, measuring the amount of ESG data reported publicly, and not the performance on any data point.																			

Rating regarding the sustainable development of Thai listed companies, both on the SET and MAI, are publicly available on the website of the Securities and Exchange Commission of Thailand (SEC). Currently, ratings available are 1) "CG Score"; 2) "AGM Level"; 3) "Thai CAC"; and 4) "SETESG". The ratings are updated on an annual basis. FSSIA does not confirm nor certify the accuracy of such ratings.

You can contact the analyst named on the front of this note or your representative at Finansia Syrus Securities Public Company Limited.

All share prices are as at market close on 05-May-2026 unless otherwise stated.

RECOMMENDATION STRUCTURE

Stock ratings

Stock ratings are based on absolute upside or downside, which we define as $(\text{target price}^* - \text{current price}) / \text{current price}$.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Overweight. The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Neutral. The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Underweight. The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (O). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
